**A1997-92**

**Republication No 1B**

**Effective: 21 September 2000 – 4 April 2001**

Republication date: 24 September 2020

## About this republication

### The republished law

This is a republication of the *Environment Protection Act 1997* effective from 21 September 2000 to 4 April 2001.

### Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at [www.legislation.act.gov.au](http://www.legislation.act.gov.au)):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

### Editorial changes

The *Legislation (Republication) Act 1996*, part 3, division 2 authorised the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation (Republication) Act 1996*, s 14 and s 16). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

## **Environment Protection Act 1997**

An Act to provide for the protection of the environment and for related purposes

### **PART 1—PRELIMINARY**

#### **1 Short title**

This Act may be cited as the *Environment Protection Act 1997*.

#### **2 Commencement**

(1) Section 1 and this section commence on the day on which this Act is notified in the Gazette.

(2) The remaining provisions commence on a day, or respective days, fixed by the Minister by notice in the Gazette.

(3) If a provision referred to in subsection (2) has not commenced before the end of the period of 6 months commencing on the day on which this Act is notified in the Gazette, that provision, by force of this subsection, commences on the first day after the end of that period.

### **3 Objects**

**(1)** The particular objects of this Act are—

- (a) to protect and enhance the quality of the Territory environment; and
- (b) to prevent environmental degradation and adverse risks to human health and the health of ecosystems by promoting pollution prevention, clean production technology, reuse and recycling of materials and waste minimisation programs; and
- (c) to require persons engaging in polluting activities to make progressive environmental improvements, including reductions of pollution at the source as such improvements become practical through technological and economic development; and
- (d) to achieve effective integration of environmental, economic and social considerations in decision making processes; and
- (e) to promote the concept of a shared responsibility for the environment by acknowledging environmental needs in economic and social decision making; and
- (f) to promote the concept of a shared responsibility for the environment through public education about and public involvement in decisions about protection, restoration and enhancement of the environment; and
- (g) to promote the principles of ecologically sustainable development; and
- (h) to regulate, reduce or eliminate the discharge of pollutants and hazardous substances into the air, land or water consistent with maintaining environmental quality; and
- (j) to allocate the costs of environmental protection and restoration equitably and in a manner that encourages responsible use of, and reduces harm to, the environment with polluters bearing the appropriate share of the costs that arise from their activities; and
- (k) to facilitate the implementation of national environment protection measures under national scheme laws; and
- (m) to provide for the monitoring and reporting of the environmental quality on a regular basis in conjunction with the commissioner for the environment; and
- (n) to control the generation, storage, collection, transportation, treatment and disposal of waste with a view to reducing, minimising and where practical, eliminating harm to the environment; and

*Environment Protection Act 1997*

- (p) to adopt a precautionary approach when assessing environmental risk to ensure that all aspects of environmental quality, including ecosystem sustainability and integrity and beneficial use of the environment, are considered in assessing, and making decisions in relation to, the environment; and
- (pa) to ensure that contaminated land is managed having regard to human health and the environment; and
- (q) to coordinate all activities as are necessary to protect, restore or improve the Territory environment; and
- (qa) to establish a process for investigating and, where appropriate, remediating land areas where contamination is causing or is likely to cause—
  - (i) a significant risk of harm to human health; or
  - (ii) a significant risk of material environmental harm or serious environmental harm;

and this Act shall be construed and administered accordingly.

**(2)** For the purposes of paragraph (1) (g), ecologically sustainable development is to be taken to require the effective integration of economic and environmental considerations in decision making processes and to be achievable through implementation of the following principles:

- (a) the precautionary principle, namely, that if there is a threat of serious or irreversible environmental damage, a lack of full scientific certainty should not be used as a reason for postponing measures to prevent environmental degradation;
- (b) the inter-generational principle, namely, that the present generation should ensure that the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations;
- (c) conservation of biological diversity and ecological integrity;
- (d) improved valuation and pricing of environmental resources.

