Construction Occupations (Licensing) Act 2004

A2004-12

Republication No 49

Effective: 2 March 2018 – 30 March 2018

Republication date: 2 March 2018

Last amendment made by [A2018-4](#)

About this republication

The republished law

This is a republication of the *Construction Occupations (Licensing) Act 2004* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 2 March 2018. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 2 March 2018.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the *Legislation Act 2001*, section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$150 for an individual and \$750 for a corporation (see *Legislation Act 2001*, s 133).

Construction Occupations (Licensing) Act 2004

An Act to regulate construction occupations, and for other purposes

Part 1 Preliminary

1 Name of Act

This Act is the *Construction Occupations (Licensing) Act 2004*.

3 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary at the end of this Act defines certain terms used in this Act, and includes references (*signpost definitions*) to other terms defined elsewhere.

For example, the signpost definition '*building work*—see the *Building Act 2004*, section 6.' means that the term 'building work' is defined in that section and the definition applies to this Act.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see *Legislation Act*, s 155 and s 156 (1)).

4 Notes

A note included in this Act is explanatory and is not part of this Act.

Note See *Legislation Act*, s 127 (1), (4) and (5) for the legal status of notes.

5 Offences against Act—application of Criminal Code etc

Other legislation applies in relation to offences against this Act.

Note 1 Criminal Code

The [Criminal Code](#), ch 2 applies to all offences against this Act (see Code, pt 2.1).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

Part 3 Construction practitioners licences

Note about application of the [Mutual Recognition Act 1992](#) (Cwlth) and the [Trans-Tasman Mutual Recognition Act 1997](#) (Cwlth)

These Commonwealth Acts allow people licensed in certain occupations in a local jurisdiction to carry on the occupations in another local jurisdiction and provide an alternate way of applying for licences in the ACT or another local jurisdiction. Because of the [Self-Government Act](#), s 28, the requirements for licences under this Act cannot validly require anything of people being licensed under the Commonwealth Acts that would be inconsistent with those Acts. Accordingly, provisions of this Act, such as the requirements for applications, do not apply to the licensing of people under the Commonwealth Acts. Also, the Commonwealth Acts set out when conditions may be placed on people licensed under those Acts. For more information, see the Commonwealth Acts.

Division 3.1 General

17 Licence applications

- (1) An individual, corporation or partnership may apply to the registrar to be licensed in a construction occupation or, for a construction occupation that is divided into classes, in an occupation class.

Note 1 If a form is approved under s 128 for an application, the form must be used.

Note 2 A fee may be determined under s 127 for this section.

Note 3 An entity's entitlement to apply for a licence may be affected by a disqualification (see s 98 (3)).

- (2) However, a corporation or partnership may apply under subsection (1) in relation to a construction occupation or occupation class only if the regulations allow a corporation or partnership to be licensed in the occupation or class.
- (3) The regulations may prescribe the requirements for applications.

- (4) If this Act or the regulations prescribe requirements for applications, the registrar need not consider an application that does not comply with the requirements.

18 Eligibility for licence

- (1) The regulations may prescribe when an entity is eligible, or not eligible, to be licensed in a construction occupation or occupation class, including the qualifications the entity must have to be eligible to be licensed in the occupation or class.
- (2) The regulations may prescribe how an applicant may, or must, demonstrate that the applicant satisfies a requirement in relation to an application.

Examples

- 1 by requiring the applicant to hold a qualification
- 2 by requiring the applicant to pass a practical or written test

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

19 Decision on licence application

- (1) If an entity applies for a licence for a construction occupation or occupation class, the registrar must issue, or refuse to issue, the licence.
- (2) However, the registrar may issue a licence other than the licence applied for if—
- (a) the applicant is not eligible for the licence applied for; and
 - (b) the applicant is eligible for the other licence; and
 - (c) the licence issued is in the same construction occupation as, but a different occupation class from, the licence applied for; and
 - (d) the applicant agrees to the issue of the licence.

