About this republication

The republished law

This is a republication of the *Independent Competition and Regulatory Commission Act 1997* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 14 October 2015. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 14 October 2015.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the *Legislation Act 2001*, section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$150 for an individual and \$750 for a corporation (see *Legislation Act 2001*, s 133).

Independent Competition and Regulatory Commission Act 1997

An Act to establish an independent commission to regulate pricing, access and other matters in relation to industries involving the provision of water, electricity and sewerage services, and other industries, and to investigate competitive neutrality complaints and government-regulated activities

Part 1 Preliminary

1 Name of Act

This Act is the *Independent Competition and Regulatory Commission Act 1997*.

2 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary at the end of this Act defines certain terms used in this Act, and includes references (*signpost definitions*) to other terms defined elsewhere in this Act.

For example, the signpost definition '*industry reference*—see section 14A.' means that the term 'industry reference' is defined in that section.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see [Legislation Act](#), s 155 and s 156 (1)).

2A Notes

A note included in this Act is explanatory and is not part of this Act.

Note See the [Legislation Act](#), s 127 (1), (4) and (5) for the legal status of notes.

2B Joint ownership, control or operation

A reference in this Act to a person who owns, controls or operates infrastructure facilities includes a reference to each of 2 or more people who jointly own, control or operate infrastructure facilities.

3 Joint provision of services

A reference in this Act to a person who provides services includes a reference to each of 2 or more people who jointly provide services.

3A Who is a referring authority?

- (1) For an industry reference, the *referring authority* is as follows:
 - (a) for an industry engaged in the provision in the ACT of electricity, water or sewerage services—the Minister;
 - (b) for an industry engaged in the provision in the ACT of gas services—the Minister;
 - (c) for any other regulated industry—the Minister who has, under section 4, declared that industry to be regulated;
 - (d) for regulated industries in general—the Minister;
 - (e) for another industry, or industries in general—the Minister;
 - (f) for a reference provided for by another law of the Territory—the person authorised under that law to refer a matter to the commission.
- (2) For a regulatory reference, the *referring authority* may be any of the following:
 - (a) the Minister responsible for the relevant government activity;
 - (b) a member of the Legislative Assembly;
 - (c) the commission;
 - (d) any other person.
- (3) For a regulatory reference, a *self-funding referring authority* may be either of the following:
 - (a) a member of the Legislative Assembly whose reference is not sponsored by the Territory (under section 19K (4));
 - (b) any other person (other than a Minister or the commission).

4 Regulated industries—declarations

- (1) Any Minister may declare an industry to be a regulated industry for this Act.
- (2) A Minister may make a declaration under subsection (1) if the Minister certifies that—
 - (a) the industry infrastructure facilities are in whole or in part owned, controlled or operated by the Territory or a territory authority; or
 - (b) the industry involves the provision of services in the ACT in whole or in part by or on behalf of the Territory or a territory authority; or
 - (c) the industry infrastructure facilities are wholly or substantially owned, controlled or operated by a single person; or
 - (d) the industry involves the provision of services in the ACT wholly or substantially by or on behalf of a single person.
- (3) A declaration under subsection (1) is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the [Legislation Act](#).

4A National electricity rules—electricity distribution and transmission pricing

- (1) On and after the day when ACT distribution service pricing becomes regulated under the national electricity rules, no reference may be made under this Act for a price regulation investigation into that service.
- (2) However, a provision of a price direction for a matter related to ACT distribution service pricing that is in force on the day when prices for the service become regulated under the national electricity rules continues in force (subject to the direction) after that day until the jurisdictional regulator makes a direction about that matter.

(3) No reference may be made under this Act for a price regulation investigation into ACT transmission service pricing.

(4) In this section:

ACT distribution service means a distribution service within the meaning given by the national electricity rules for distribution networks (within the meaning of the rules) situated in the ACT.

ACT transmission service means a transmission service within the meaning given by the national electricity rules for transmission networks (within the meaning of the rules) situated in the ACT.

jurisdictional regulator means the commission in its capacity as jurisdictional regulator under the national electricity rules.

Note 1 The day when distribution service pricing will become regulated under the national electricity rules is fixed at 31 December 2000 (by the ACT derogation under the rules), but may be changed under the derogation.

Part 3 Investigations

Division 3.1 Industry references

14A Application of div 3.1—industry references

This division applies to a reference to the commission (an *industry reference*) for an investigation into an industry, or industry in general.