  - (c) an insurance policy; or
  - (d) another form of security that the authority considers appropriate.
- (3) The authority shall not require financial assurance of an amount greater than the total amount that the authority has reasonable grounds for believing is likely to be needed to remedy the foreseeable environmental harm that could result from the conduct of the authorised activity.
- (4) A financial assurance shall be provided—
  - (a) for the period specified in the authorisation; or
  - (b) if no period is so specified, until—
    - (i) the authorisation is varied to remove the condition requiring the financial assurance; or

- (ii) the authorisation is cancelled under section 55 or 63 or is surrendered under section 66.

**86 Show cause why financial assurance should not be provided**

(1) Where the authority proposes to grant an environmental authorisation subject to a condition requiring the provision of a financial assurance, the authority shall give the applicant notice in writing of its intention to impose the condition.

(2) A notice under subsection (1) shall—

- (a) specify the grounds on which the condition is proposed to be imposed; and
- (b) specify the amount and form of the financial assurance proposed to be required; and
- (c) invite the applicant to show cause why the condition should not be imposed; and
- (d) specify the date on or before which any representations under paragraph (c) are to be made, being a date not less than 20 working days after the date of the notice.

(3) Within 20 working days after the end of the period allowed under paragraph (2) (d) for representations, the authority shall—

- (a) notify the applicant that the condition is or is not being imposed; and
- (b) if it is being imposed—specify in the notice the date on or before which the financial assurance must be provided, being a date not less than 10 working days after the date of the notice.

**87 Non-provision of financial assurance**

If a financial assurance required as a condition of an environmental authorisation is not provided on or before the due date, the authority shall cancel the authorisation.

**88 Claim on or realisation of a financial assurance**

(1) This section applies if the authority incurs, or will incur, costs and expenses in taking action to remedy serious or material environmental harm—

- (a) that was caused by an authorised activity in relation to which a financial assurance has been provided; and

- (b) that is within the class of harm in respect of which the financial assurance may be claimed or realised; and
- (c) that was not permitted by or under this Act.

(2) The authority may recover the reasonable costs and expenses of taking the action by making a claim on or realising the financial assurance or part of it.

#### **89 Notice before claim on or realisation of a financial assurance**

(1) Before acting under section 88, the authority shall give to the holder of the environmental authorisation in relation to which the financial assurance was provided, a notice in writing—

- (a) specifying the environmental harm caused by the authorised activity; and
- (b) giving details of the action taken, or to be taken, to remedy the environmental harm; and
- (c) specifying the amount of the financial assurance to be claimed or realised; and
- (d) inviting the holder of the authorisation to make a written representation to the authority to show why the financial assurance should not be claimed or realised as proposed on or before a specified date, being a date not less than 20 working days after the date of the notice.

(2) The authority shall, within 20 working days after the date specified in the invitation under paragraph (1) (d) and taking into account any representations made in response to the invitation—

- (a) decide whether or not to make a claim on or realise the financial assurance or part of it; and
- (b) give the holder of the authorisation written notice of that decision.

#### **90 Recovery of extra costs**

(1) Where the amount recovered by the authority by a claim on or by realising a financial assurance (the *realised assurance*) is less than the reasonable costs and expenses that the authority incurred or will incur in taking action to remedy the environmental harm caused by the authorised activity (the *reasonable costs and expenses*), the authority may give the holder of the environmental authorisation notice in writing requiring the holder to pay the specified amount, being the difference between the reasonable costs and expenses and the realised assurance.

(2) The notice shall specify the date on or before which the specified amount is required to be paid, being a date not less than 20 working days after the date of the notice.

(3) Where—

- (a) the authority has given a person a notice under subsection (1); and
- (b) the holder of the environmental authorisation has failed to pay the specified amount on or before the specified date;

so much of the specified amount as remains unpaid, together with interest calculated at the rate per centum per annum determined under section 165 on the unpaid amount, is a debt due to the Territory by the holder.

