

AUSTRALIAN CAPITAL TERRITORY

STOCK DISEASES ACT 1933

DECLARATION

NO. 4 of 1992

Under Section 11H(1) of the Stock Diseases ACT 1933
I REVOKE the declaration dated 12 November 1991 and
published in the ACT Gazette No 50 on 18 December 1991
and DECLARE the following as the manner in which approved
tags shall be attached to defined stock:

1 Cattle including Buffalo, Bull, Cow, Ox, Steer,
Heifer or Calf.

(A) A person who attaches a tag to cattle shall fit the
tag securely around the tail of the cattle immediately
above the brush.

(B) A tag shall be attached to cattle in such a manner
that the particulars of identification borne by the tag
are clearly visible.

2 Swine.

(A) The swine shall be identified by being tattooed with
a carbon-based ink or paste, or similar ink or paste
product, using a branding iron or other device supplied
by a person authorised in accordance with various State
legislations under the Stock Diseases ACT or equivalent.

(B) The ink or paste shall be applied to the characters
of the branding iron or other device prior to its
application to each of the swine.

(C) The branding iron or other device shall be applied on one of the shoulders;

(D) Where it is applied by a person buying or selling the swine (whether on his own behalf or as agent for another) at a saleyard--somewhere on the swine apart from the shoulders.

(E) The branding iron or other device shall be applied so as to impress the characters of the brand through the skin of the swine.

(F) Swine shall be deemed not to be identified in accordance with this notice if, at the time they are sold, or sent or delivered to an abattoir, as the case may be, the brand upon them is more than 7 days old.

Dated: 15 January 1992

The person for the time being holding or performing the duties of the office of senior Executive Band 2, position number 5155, delegate of the Minister for the Environment, Land and Planning.