15 Nature of industry references

- (1) A referring authority may provide an industry reference to the commission in relation to any of the following matters:
 - (a) prices for regulated services;
 - (b) competition within a regulated industry;
 - (c) any other matter in relation to a regulated industry;
 - (d) any matter in relation to regulated industries in general;
 - (e) any other matter in relation to an industry, or industries in general;
 - (f) any matter provided for by another law of the Territory.
- (2) The fact that a price direction is in force in relation to a regulated industry does not preclude a further investigation of prices in the industry, or the making of a new price direction in relation to prices in the industry.
- (3) An industry reference may limit the scope of the investigation and report to a particular aspect of the regulated industry, or to a particular period during which the industry has been operating, or in any other matter.

- (4) An industry reference that authorises the commission to make a price direction about maximum prices for the sale of energy to small customers (however described) may state the NERL retailer to whom the direction is to apply.
- (5) An industry reference may relate to a number of goods or services supplied by the same or different suppliers.
- (6) An industry reference may be withdrawn or amended by the referring authority at any time before the commission has delivered its report to the person.
- (7) If an industry reference is amended or withdrawn, the referring authority must prepare a written notice setting out the reasons for the amendment or withdrawal.
- (8) The referring authority must give a copy of the notice to the commission.
- (9) The notice is a notifiable instrument.

Note A notifiable instrument must be notified under the [Legislation Act](#).

16 Terms of industry references

- (1) The referring authority may determine terms of reference for an investigation on an industry reference.
- (2) The terms of reference may include 1 or more of the following:
 - (a) a specification of a period within which a report is required to be submitted to the referring authority;
 - (b) a requirement that the commission consider specified matters;
 - (c) except in relation to price regulation, the making of a price direction and any related investigation and report—a requirement that the commission exercise its functions subject to any subsequent written direction of the authority.

- (3) A determination under subsection (1) is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the [Legislation Act](#).

- (4) A referring authority must cause a direction mentioned in subsection (2) (c) to be presented to the Legislative Assembly within 6 sitting days after it is given.

17 Procedure for industry reference investigations

- (1) If the commission receives an industry reference, the commission must conduct an investigation as authorised by the terms of the reference.
- (2) For the purpose of conducting an investigation, the commission may—
- (a) request submissions from the public or any specified person or body; or
 - (b) conduct hearings.
- (3) Unless the commission otherwise orders, hearings must be open to the public.
- (4) In a price regulation investigation, the commission—
- (a) must invite public submissions and conduct public hearings; and
 - (b) is not required to hear submissions from every person attending a public hearing.
- (5) On an industry reference, the commission is not to question the amount of a declared fee or the basis on which the fee is worked out.
- (6) Subject to this Act, the commission may conduct an investigation in any way the commission considers appropriate.

18 Draft reports—industry reference investigations

- (1) Before giving the referring authority a final report into an investigation on an industry reference, the commission must prepare a notice—
 - (a) stating that copies of a draft report into the investigation are available for public inspection and purchase during a stated period of not less than 20 business days at a stated place or places; and
 - (b) inviting interested people to submit written comments about the draft report to the commission at a stated address and within a stated period of not less than 20 business days.
- (2) The notice is a notifiable instrument.

Note A notifiable instrument must be notified under the [Legislation Act](#).
- (3) The commission must give additional public notice of the notice.

Note **Public notice** means notice on an ACT government website or in a daily newspaper circulating in the ACT (see [Legislation Act](#), dict, pt 1). The requirement in s (3) is in addition to the requirement for notification on the legislation register as a notifiable instrument.
- (4) The commission must make copies of a draft report into an investigation available for public inspection and purchase during office hours during the period, and at the places, specified in the notice.
- (5) A draft report into a price regulation investigation must include all of the following:
 - (a) a proposed price direction (or variation);
 - (b) a proposed statement of reasons for the direction (or variation);
 - (c) any proposed report by a commissioner dissenting from proposed majority findings of the commission.

- (6) In preparing its final report of an investigation, the commission must take into consideration any written comments submitted in accordance with the invitation in subsection (1) in relation to the draft report of the investigation.

19 Costs for industry reference investigations

- (1) The reasonable costs of an investigation on an industry reference into a regulated industry, as assessed by the commission and notified to the person who is (or the people who are) to pay the costs, are payable to the commission by—
- (a) if the industry is a regulated industry because of its infrastructure facilities being owned, controlled or operated by the Territory or a territory authority—the Territory or territory authority; or
 - (b) if the industry is a regulated industry because of the provision of services in the industry by or on behalf of the Territory or a territory authority—the Territory or territory authority; or
 - (c) if the industry is a regulated industry because of the ownership, control or operation of its infrastructure facilities wholly or substantially by a single person—the person who owns, controls or operates the facilities; or
 - (d) if the industry is engaged in the provision in the ACT of a utility service—the utility or utilities responsible for the provision of the service; or
 - (e) if the industry is a regulated industry because of the provision of any other services wholly or substantially by or on behalf of a single person—the person who provides those services.
- (2) The costs of an investigation payable by a territory authority or a person mentioned in subsection (1) (c) or (d) are a debt owing to the Territory.