### **91 Moneys held by Territory as financial assurance**

Where an amount of money is held by the Territory as a financial assurance or part of a financial assurance, the following provisions apply:

- (a) interest accrues, at the rate per centum per annum determined under section 165, on so much of that original amount as from time to time remains unclaimed by the authority under section 89;
- (b) for the purposes of any claim the authority may make under section 89, the financial assurance shall be taken to include any accrued interest other than interest to which the holder of the authorisation is entitled to be paid under paragraph (c);
- (c) during the period the financial assurance is required, on each anniversary of the payment of the original amount, the holder of the authorisation is entitled to be paid by the Territory so much of the interest that accrued during the year that ended on the day before that anniversary as remains unclaimed by the authority under section 89;
- (d) when—
  - (i) the financial assurance is no longer required by the authority; or
  - (ii) the environmental authorisation is cancelled under section 55 or 63 or is surrendered under section 66;

so much of the original amount and accrued interest as remains unclaimed by the authority under section 89 shall be paid by the Territory to the holder of the authorisation.

***Division 5—Assessment and remediation***

**91A Interpretation**

(1) In this Division:

***approved use***, in relation to land, means use—

- (a) that is consistent with the national capital plan or the Territory plan, as the case requires; and
- (b) in the case of leased land—that is permitted by the lease.

***national environment protection measure*** means a national environment protection measure made under subsection 13 (1) of the *National Environment Protection Council Act 1994*, as in force from time to time.

***substance*** includes matter or thing.

(2) For the purposes of sections 91C, 91D and 91G, an environmental audit for assessment or remediation of contaminated land is an audit by an auditor—

- (a) that relates to an assessment or remediation carried out (whether under this Act or otherwise) in respect of actual or possible contamination of land; and
- (b) that is conducted for the purposes of determining any 1 or more of the following:
  - (i) the nature and extent of the assessment or remediation undertaken, as the case requires;
  - (ii) the nature and extent of any contamination or remaining contamination of the land;
  - (iii) what further assessment or remediation, as the case requires, is necessary before the land is suitable for any specified use or range of uses.

**91B Assessment of risk of harm**

(1) For the purposes of this Division, to assess whether land is contaminated with 1 or more substances in such a way as to present, or to be likely to present a significant risk of harm to human health, or a risk of material environmental harm or serious environmental harm, the authority shall include a consideration of all of the following matters in the assessment:

- (a) whether the contamination of the land has already caused harm;

- (b) whether the substances are toxic, persistent or bioaccumulative or are present in large quantities or high concentrations or occur in combinations;
- (c) whether there are routes by which the substances may proceed from the source of the contamination to human beings or other aspects of the environment;
- (d) whether the uses to which the land and land adjoining it are currently being put are such as to increase the risk of harm;
- (e) whether the use of the land and land adjoining it, being a use permitted by the lease to which the land is subject, is such as to increase the risk of harm;
- (f) whether the substances have migrated or are likely to migrate from the land (whether because of the nature of the substances or the nature of the land);
- (g) any environment protection policy made by the authority on contamination and remediation;
- (h) any relevant national environment protection measure.

(2) Subject to subsection (3), land may be regarded at any particular time as being contaminated in such a way as to present a significant risk of harm even if the harm could come into existence only in certain circumstances of occupation or use of the land and those circumstances do not exist at that time.

(3) Land shall be regarded in the manner referred to in subsection (2), if the circumstances are reasonably foreseeable, and consistent with the approved use of the land, at that time.

#### **91C Order to assess whether land contaminated**

(1) If the authority has reasonable grounds for believing that land is contaminated in such a way as to cause, or be likely to cause, either a significant risk of harm to human health or a significant risk of material environmental harm or serious environmental harm, or both, the authority may—

- (a) by notice in writing served on the appropriate person, order the appropriate person to conduct an assessment of the land; or
- (b) itself conduct the assessment.

(2) An order under subsection (1) shall—

- (a) be in writing; and

- (b) specify—
  - (i) the person to whom the order relates; and
  - (ii) the land to which the order relates; and
  - (iii) the period within which the assessment is to be conducted; and
  - (iv) the nature of the contamination that the authority has reasonable grounds for believing is causing, or is likely to cause, a significant risk of harm to human health or a significant risk of material environmental harm or serious environmental harm; and
  - (v) the action that the person subject to the order shall take in assessing and reporting; and
  - (vi) such other requirements as the authority considers appropriate having regard to the nature and extent of the contamination and the physical attributes of the land.