- (3) The registrar must refuse to issue a licence for a construction occupation or occupation class to an applicant if—
- (a) the registrar is not satisfied that the applicant is eligible to be licensed in the occupation or class; or
 - (b) the applicant is disqualified from holding a licence under section 98 (Licence disqualification).
- (4) The registrar may refuse to issue a licence for a construction occupation, or occupation class, to an applicant if—
- (a) the applicant, or a director or nominee of an applicant that is a corporation, or a partner or nominee of an applicant that is a partnership, is a licensee, a related licensee, or a former licensee (however described) under this Act or a corresponding law who—
 - (i) as a result of disciplinary action (however described) is, or has been, disqualified from holding a licence (however described) or prohibited from providing a construction service (however described) under this Act or a corresponding law; or
 - (ii) is, or has been, subject to occupational discipline (however described) under this Act or a corresponding law; or
 - (iii) the registrar believes on reasonable grounds surrendered a licence (however described) in circumstances that related to a ground for occupational discipline (however described) under this Act or a corresponding law; or
 - (iv) has contravened, or is contravening, a court order or an order made by the ACAT (or a similar State tribunal) relating to a construction service, construction occupation or occupation class under this Act or a corresponding law; or

- (v) has contravened, or is contravening, this Act or a condition of a licence or a previous or related licence; or

Note A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

- (vi) has contravened, or is contravening, a rectification order (however described) under this Act or a corresponding law; or
 - (vii) has a debt owing to the Territory under section 37 (5), section 41 (5) or section 42 (3) and does not have, or is not complying with, a formal arrangement to pay the debt; and
- (b) the registrar believes on reasonable grounds that the refusal is necessary or desirable to protect the public.
- (5) The registrar may issue a licence to an applicant for less than the maximum period for which the licence may be issued if the registrar believes on reasonable grounds that it is necessary or desirable to protect the public.
 - (6) If an application for occupational discipline in relation to an applicant or nominee of an applicant has been made by the registrar under division 5.2 (Occupational discipline—licensees), the registrar need not decide whether to licence the applicant until the application has been dealt with by the ACAT, and any appeal or review arising from the occupational discipline, is finished.

(7) In this section:

related licence means a licence under this Act or a corresponding law that is held by a related licensee.

related licensee means—

- (a) if the applicant, or a director, partner or nominee of the applicant is or has been a director or nominee of a corporation (the *related corporation*) that is or has been a licensee under this Act or a corresponding law—the related corporation; or
- (b) if the applicant, or a director, partner or nominee of the applicant is or has been a partner or nominee of a partnership (the *related partnership*) that is or has been a licensee under this Act or a corresponding law—the related partnership.

20 Multiple occupations, classes and authorisation

- (1) A licence may authorise the licensee to provide construction services in 1 or more construction occupations and 1 or more occupation classes.
- (2) A licence authorises the licensee to provide construction services in each construction occupation or occupation class to which it relates, subject to any condition, and in accordance with any endorsement, on the licence.

21 Licence conditions

- (1) The regulations may prescribe—
 - (a) conditions on licences; and
 - (b) when conditions on licences (whether imposed under the regulations or by the registrar) take effect.

- (2) The registrar may amend a licence by putting a condition on the licence, or by amending or cancelling a condition the registrar has put on the licence, at any time by written notice given to the licensee, unless the regulations provide otherwise.
- (3) The registrar may amend a licence by putting a condition on the licence, or amending the licence, only if satisfied that it is necessary or desirable to protect the public.

21A Licence conditions—licensee’s previous licence cancelled for longer than 1 year etc

- (1) This section applies if—
 - (a) an individual held a licence (however described) under this Act or a corresponding law in a construction occupation or occupation class (however described) that—
 - (i) was cancelled, and the individual was disqualified from applying for a licence (however described) for at least 1 year; or
 - (ii) the registrar believes on reasonable grounds was surrendered by the individual in circumstances that related to a ground for occupational discipline (however described); and
 - (b) the individual has applied for a licence for the same or substantially the same construction occupation or occupation class.
- (2) The registrar may issue the licence to the individual—
 - (a) subject to 1 or more of the following conditions:
 - (i) that the licensee must not be a nominee for a stated period;
 - (ii) that the licensee must not supervise trainees or other licensees;

- (iii) that the licensee must be supervised by someone else;
 - (iv) any other condition that the registrar considers appropriate; and
- (b) if the registrar believes on reasonable grounds that the condition is necessary or desirable to protect the public.
- (3) This section does not limit the operation of section 21.