- (3) Costs payable under subsection (1) include any costs incurred by the commission in obtaining the assistance of any other person, body (whether incorporated or unincorporated) or government agency.
- (4) If more than 1 utility is liable to pay costs under subsection (1) (d), the commission must, by written notice to each utility, determine the proportion of those costs to be borne by each utility.

Division 3.2 Regulatory references

19A Application of div 3.2—regulatory references

This division applies to a reference to the commission (a *regulatory reference*) for an investigation into a competitive neutrality complaint or a government-regulated activity.

19B Acceptance of regulatory references—competitive neutrality complaints

- (1) On a written submission by a referring authority (other than the commission itself) setting out proposed terms of reference for an investigation into a competitive neutrality complaint, the commission may accept the reference in those terms (or in other terms agreed between the commission and the referring authority).
- (2) The commission may accept the reference only if—
 - (a) it considers that there are legitimate grounds for the complaint; and
 - (b) it considers that the proposed investigation would be in the public interest, taking into account the competition policy considerations (as set out in schedule 1); and

- (3) If the commission accepts the reference, it must prepare a written notice of acceptance that sets out the terms of reference for the investigation.
- (4) The commission must give a copy of the notice to the referring authority.

**19C Acceptance of regulatory references—
government-regulated activities**

 - (a) it considers that the proposed investigation would be in the public interest, taking into account the competition policy considerations (as set out in schedule 1); and

- (3) The commission must—
 - (a) if it makes an amendment under subsection (1)—give notice of the amendment to the referring authority and, if the referring authority is not a Minister, to the responsible Minister; or
 - (b) if it makes an amendment under subsection (2)—give notice of the amendment to the responsible Minister.

19K Costs for regulatory reference investigations

- (1) A self-funding referring authority must pay the reasonable costs of an investigation on a regulatory reference by the authority, as assessed by the commission and notified to the authority.
- (2) The costs of an investigation on a reference by a self-funding referring authority are a debt owing to the Territory.
- (3) The Territory must pay the reasonable costs of an investigation on a regulatory reference, as assessed by the commission and notified to the referring authority, if the authority is—
 - (a) a Minister; or
 - (b) a member of the Legislative Assembly sponsored by the Minister under subsection (4).

Part 4 Price directions

20 Directions about prices

- (1) At the conclusion of an investigation on a reference authorising the commission to make a price direction in a regulated industry, the commission must decide on the level of prices for services in relation to the period specified in the reference and give a price direction accordingly to each person providing regulated services to whom the direction applies.
- (2) In making a decision under subsection (1), the commission must have regard to—
 - (a) the protection of consumers from abuses of monopoly power in terms of prices, pricing policies (including policies relating to the level or structure of prices for services) and standard of regulated services; and
 - (b) standards of quality, reliability and safety of the regulated services; and
 - (c) the need for greater efficiency in the provision of regulated services to reduce costs to consumers and taxpayers; and
 - (d) an appropriate rate of return on any investment in the regulated industry; and
 - (e) the cost of providing the regulated services; and
 - (f) the principles of ecologically sustainable development mentioned in subsection (5);
 - (g) the social impacts of the decision; and
 - (h) considerations of demand management and least cost planning; and

- (i) the borrowing, capital and cash flow requirements of people providing regulated services and the need to renew or increase relevant assets in the regulated industry; and
 - (j) the effect on general price inflation over the medium term; and
 - (k) any arrangements that a person providing regulated services has entered into for the exercise of its functions by some other person.
- (3) Also, in making a decision under subsection (1), the commission must allow a declared fee to be passed on in full to consumers of the service.
- (4) In a price direction, the commission must indicate to what extent it has had regard to the matters referred to in subsection (2).
- (5) For subsection (2) (f), *ecologically sustainable development* requires the effective integration of economic and environmental considerations in decision-making processes through the implementation of the following principles:
- (a) the precautionary principle—that if there is a threat of serious or irreversible environmental damage, a lack of full scientific certainty should not be used as a reason for postponing measures to prevent environmental degradation;
 - (b) the inter-generational equity principle—that the present generation should ensure that the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations;
 - (c) conservation of biological diversity and ecological integrity;
 - (d) improved valuation and pricing of environmental resources.