    - (iii) otherwise in accordance with the terms of the order; and
  - (b) commission an environmental audit of the assessment by an auditor approved under section 75.

(5) In preparing a report of an audit for the purposes of this section, the auditor commissioned to conduct the assessment shall have regard to—

- (a) the provisions of this Act and the regulations; and
- (b) the permitted and approved uses of the land to which the assessment relates; and
- (c) the degree or extent of contamination; and
- (d) any relevant environmental protection policies; and

(8) A person who, without reasonable excuse, contravenes subsection (4) is guilty of an offence.

Maximum penalty: 50 penalty units.

#### **91D Order to remediate land**

(1) If the authority has reasonable grounds for believing that the land to which the audit relates is contaminated in such a way as to cause, or be likely to cause, either a significant risk of harm to human health or a significant risk of material environmental harm or serious environmental harm, or both, the authority may—

- (a) by notice in writing served on an appropriate person, order the appropriate person to remediate the land; or
- (b) itself conduct the remediation.

(2) An order under subsection (1) shall—

  - (v) the action that the person subject to the order shall take in remediating and reporting; and
  - (vi) such other requirements as the authority considers appropriate having regard to the nature and extent of the contamination and the physical attributes of the land.
- (3)** The action that may be required to be taken under subparagraph (2) (b) (v) includes, but is not limited to, the following actions:
  - (a) that the person serve notice of the order on the occupiers of land access to which is necessary for the person to carry out the remediation and, if an occupier is not the lessee of that land, serve notice on the lessee;
  - (b) that the person make progress reports to the authority on the remediation;
  - (c) that the person advertise and conduct meetings to give progress reports to the public, and to receive public comment, on the remediation.
- (4)** A person to whom an order is given under subsection (1) shall—
  - (a) conduct the remediation—
    - (i) within the period specified in an order under subsection (1); and
    - (ii) in accordance with the prescribed standards and procedures for carrying out remediation, including standards and procedures specified in a relevant national environment protection measure; and
    - (iii) otherwise in accordance with the terms of the order; and
  - (b) commission an environmental audit of the remediation by an auditor approved under section 75.
- (5)** In preparing a report of an audit for the purposes of this section, the auditor commissioned to conduct the remediation shall have regard to—
  - (a) the provisions of this Act and the regulations; and

- (b) the permitted and approved uses of the land to which the assessment relates; and

(8) The lessee of land to whom an order is given under subsection (1) shall not, without the consent of the authority, transfer or sublet the land while the order is in force.

(9) A person who, without reasonable excuse, contravenes subsection (4) is guilty of an offence.

Maximum penalty: 200 penalty units.

#### **91E Notification of certain persons about orders for assessment or remediation**

(1) The authority shall, by written notice, notify the occupier and, if the occupier is not the lessee, the lessee, of land adjacent to land to which subsection 91C (1) or 91D (1) relates—

- (a) that notice of an assessment or remediation of the land has been given to the appropriate person; or
- (b) that the Authority is carrying out the requirements of an assessment order or remediation order in relation to the land.

(2) A notice under subsection (1) shall—

- (iv) an audit under paragraph 91C (4) (b);
- (v) a report of the outcome of an assessment under subsection 91D (1);
- (vi) a progress report on the assessment under subsection 91D (3);

- (a) extend or refuse to extend the period; or
- (b) extend the period for a period less than that applied for.

(2) In determining whether or not to extend the period, the authority shall have regard to—

- (a) the period of extension for which application is made; and
- (b) whether the contamination is causing, or is likely to cause, a significant risk of harm to human health or a risk of material environmental harm or serious environmental harm.

**91H Further information**

For the purposes of sections 91C and 91D, the authority may, by notice in writing, require an auditor to furnish to the authority, either orally or in writing, such further information relating to an assessment or remediation, as the case requires, as is specified in the notice.

