About this republication

The republished law

This is a republication of the *Public Health Act 1997* effective from 21 July 2000 to 31 December 2000.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation (Republication) Act 1996*, part 3, division 2 authorised the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation (Republication) Act 1996*, s 14 and s 16). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

PART 1—PRELIMINARY

1 Name of Act

This Act is the *Public Health Act 1997*.

2 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary at the end of this Act defines certain words and expressions used in this Act, and includes references (*signpost definitions*) to other words and expressions defined elsewhere in this Act.

For example, the signpost definition '*notified suspension or cancellation*, of registration—see subsection 56P (1)' means that the expression 'notified suspension or cancellation' is defined in subsection 56P (1).

Division 3.1—General

18 Public health risk activities and procedures—declaration

(1) The Minister may, by instrument, declare an activity that may result in the transmission of disease, or that may otherwise adversely affect the health of individuals in the context of the wider health of the community, to be a public health risk activity.

Example

The Minister could, under subsection (1), declare as a public health risk activity the operation of a health care facility (including a hospital, day surgery or clinic where surgical procedures may be conducted or medical treatment may be provided).

(2) A declaration under this section may, in relation to a public health risk activity, declare 1 or more procedures in relation to that activity to be public health risk procedures.

(3) A declaration must indicate—

- (b) if it is carried on at more than 1 location on particular premises—for each such location.

(6) A declaration under this section is a disallowable instrument.

Note 1 A licence is required to carry on a public health risk activity or procedure that is declared to be licensable (see s 21 and s 42C), subject to the exemptions in sections 22 and 42D.

Note 2 A licence is not required to carry on a public health risk activity or procedure that is declared to be non-licensable.

Public Health Act 1997

Note 3 A licence is not required to carry on a public health risk activity that is declared to be registrable. However, a person must be registered to carry on a registrable public health risk activity (see s 56C), and a location-specific registrable activity (see s 18 (4)) may only be carried on at a location that is registered for the activity (see s 56C (2)).

19 Differential fees

In a determination of fees for the purposes of any provision of this Part under section 137, the Minister may—

- (a) determine different fees to apply in different circumstances; and
- (b) determine exemptions for specified persons, or in specified circumstances.

20 Compliance with codes of practice

(1) A person carrying on a public health risk activity shall not, without reasonable excuse, fail to comply with a code of practice in relation to that activity.

Maximum penalty: 50 penalty units, imprisonment for 6 months or both.

(2) A person performing a public health risk procedure shall not, without reasonable excuse, fail to comply with a code of practice in relation to that procedure.

Maximum penalty: 50 penalty units, imprisonment for 6 months or both.

Division 3.2—Licensable public health risk activities

21 Activity licences—offences

(1) A person must not carry on a licensable public health risk activity unless the person—

- (a) holds an activity licence for the activity; or
- (b) is a defined influential person in relation to the holder of an activity licence for the activity.

Maximum penalty: 50 penalty units, imprisonment for 6 months or both.

(2) A person must not carry on a licensable public health risk activity except in accordance with an activity licence.

Maximum penalty: 50 penalty units.

(3) This section does not apply to a person who is exempt under section 22.

22 Exemption from licensing requirement—activity accreditation schemes

- (1) For subsection 21 (3), a person who carries on a licensable public health risk activity is exempt from the requirement to be licensed if—
- (a) the person is accredited under an activity accreditation scheme for the activity; and
 - (b) the person has not, during the previous year, contravened the activity accreditation standards for the scheme (as modified, if at all, under section 23); and
 - (c) the person carrying on the activity, or a defined influential person in relation to the person, has not, during the previous year, contravened this Act or a corresponding public health risk law.
- (2) The Minister may determine—
- (a) activity accreditation schemes for licensable public health risk activities; and
 - (b) activity accreditation standards for activity accreditation schemes.
- (3) A determination may apply, adopt or incorporate, with or without modification, any matter contained in an instrument as in force or existing from time to time.
- (4) A determination is a disallowable instrument.