20A Price regulation provisions

- (1) A price direction must include a direction about the pricing of regulated services in the form of either or both of the following:
 - (a) a price, a maximum price or both a minimum and maximum price for each regulated service;
 - (b) a maximum total amount (*revenue cap*) that may be earned by a person providing regulated services from the provision of those services.
- (2) A price direction must be made in accordance with the current reset principles for the regulated industry (see section 20B).
- (3) A price direction may include any or all of the following:
 - (a) a formula for calculating a price or amount mentioned in subsection (1);
 - (b) a method by which a price or amount mentioned in subsection (1) is to be ascertained;
 - (c) a reference to an event or events (*price variation triggers*) the happening of which would entitle the commission to initiate a reference for an investigation into a variation of the direction (under section 24F (Commission-initiated variation)).

Example for par (c)—method

by reference to price indices

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

20B Reset principles

- (1) *Reset principles* are principles governing the redetermination of prices or revenue caps in a regulated industry.

- (2) ***Current reset principles*** governing a price direction for a regulated industry are the reset principles currently in force in the industry (because of a previous price direction).
- (3) ***Future reset principles*** are reset principles included in a price direction that are to take effect after the end of the current reset principles.
- (4) In a price direction, the commission may not—
 - (a) vary, omit or replace the current reset principles; or
 - (b) include any future reset principles that will have the effect of varying, omitting or replacing the current reset principles in their application at a future date.
- (5) The commission may fix a period of effect for a price regulation provision of a price direction for regulated services that ends before the day when the current reset principles for the regulated services end.
- (6) If the current reset principles governing a price direction (***the earlier direction***) will end on or before the date when any price regulation provisions in the earlier direction (***the earlier provision***) will end, the earlier direction must include future reset principles governing any price regulation provision (in the next price direction for the industry) that will supersede the earlier provision.

20C Effective dates

- (1) Each provision of a price direction—
 - (a) comes into effect on a day ascertained in accordance with the direction, or 14 days after the day the final report containing the direction is presented to the Legislative Assembly, whichever is later; and
 - (b) remains in effect until a day ascertained in accordance with the direction.

- (2) Under subsection (1), the dates and periods of effect of different provisions of a price direction may be different.

Note The dates and periods of effect of the price regulation provisions of the direction and any future reset principles in the direction will necessarily be different (see s 20B (3)).

Part 4A Reports of investigations

21 Final reports

- (1) On concluding an investigation, the commission must give the referring authority a final report containing—
 - (a) particulars of the results of its investigations; and
 - (b) for an industry reference—particulars of any comments submitted in relation to the draft report of the investigation pursuant to the invitation in section 18 (1), and of the commission's response to those comments; and
 - (c) for a price direction or price variation investigation—
 - (i) a copy of the price direction; and
 - (ii) a statement of the reasons for the direction; and
 - (iii) a statement of the methodology used in determining the direction; and
 - (iv) a statement to the effect that review of the decision by an industry panel (except for a price variation by consent) is available under part 4C (Review of price directions), subject to procedures explained in the statement;
 - (d) the commission's findings on any other matter required by the reference; and
 - (e) any report by a commissioner dissenting from majority findings of the commission; and

22 Special reports

- (1) The commission may, at any stage of an investigation, give the referring authority and (if the referring authority is not a Minister) the responsible Minister a special report on any matter arising from the investigation.
- (2) A special report about a matter must include any report by a commissioner dissenting from majority findings of the commission about the matter.
- (3) If the referring authority is not a Minister, the commission must also give a copy of the special report to the responsible Minister.

23 Confidential material in reports

- (1) If a final report or a special report includes protected confidential information, the commission must divide the report into 2 documents, as follows:
 - (a) a document (the *sealed section*) containing the confidential information, or part of that information;
 - (b) a document (the *unsealed section*) containing the rest of the report.
- (2) If the commission divides a report, the commission must include in the unsealed section—
 - (a) a statement to the effect that there is a sealed section of the report including protected confidential information; and
 - (b) a general description of the contents of the sealed section.

- (3) In this section:

protected confidential information means confidential information the commission does not have the power to disclose under section 46 or under any law of the Territory other than this Act.

24 Presenting of reports to Legislative Assembly

- (1) The referring authority, or the responsible Minister (if the referring authority is not a Minister), must cause a copy of a final report or a special report to be presented to the Legislative Assembly within 6 sitting days after the report is given to the referring authority or responsible Minister.
- (2) If a report is divided into a sealed section and an unsealed section, only the unsealed section is required to be presented to the Legislative Assembly under subsection (1).

24A Response by Minister to report on competitive neutrality complaint

- (1) This section applies if a final report on an investigation into a competitive neutrality complaint is presented to the Legislative Assembly.
- (2) Within 3 months after the report is presented to the Legislative Assembly, the Minister who caused the report to be presented to the Assembly must present a written response to the Assembly.