**91I Choice of appropriate person**

(1) For the purposes of subsections 91C (1) and 91D (1), an appropriate person shall be chosen from among the following persons in the following order:

- (a) a person who had principal responsibility for such contamination of the land with the substance (whether or not there were other persons who had responsibility for such contamination of the land with the substance) or, if that is not practicable, the person referred to in paragraph (b);
- (b) a lessee of the land (whether or not the person had any responsibility for such contamination of the land with the substance) or, if that is not practicable, the person referred to in paragraph (c);
- (c) a notional lessee of the land (whether or not the person had any responsibility for such contamination of the land with the substance).

(2) If there is more than 1 person in the category of appropriate person specified in subsection (1), the authority may, but is not required to, make more than 1 person in the category the subject of the order.

(3) For the purposes of this section, the choice of a person is to be regarded as not practicable if—

- (a) the authority cannot, after reasonable inquiry, ascertain the identity or location of the person; or
- (b) in the opinion of the authority, the person does not have the resources to comply with the order.

***Division 6—Costs of assessment and remediation***

**91J Meaning of *assessment order* and *remediation order***

In this Part:

***assessment order*** means an order under subsection 91C (1).

***remediation order*** means an order under subsection 91D (1).

**91K Recovery of costs associated with assessment or remediation**

(1) If the authority takes action under paragraph 91C (1) (b) or 91D (1) (b), the authority may, by written notice, require an appropriate person against whom an order under that section may be made, to pay to the

authority the reasonable costs and expenses incurred by it in taking that action.

(2) The notice shall specify the date on or before which the amount is to be paid, being a date not less than 20 working days after the date of the notice.

(3) Where—

- (a) the authority has given a person a notice under subsection (2); and
- (b) the person has failed to pay the specified amount on or before the specified date;

so much of the amount as remains unpaid, together with interest calculated at the rate per centum per annum determined under section 165 on the unpaid amount, is a debt due to the Territory by that person.

#### **91L Priority for costs where owner insolvent**

If the authority carries out the requirements of an assessment order or remediation order in respect of land disclaimed (by a liquidator or trustee in bankruptcy) as onerous property in the course of proceedings for winding up or bankruptcy, the authority may recover the cost of carrying out the order together with a rate of interest, at the rate per centum per annum determined under section 165, and reasonable costs and expenses so incurred, in priority to any holder of security over the land.

#### **91M Recovery of costs—assessment and remediation**

(1) A person who carries out the requirements of an assessment or remediation under Division 5 in relation to the contamination of land with a substance who was not responsible for the contamination, may recover in a court of competent jurisdiction a portion of the person's costs in carrying out those requirements from each person who did have such responsibility.

(2) A person who carries out the requirements of an assessment or remediation under Division 5 in relation to the contamination of land with a substance who was responsible for the contamination, may recover in a court of competent jurisdiction from each other person who had responsibility for the contamination a portion of the first person's costs in carrying out those requirements.

(3) A reference in subsections (1) and (2) to the recovery of a portion of a person's costs shall be read as a reference to the recovery of a portion of the costs that is just and reasonable in the circumstances including the following circumstances:

- (a) the proportion of responsibility of each person for the contamination;
- (b) the reasonable cost of the remediation (if any) carried out by each person in respect of the contamination.

**91N Costs—person responsible for contamination**

In any proceedings under section 91M to recover from a person the cost of carrying out an assessment order or remediation order in relation to any land, the person is taken to have responsibility for contamination on that land, unless it is established that the contamination was not caused by the person, if—

- (a) the person carried on activities on the land; and
- (b) activities of the kind carried on generate or consume the same substances as those that caused the contamination or generate or consume substances that may be converted by reacting with each other or by the action of natural processes on the land into substances that are the same as those that caused the contamination.

**91O Liability for losses**

(1) A person who, with the permission of the occupier of land, enters any land, or does anything else on land, as required by an assessment order or remediation order, is liable to the occupier of the land for any loss suffered by the occupier as a result of the entry or other actions (including any loss suffered by the occupier because of the interruption to the occupier's business on that land by that entry or those actions).

(2) A person (other than the lessee of land) who, with the permission of the occupier, enters the land or does anything else on the land, as required by an assessment order or remediation order, is liable to the lessee of the land for any loss suffered by the lessee as a result of the entry or those actions or for any injury to the land caused by that person.