22 Endorsements on licences

- (1) The registrar may, in accordance with the regulations, endorse a licence.
- (2) An endorsement authorises the licensee to provide a stated kind of construction service that the licensee would not otherwise be allowed to provide under the licence.

23 Form of licence

- (1) A licence must be signed by the registrar and contain the following details in relation to the licensee:
 - (a) the licensee's full name;
 - (b) each construction occupation, and occupation class (if any), in which the licensee is licensed;
 - (c) a unique identifying number (the *licence number*) for each construction occupation and occupation class in which the licensee is licensed.

Note A licence may be endorsed under s 22.

- (2) The regulations may require or allow other information to be included on a licence.

24 Term of licence

The regulations may prescribe the maximum period for which a licence is issued or renewed.

24A Eligibility for licence renewal

- (1) A regulation may prescribe when an entity is eligible, or not eligible, for renewal of a licence in a construction occupation or occupation class, including the qualifications the entity must have to be eligible for renewal of the licence.
- (2) A regulation may prescribe how an applicant may, or must, demonstrate that the applicant satisfies a requirement in relation to an application for renewal.

25 Licence renewal

- (1) A licensee may apply to the registrar for renewal of the licence before the licence term ends.
- (2) The registrar must renew a licence on application if satisfied that the applicant—
 - (a) would be eligible to be licensed if the application were for a new licence of the same kind; or
 - (b) is eligible for renewal of the licence.
- (3) However, the registrar may refuse to renew a licence if—
 - (a) the applicant, or a director or nominee of an applicant that is a corporation, or a partner or nominee of an applicant that is a partnership, or a related licensee of the applicant—
 - (i) has contravened, or is contravening, a court order or an order made by ACAT relating to the applicant's licence or a related licence (including work done by the licensee or a related licensee); or

- (ii) has contravened, or is contravening, this Act or a condition of the applicant's licence or a condition of a licence or a related licence; or

Note A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

- (iii) has contravened, or is contravening, a rectification order; or

Examples

- 1 failing to start the work stated in the rectification order
- 2 failing to finish the work stated in the rectification order in the period within which the order states that the work must be done

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

- (iv) was required by the registrar under section 55A (Skill assessment of licensees) to be assessed and the applicant has not completed the assessment; or
 - (v) has a debt owing to the Territory under section 37 (5), section 41 (5) or section 42 (3) and does not have, or is not complying with, a formal arrangement to pay the debt; or
 - (vi) is disqualified under a corresponding law from holding a licence (however described) or providing a construction service (however described) in the same, or substantially the same, construction occupation or occupation class applied for; and
- (b) the registrar believes on reasonable grounds that the refusal is necessary or desirable to protect the public.

- (4) The registrar may renew a licence for less than the maximum period for which the licence may be renewed if the registrar believes on reasonable grounds that it is necessary or desirable to protect the public.
- (5) The renewal of a licence begins on the day after the licence being renewed ends.
- (6) A suspended licence may be renewed, but the renewed licence is suspended until the suspension ends.
- (7) In this section:

related licence means a licence under this Act or a corresponding law that is held by a related licensee.

related licensee means—

- (a) if a director, partner or nominee of the applicant is or has been a director or nominee of a corporation (the *related corporation*) that is or has been a licensee under this Act or a corresponding law—the related corporation; or
- (b) if a director, partner or nominee of the applicant is or has been a partner or nominee of a partnership (the *related partnership*) that is or has been a licensee under this Act or a corresponding law—the related partnership; or
- (c) if a director, partner or nominee of the applicant is or has been a licensee under this Act or a corresponding law—the director, partner or nominee.

26 Voluntary licence cancellation

The registrar must cancel a licensee's licence if—

- (a) the licensee asks, in writing, for the cancellation; and
- (b) the licensee gives the licence to the registrar or satisfies the registrar that the licence has been lost, stolen or destroyed; and

- (c) the registrar is satisfied that—
 - (i) the licensee cannot exercise the licensee's functions because of mental or physical incapacity; or
 - (ii) another licensee is to take over the licensee's functions in relation to construction services that have not been completely provided; or
 - (iii) it is otherwise appropriate to approve the cancellation.