24B Correction of errors in reports

- (1) At any time after a final report or a special report on an investigation is given to the referring authority, the commission may, by a supplementary report, correct any error in the report arising from a clerical mistake or an accidental slip or omission.

Part 4A Reports of investigations

Section 24B

- (2) The commission must give a supplementary report to the referring authority, and section 23 and section 24 apply to the supplementary report as if it were a final or special report.
- (3) If the referring authority is not a Minister, the commission must also give a copy of the supplementary report to the responsible Minister.
- (4) When a supplementary report is presented to the Legislative Assembly, the report has effect as corrected.

Part 4B **Variation of price directions**

Division 4B.1 **Consent variations**

24C **Consent variations**

- (1) A referring authority for a regulated service, or a utility providing a regulated service, may apply in writing to the commission for consent to a variation of a price direction in force for the service.
- (2) The commission may consent to the variation applied for by giving the applicant a written report (a *consent report*) to that effect.
- (3) The commission may consent to a variation only if satisfied on reasonable grounds that the variation is—
 - (a) justified, having regard to the criteria listed at section 20 (2); and
 - (b) in accordance with the current reset principles for the regulated service.
- (4) However, in deciding whether to consent to a variation, the commission must allow a declared fee to be passed on in full to consumers of the service.
- (5) The commission may not consent to a variation of a direction with the effect of—
 - (a) varying, omitting or replacing the current reset principles for the regulated service, or any future reset principles included in the direction; or
 - (b) including any future reset principles into the price direction.
- (6) The following sections apply to a consent report as if it were the final report into a price regulation investigation:
 - section 21 (Final reports)

- section 23 (Confidential material in reports)
- section 24 (Presenting of reports to Legislative Assembly)
- section 24B (Correction of errors in reports).

- (7) When presented to the Legislative Assembly under section 24, a consent report has the effect of varying the provisions of the price direction as indicated in the report with effect from a day (or days) ascertained in accordance with the report, or 14 days after the report is presented to the Assembly, whichever is later.

Division 4B.2 Nonconsent variations

24D Reference by referring authority

- (1) The referring authority for a regulated service may provide a reference for part 3 (Investigations) requiring the commission to investigate whether a price direction in force for the service should be varied.
- (2) The commission may accept the reference from the referring authority only if, in the opinion of the commission based on reasonable grounds, there has been a material change in the cost conditions for the provision of the regulated service.

24E Reference by utility

- (1) A utility providing a regulated service may provide a reference for part 3 requiring the commission to investigate whether a price direction in force for the service should be varied.
- (2) The commission may accept the reference from the utility only if, in the opinion of the commission based on reasonable grounds—
 - (a) there has been a material change in the cost conditions for the provision of the regulated service; and

- (b) the change was brought about by external events beyond the control of the utility.
- (3) The external events mentioned in subsection (2) (b) include the following:
 - (a) a Ministerial direction under section 19 (Ministerial directions) of the *Utilities Act 2000*;
 - (b) the approval or determination of an industry code under the *Utilities Act 2000* or the approval of a technical code under the *Utilities (Technical Regulation) Act 2014*.
- (4) Terms of reference for the variation—
 - (a) may be specified by the utility under section 16 (Terms of industry references); and
 - (b) are not a disallowable instrument.

24F Commission-initiated variation

- (1) The commission may initiate a reference for part 3 (Investigations) for the investigation of whether a price direction in force for regulated services should be varied.
- (2) The commission may only initiate a reference for the variation of a price direction if a price variation trigger stated in the price direction has happened.
- (3) Terms of reference for the variation—
 - (a) may be specified by the commission under section 16 (Terms of industry references); and
 - (b) are not a disallowable instrument.

24G Permissible nonconsent variations

- (1) The commission may vary a price direction only if it is satisfied on reasonable grounds that the variation is—
 - (a) justified by the material change in cost conditions, or price variation trigger, that is the basis for the investigation, having regard to the criteria listed at section 20 (2); and
 - (b) in accordance with the current reset principles for the regulated service.
- (2) The commission may not vary a price direction so as to—
 - (a) vary, omit or replace the current reset principles for the regulated service; or
 - (b) include any future reset principles into the price direction that will have the effect of varying, omitting or replacing the current reset principles for the regulated service in their application at a future date.
- (3) Subject to subsections (1) and (2), the commission may vary a price direction to vary, omit or replace any future reset principles in the direction, or to include future reset principles into the direction.

24H Procedure for nonconsent price variation investigation

- (1) The commission must conduct a price variation investigation in the same way as a price direction investigation.
- (2) However, in deciding whether to vary a price direction under this division, the commission must allow a declared fee to be passed on in full to consumers of the service.