(3) In addition to any liability that a person may have by virtue of subsection (1) or (2), the person has a duty to meet the reasonable costs and expenses of the lessee and the occupier of land, as the case requires, in providing access to that land as referred to in this section.

(4) A person has a duty—

- (a) to take reasonable steps—
  - (i) to minimise the loss, and injury, referred to in this section caused by the person's actions; and

- (ii) toward restitution in respect of that loss or injury; and
- (c) to compensate the party that suffered the loss, or injury, for which the person is liable to the extent that restitution is not practicable.

**91P Director of body corporate that is wound up**

(1) The Supreme Court may make an order under this section only if satisfied, on an application by the authority, that—

- (a) the person was a director of, or a person concerned in the management of, the body corporate at the time when the assessment order or remediation order was made; and
- (b) there is reason to believe that the body corporate was wound up as part of a scheme to avoid compliance with the assessment order or remediation order.

(2) The Supreme Court may order a person to comply with an assessment order or remediation order at the person's own expense if the person was a director of, or a person concerned in the management of, a body corporate that—

- (a) has been wound up within 2 years before the court's order is made; and
- (b) has failed to comply with the assessment order or remediation order.

(3) There is reason for belief of the kind referred to in paragraph (1) (b) if—

- (a) the body corporate carried out 1 or more transactions—
  - (i) that were voidable because of section 588FE of the Corporations Law; or
  - (ii) that were such that the liquidator of the body corporate had a right to recovery of cash under section 567 of the Corporations Law; or
  - (iii) by which the body corporate incurred a debt in relation to which a person contravened section 588G of the Corporations Law; and
- (b) there was (at the time or times when the body corporate entered those transactions or a substantial portion of them) reason to believe that the land was contaminated; and
- (c) in a case to which regulations made for the purposes of this section apply—the prescribed conditions are satisfied.

(4) The Supreme Court shall not make an order under this section if the person against whom the order would be made satisfies the court that—

- (a) the person exercised due diligence to prevent the body corporate from avoiding compliance with the assessment order or remediation order; or
- (b) the person could not reasonably have been expected to be aware of a scheme to avoid compliance with the assessment order or remediation order; or
- (c) the person was not in a position to influence the conduct of the body corporate in relation to that scheme.

(5) The fact that the relevant assessment order or remediation order was partially complied with by the body corporate does not exclude the possibility that there is reason to form the belief referred to in subsection (3).

(6) For the purposes of this section, the fact that steps are taken to wind-up a body corporate before the authority makes an assessment order or remediation order in respect of the body corporate does not preclude the Supreme Court from finding that there is reason to believe that the body corporate was wound up as part of a scheme to avoid compliance with the order.

#### **91Q Director of body corporate that disposed of land**

(1) The Supreme Court may order a person to comply with an assessment order or remediation order at the person's own expense if—

- (a) the person was a director of, or a person concerned in the management of, a body corporate that transferred land within 2 years before the court's order is made; and
- (b) the transferee has failed to comply with the assessment order or remediation order in respect of the land.

(2) The person shall comply with the assessment order or remediation order, subject to any modification by the Supreme Court.

(3) The Supreme Court may make an order under this section only if satisfied, on an application by the authority that—

- (a) the person was a director of, or a person concerned in the management of, the body corporate at the time of the transfer of the land or at the time when the assessment order or remediation order was made in respect of the transferee; and