- (1) A person who carries on a licensable public health risk activity for which there is an activity accreditation scheme may apply to the Minister for a modification of the activity accreditation standards for the scheme as they apply to the person.
- (2) The application must be—
- (a) in a form approved by the Minister; and
 - (b) accompanied by the determined fee.
- (3) The Minister may, by written notice, require the person to provide stated additional information about the application.
- (4) If the person complies with this section, the Minister must, by written notice to the person, make the modification of the standards sought by the person

unless satisfied that to do so would be likely to lead to a significantly increased risk to public health in the carrying on of the licensable public health risk activity

(5) If the Minister refuses the application, the Minister must give written notice to the person of the refusal stating the reasons for the refusal.

24 Alteration of premises and appliances—offence

(1) A person who carries on a licensable public health risk activity must not, except in accordance with an approval under section 25, make an activity premises alteration or a procedure appliance alteration if the alteration would increase the public health risk associated with the activity.

Maximum penalty: 50 penalty units.

(2) For subsection (1), an activity premises alteration or a procedure appliance alteration is taken to increase the public health risk associated with a public health risk activity if there are reasonable grounds for the person who carries on the activity to believe that the alteration would increase the risk (irrespective of the person's actual belief).

25 Alteration of premises and appliances—approval

(1) A person who carries on a licensable public health risk activity may apply to the Minister for approval of an activity premises alteration or procedure appliance alteration.

(2) The application must be—

- (a) in a form approved by the Minister; and
- (b) accompanied by the determined fee.

(3) The Minister may, by written notice, require the person to provide stated additional information about the application.

(4) If the person complies with this section, the Minister must, by written notice to the person, approve the activity premises or procedure appliance alteration unless satisfied that to do so would be likely to lead to a significantly increased risk to public health in the carrying on of the licensable public health risk activity.

(5) If the Minister refuses the application, the Minister must give written notice to the person of the refusal stating the reasons for the refusal.

29 Activity licence—application

- (1) A person may apply to the Minister for a licence to carry on a public health risk activity.

 - (f) be accompanied by the determined fee.

 - (c) the applicant states that there has been no change in any matter required to be shown in a sketch plan by paragraph (2) (d) since the latest of the following dates:
 - (i) the date of the last presentation of a sketch plan of the premises under that paragraph;

- (ii) the date of the last approval by the Minister of an alteration of the premises under paragraph 27 (1) (b).

(4) The Minister may, by written notice, require the applicant to provide specified further information in writing about the application.

- (b) refuse to grant the licence.

(2) An activity licence may be granted subject to specified conditions.

(3) An activity licence shall not be granted in respect of premises that, at the date of the application, had not been completely constructed, or were being altered, until the Minister is satisfied that the construction of the premises, or the alterations, have been completed.

(4) For the purposes of making a decision under subsection (1) or (2), the Minister shall have regard to the following matters:

- (a) the suitability of the premises for the purpose of carrying on the public health risk activity;

ENDNOTES

1 About this republication

This is a republication of the *Public Health Act 1997* as in force on 23 October 2000. It includes all amendments made to the Act up to Act 2000 No 36.

Amending and modifying laws are annotated in the table of legislation and table of amendments. However, any current modifications are not included in the republished Act but are set out in the endnotes.

The Parliamentary Counsel's Office currently prepares 2 kinds of republications of ACT laws: authorised printed republications to which the *Legislation (Republication) Act 1996* applies and unauthorised electronic republications. The status of a republication appears on its cover and is indicated by its republication number.

A republication number without a letter (eg 1, 2, 3 etc) indicates that the republication is an authorised printed republication. A number with a letter (eg 1A, 1B, 1C etc) indicates that the republication is an unauthorised electronic republication.

Section 13 of the *Legislation (Republication) Act 1996* authorises the Parliamentary Counsel, in preparing a law for republication, to make textual amendments of a formal nature which the Parliamentary Counsel considers desirable in accordance with current legislative drafting practice. The amendments do not effect a substantive change in the law.

In preparing this republication, amendments have not been made under section 13.

Not all amendments made under section 13 are annotated in the table of amendments. Full details of any amendments can be obtained from the Parliamentary Counsel's Office.