24I Effect of nonconsent price variations

When presented to the Legislative Assembly under section 24 (Presenting of reports to Legislative Assembly), a report into a price variation investigation has the effect of varying the provisions of the price direction as indicated in the report (if at all) with effect from a day (or days) ascertained in accordance with the report, or 14 days after the report is presented to the Assembly, whichever is later.

Part 4C Review of price directions

- (1) Either of the following people may apply for the review by an industry panel of a price direction for regulated services:
 - (a) the referring authority;
 - (b) a utility providing the services (or any of them).

- (2) A party to a review may be represented by another person.

24M Industry panel

- (1) An application for review must be heard by a panel (an *industry panel*) of 3 members.
- (2) Provisions for the constitution of the panel and for the terms of office of the panel and panel members are set out in schedule 3.
- (3) The [Legislation Act](#), division 19.3.3 (Appointments—Assembly consultation) does not apply in relation to an appointment to an industry panel.

24N Nature of review

- (1) On an application for review of a price direction, an industry panel may—
 - (a) substitute a new price direction for the original price direction;
or
 - (b) confirm the original direction.

- (2) An industry panel must make a decision on an application for review—
 - (a) on the merits of the case, having regard to the criteria listed at section 20 (2) for price directions; and
 - (c) as required by section 20A, section 20B and section 20C for price directions.
- (3) Despite subsection (2), the panel may not consider any matter on an application for review that was not raised on behalf of the applicant in submissions to the commission for the purposes of the investigation of the price direction that is the subject of the review.
- (4) An industry panel review is not a legal proceeding for the [Criminal Code](#), chapter 7 (Administration of justice offences).

24O Procedure for review

- (1) In considering an application for review, an industry panel has the same powers as the commission in conducting a price regulation investigation.
- (2) Without limiting subsection (1), the following provisions apply to the panel on the hearing of the application for review as if it were the commission conducting a price regulation investigation:
 - section 17 (Procedure for industry reference investigations)
 - section 18 (Draft reports (industry reference investigations))
 - part 7 (Information)

- (2) The party must pay all the expenses of any person in complying with a requirement on a request under subsection (1).

24R Frivolous or vexatious applications

If an industry panel considers that an application for review is frivolous or vexatious, it may, at any stage during the hearing—

- (a) by a written direction, dismiss the application; and
- (b) at the request of any party, make a written declaration preventing any subsequent application for the review of any price direction by the applicant from being heard without leave of an industry panel established for the purpose of the later application.

24S Implementation of price direction under review

- (1) A price direction has effect despite any application for its review, unless the industry panel, on an application by a party, declares in writing that the implementation of the price direction is suspended or altered until—
 - (a) if the panel confirms the price direction under review—the day the report of the review is presented to the Legislative Assembly (under section 24U (Functions of the commission)); or
 - (b) if the panel substitutes a new direction for the price direction under review—the day (or days) the substituted direction comes into effect.
- (2) The declaration of suspension or alteration is taken to be a variation of the price direction while the direction remains in force.
- (3) The following sections apply to the declaration of suspension or alteration as if it were the final report of a price regulation investigation:
 - section 21 (Final reports)
 - section 23 (Confidential material in reports)
 - section 24 (Presenting of reports to Legislative Assembly)
 - section 24B (Correction of errors in reports).

24T Effect of decision

- (b) each provision of the substituted direction remains in effect until a day ascertained in accordance with the direction; and
- (c) the date and period of effect of different provisions of the substituted direction may be different; and
- (d) this Act applies as if the substituted price direction were a price direction made by the commission (subject to subsection (2))—

Example

The substituted price direction may be varied under part 4B (Variation of price directions).

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

- (2) A substituted direction may not be reviewed under this part.

24U Functions of commission

- (1) The commission must give an industry panel any assistance the panel requires, including the provision of all the information available to the commission in the original investigation.

- (2) Any liability that would, apart from this section, attach to a person who is or has been a member of an industry panel attaches instead to the Territory.
- (3) A person who is or has been a party to an application or a representative of a party is not personally liable for anything done, or omitted to be done, honestly and without recklessness, as a party to an application or a representative of a party.

Part 5 Access agreements

25 Notice of access agreements

(d) any other details prescribed by regulation.

27 Investigations into access agreements

This part does not prevent the commission from conducting an investigation under part 3 into an access agreement or proposed access agreement.