- (b) there is reason to believe that the body corporate transferred the land as part of a scheme to avoid having itself to carry out assessment or remediation of the land (whether or not an assessment order or remediation order had been made in respect of the body corporate).
- (4) There is reason for belief of the kind referred to in paragraph (3) (b) if, at the time or times when the body corporate entered into 1 or more transactions, or a substantial portion of the transactions, for the transfer of the land—
- (a) there was reason to believe that the land was contaminated; and
  - (b) the transferee was another body corporate that was related to the first body corporate (within the meaning of the Corporations Law); and
  - (c) the first body corporate had reason to believe that the transferee was unable to pay its debts or would, if it took steps to remediate the land (to the extent that a reasonable person would have expected, at the time or times, would be necessary), become unable to pay its debts.
- (5) The Supreme Court shall not make an order under this section if the person against whom the order would be made satisfies the court that—
- (a) the person exercised due diligence to prevent the body corporate from avoiding compliance with the assessment order or remediation order; or
  - (b) the person could not reasonably have been expected to be aware of a scheme to avoid compliance with the assessment order or remediation order; or
  - (c) the person was not in a position to influence the conduct of the body corporate in relation to that scheme.
- (6) The fact that the relevant order was partially complied with by the transferee does not exclude the possibility that there is reason to form the belief referred to in subsection (3).

**91R Holding company of body corporate that is wound up**

- (1) The Supreme Court may order a corporation to comply with an assessment order or remediation order at the corporation's own expense if the corporation was the holding company of a company that—

*Environment Protection Act 1997*

- (a) has been wound up within 2 years before the court's order is made; and
  - (b) has failed to comply with the assessment order or remediation order.
- (2) The corporation shall comply with the assessment order or remediation order, subject to any modification by the Supreme Court.
- (3) The Supreme Court may make an order under this section only if satisfied, on an application by the authority, that—
  - (a) the corporation was the holding company of the other company at the time when the assessment order or remediation order was made; and
  - (b) there is reason to believe that the other company was wound up as part of a scheme to avoid compliance with the assessment order or remediation order.
- (4) There is reason for belief of the kind referred to in paragraph (3) (b) if—
  - (a) the corporation contravened section 588V of the Corporations Law in relation to the other company; and
  - (b) there was (at the time or times when the contravention occurred) reason to believe that the land was contaminated; and
  - (c) in a case to which regulations made for the purposes of this section apply—the prescribed conditions are satisfied.
- (5) Notwithstanding subsection (4), there is reason for belief of the kind referred to in paragraph (3) (b) also if—
  - (a) the other company carried out 1 or more transactions—
    - (i) that were voidable because of section 588FE of the Corporations Law; or
    - (ii) that were such that the liquidator of the other company had a right to recovery of cash under section 567 of the Corporations Law; or
    - (iii) by which the other company incurred a debt in relation to which a person contravened section 588G of the Corporations Law; and
  - (b) there was (at the time or times when the other company entered those transactions or a substantial portion of them) reason to believe that the land was contaminated.

*Environment Protection Act 1997*

(6) The fact that the relevant assessment order or remediation order was partially complied with by the other company does not exclude the possibility that there is reason to form the belief referred to in subsection (3).

(7) For the purposes of this section, the fact that steps are taken to wind up a company before the authority makes an assessment order or remediation order in respect of the company does not preclude the Supreme Court from finding that there is reason to believe that the company was wound up as part of a scheme to avoid compliance with the order.

## ENDNOTES

### 1 About this republication

This is a republication of the *Environment Protection Act 1997* as in force on 21 September 2000. It includes all amendments made to the Act up to SL 2000 No 36.

Amending and modifying laws are annotated in the table of legislation and table of amendments. However, any current modifications are not included in the republished Act but are set out in the endnotes.

The Parliamentary Counsel's Office currently prepares 2 kinds of republications of ACT laws: authorised printed republications to which the *Legislation (Republication) Act 1996* applies and unauthorised electronic republications. The status of a republication appears on its cover and is indicated by its republication number.

A republication number without a letter (eg 1, 2, 3 etc) indicates that the republication is an authorised printed republication. A number with a letter (eg 1A, 1B, 1C etc) indicates that the republication is an unauthorised electronic republication.

Section 13 of the *Legislation (Republication) Act 1996* authorises the Parliamentary Counsel, in preparing a law for republication, to make textual amendments of a formal nature which the Parliamentary Counsel considers desirable in accordance with current legislative drafting practice. The amendments do not effect a substantive change in the law.

In preparing this republication, amendments have not been made under section 13.

Not all amendments made under section 13 are annotated in the table of amendments. Full details of any amendments can be obtained from the Parliamentary Counsel's Office.