28 Failure to notify proposals and agreements

- (1) If a person fails to notify the commission under section 25 of a proposal for an access agreement, or under section 26 of entering into an access agreement, the commission may request the person to provide the commission with written reasons for that failure.
- (2) The commission must give a report to the Minister about a failure to notify a proposal for an access agreement or the entering into of an access agreement, and include in the report any reasons provided under subsection (1).
- (3) A failure to comply with section 25 or section 26, or a failure by the commission to give advice under section 25, does not affect the validity of the agreement.

access provider, in relation to an access regime for the provision of services, means the person that wholly or substantially owns, controls or operates the infrastructure facilities by means of which the services are provided.

third party, in relation to an access regime for the provision of services, means a person who wants access to the services, or wants a change to some aspect of access to the services, and who is in dispute with the access provider, being a dispute to which section 32 applies.

31 Application—pt 6

This part does not apply to the arbitration of a dispute in relation to an access regime if another law of the Territory (other than the [Commercial Arbitration Act 1986](#)) applies to the arbitration.

32 Access disputes

- (1) If a dispute exists in relation to an access regime that provides for the application of this part, a party to the dispute may refer the dispute to arbitration under this part.
- (2) A dispute is to be taken to exist in relation to such an access regime if—
 - (a) the third party and the access provider are unable to agree about any aspect of access to the services provided under that regime; or

- (b) the third party and the access provider are unable to agree about a variation of an existing determination.
- (3) The parties to a dispute are the third party and the access provider.

33 Arbitrator—appointment and functions

- (1) The commission, or a person appointed under subsection (2), may act as arbitrator to hear and determine a dispute referred to arbitration under this part.
- (2) The commission may appoint 1 or more people to act as arbitrators to hear and determine disputes referred to arbitration under this part.
- (3) If a dispute concerns the application of a price direction to an access regime, the senior commissioner must ensure—
 - (a) that no commissioner who took part in the price direction investigation takes any part in arbitrating the dispute; and
 - (b) that no agency, body or person who assisted in the price direction investigation under an arrangement mentioned in section 12 assists the commission in arbitrating the dispute.
- (4) For a dispute involving a third party wanting, but not having, access to a service, the arbitrator must give public notice of the dispute inviting public submissions to the arbitrator about the dispute, and specifying when and how submissions may be made.

Note **Public notice** means notice on an ACT government website or in a daily newspaper circulating in the ACT (see [Legislation Act](#), dict, pt 1).

- (5) In the arbitration of a dispute referred under this part, or in the variation of an existing determination, the arbitrator must consider the following matters:
 - (a) the matters set out in the competition principles agreement, clause 6 (4) (i), (j) and (l), in the form in which those matters are set out in schedule 4;

- (b) any guidelines for the access regime determined following an investigation;

 - (d) the value to the access provider of any extensions to the infrastructure facilities the cost of which is borne by someone else;
 - (e) any other matters the arbitrator considers relevant.
- (6) Part 7 and part 8 apply in relation to an arbitration as if references in those parts to the commission were references to the arbitrator.
- (7) However, an arbitration is not a legal proceeding for the [Criminal Code](#), chapter 7 (Administration of justice offences).
- (8) If the competition principles, clause 6 (4) (i), (j) or (l) is varied, a regulation may amend schedule 4 accordingly with effect (retrospective if necessary) from the date of effect of the variation.

34 Draft determinations

Before making a determination in relation to a dispute, an arbitrator must issue a draft determination to each party.

35 Arbitration determinations

- (1) An arbitrator must decide a dispute by making a written determination on access to the services by the third party.
- (2) A determination may deal with any matter relating to access by the third party to the services, including matters that were not the basis for the notification of the dispute, and matters like the following:
- (a) a requirement of the access provider to give access to specified services to the third party;

- (b) a requirement that the third party accept, and pay for, access to the services;
 - (c) a determination of the terms and conditions of access to the services;
 - (d) a requirement that the access provider extend the infrastructure facility;
 - (e) a determination of the extent to which the determination is to override any earlier determination relating to access to the services by the third party.
- (3) A determination must not require the access provider to bear any of the costs of extending infrastructure facilities or of maintaining those extensions.
 - (4) A determination does not have to require the access provider to provide access to the services by the third party.
 - (5) A determination may vary the effect of a price determination as it affects the parties to the dispute.

36 Effect of determinations

- (1) The parties to an arbitration must give effect to a determination in relation to the arbitration.
- (2) If a determination is in favour of a third party's access to services, the access provider must not engage in conduct for the purpose of preventing or hindering the third party's access to the services under the determination.

37 Termination of arbitration by parties

An arbitration may be terminated by the party that referred the dispute to arbitration at any time before the arbitrator makes a determination.

- (b) the subject matter of the dispute was trivial, misconceived or lacking in substance;
- (c) the party who notified the dispute has not engaged in negotiations honestly;
- (d) access to the services should continue to be governed by an existing contract between the access provider and the third party;
- (e) if the dispute is about varying an existing determination—there is no sufficient reason why the previous determination should not continue to have effect in its present form.

39 Variation of determinations

- (1) An arbitrator may vary a determination on the application of any party.
- (2) An arbitrator must not vary a determination if the other party objects, but may deal with the matter by way of a dispute on referral by either party.

 - (b) the party would be unfairly disadvantaged otherwise.
- (4) An arbitration is to be heard in private, unless the arbitrator otherwise directs.
- (5) An arbitrator may direct that the costs of an arbitration are to be paid (in whole or in part) by the commission or the Territory.
- (6) For the *Commercial Arbitration Act 1986*, section 34 (1), without limiting the fees and expenses of the arbitrator mentioned in that subsection, the arbitrator's fees and expenses include all costs incurred by the arbitrator and by the commission in relation to the arbitration, including the following:

(see s 19C, s 19D and s 19J)

Competition policy considerations

Interpretation

[competition principles agreement cl 1 (3) (d)-(j)]

1

...

(3)

...

- (d) government legislation and policies relating to ecologically sustainable development;
- (e) social welfare and equity considerations, including community service obligations;
- (f) government legislation and policies relating to matters such as occupational health and safety, industrial relations and access and equity;
- (g) economic and regional development, including employment and investment growth;
- (h) the interests of consumers generally or of a class of consumers;
- (i) the competitiveness of Australian businesses;
- (j) the efficient allocation of resources.

Competitive neutrality principles

Competitive neutrality policy and principles

[competition principles agreement cl 3 (1) & (4)-(7)]

- 3 (1) The objective of competitive neutrality policy is the elimination of resource allocation distortions arising out of the public ownership of

entities engaged in significant business activities: Government businesses should not enjoy any net competitive advantage simply as a result of their public sector ownership. These principles only apply to the business activities of publicly owned entities, not to the non-business, non-profit activities of these entities.

- (4) Subject to subclause (6), for significant Government business enterprises which are classified as “Public Trading Enterprises” and “Public Financial Enterprises” under the Government Financial Statistics Classification:
- (a) the Parties[†] will, where appropriate, adopt a corporatisation model for these Government business enterprises (noting that a possible approach to corporatisation is the model developed by the intergovernmental committee responsible for GTE National Performance Monitoring); and
 - (b) the Parties[†] will impose on the Government business enterprise:
 - (i) full Commonwealth, State and Territory taxes or tax equivalent systems;
 - (ii) debt guarantee fees directed towards offsetting the competitive advantages provided by government guarantees; and
 - (iii) those regulations to which private sector businesses are normally subject, such as those relating to the protection of the environment, and planning and approval processes, on an equivalent basis to private sector competitors.
- (5) Subject to subclause (6), where an agency (other than an agency covered by subclause (4)) undertakes significant business activities as part of a broader range of functions, the Parties[†] will, in respect of the business activities:
- (a) where appropriate, implement the principles outlined in subclause (4); or
 - (b) ensure that the prices charged for goods and services will take account, where appropriate, of the items listed in subclause (4) (b), and reflect full cost attribution for these activities.

- (6) Subclauses (4) and (5) only require the Parties[†] to implement the principles specified in those subclauses to the extent that the benefits to be realised from implementation outweigh the costs.
- (7) Subclause (4) (b) (iii) shall not be interpreted to require the removal of regulation which applies to a Government business enterprise or agency (but which does not apply to the private sector) where the Party[†] responsible for the regulation considers the regulation to be appropriate.

...

Note [not included in the agreement]:

[†] **Party** is defined in the agreement (cl 1 (1)) to mean the Commonwealth, a State, the Australian Capital Territory or the Northern Territory of Australia, if the jurisdiction concerned has signed the agreement and has not withdrawn. The Australian Capital Territory has signed the agreement and has not withdrawn from it; thus it is a party.

Legislation review principles

Legislation review

[competition principles agreement cl 5 (1) & (9)]

- 5 (1) The guiding principle is that legislation (including Acts, enactments, ordinances or regulations) should not restrict competition unless it can be demonstrated that:
 - (a) the benefits of the restriction to the community as a whole outweigh the costs; and
 - (b) the objectives of the legislation can only be achieved by restricting competition.
- ...
- (9) Without limiting the terms of reference of a review, a review should:
 - (a) clarify the objectives of the legislation;
 - (b) identify the nature of the restriction on competition;
 - (c) analyse the likely effect of the restriction on competition and on the economy generally;
 - (d) assess and balance the costs and benefits of the restriction; and
 - (e) consider alternative means for achieving the same result including non-legislative approaches.