26A Entitlement to act as works assessor

- (1) A licensed construction practitioner is not entitled to perform services as a works assessor if the practitioner has an interest in the work (the *works*) to be considered for the works assessment service.
- (2) For this section, a licensed construction practitioner has an *interest* in the works if the practitioner, or an entity related to the practitioner—
 - (a) has a legal or equitable interest in the land where the works are, or are to be, carried out; or
 - (b) has prepared, or intends to prepare, drawings intended to be used in relation to the works, unless—
 - (i) the works have been certified by another entity; and
 - (ii) the other entity is not related to the practitioner; or
 - (c) has carried out, or intends to carry out, any of the works; or
 - (d) has a financial interest in the construction or completion of the works.
- (3) For this section, an entity is *related to* a licensed construction practitioner if the entity is—
 - (a) an entity with which the practitioner has a personal, professional, commercial or financial relationship; or

- (b) an employer or employee of the practitioner; or
 - (c) a company of which the practitioner is a director or in which the practitioner holds a share.
- (4) For this section, works have been *certified* if—
- (a) a building approval has been issued for the works; or
 - (b) a development approval has been issued for the works; or
 - (c) a works assessment service has been provided for the works.

26B Notification requirements for licensees

- (1) A licensee must give the registrar written notice of the following events or circumstances (a *notification event*);
- (a) for an individual who is the licensee—the individual becomes bankrupt or personally insolvent;
 - (b) for a corporation that is the licensee—
 - (i) the corporation becomes the subject of a winding-up order; or
 - (ii) a controller or administrator is appointed for the corporation;
 - (c) for a partnership that is licensed in a construction occupation or occupation class—a partner’s licence in the same occupation or class is suspended or cancelled;
 - (d) the licensee, or a director or partner of the licensee, is found guilty, whether in the ACT or anywhere else, of an offence that—
 - (i) involves fraud, dishonesty or violence; and
 - (ii) is punishable by imprisonment for at least 1 year;
 - (e) the licensee is not insured for a construction occupation or occupation class in accordance with the regulation;

- (f) for a corporation or partnership that is the licensee—the licensee does not have the required nominee or nominees for the construction occupation or occupation class of the licence.
- (2) The notice must be given within 24 hours after the notification event.
- (3) A licensee commits an offence if the licensee—
 - (a) knows about a notification event; and
 - (b) fails to give the notice required under this section.

Maximum penalty: 100 penalty units.

Division 3.2 Nominees

27 Meaning of *mandatory requirement* for div 3.2

In this division:

mandatory requirement of the nominee means a written requirement by the nominee that the corporation or partnership do something, or not do something, in compliance with, or to achieve compliance with, this Act or an operational Act.

28 Nominees of corporations and partnerships

- (1) A corporation or partnership is eligible to be licensed only if it complies with subsection (2) or (3).
- (2) The corporation or partnership complies with this subsection if—
 - (a) it has a single nominee appointed by it; and
 - (b) the nominee is responsible for the supervision of the construction services provided by it; and
 - (c) the nominee can, at all times, adequately supervise the construction services provided by it.

- (3) The corporation or partnership complies with this subsection if—
- (a) it has 2 or more nominees appointed by it; and
 - (b) each nominee is responsible for the supervision of particular construction services provided by it; and
 - (c) there is a written record of the construction services each nominee is responsible for supervising; and
 - (d) between them, the nominees are responsible for the adequate supervision of all the construction services to be provided by the corporation or partnership; and
 - (e) between them, the nominees can, at all times, adequately supervise all the construction services to be provided by the corporation or partnership.
- (4) A corporation or partnership may, in writing, appoint an eligible individual to be a nominee.
- (5) If the nominee is to be responsible for the adequate supervision of only some of the construction services to be provided by the corporation or partnership, the appointment must state the services for which the nominee is responsible.
- (6) For subsection (4), an individual is an *eligible individual* if the individual—
- (a) is eligible under the regulations to be appointed as a nominee; and
 - (b) is licensed in the construction occupation and occupation class (if any) appropriate for each of the construction services for which the individual is to be responsible; and
 - (c) agrees in writing to the appointment.

- (7) A nominee of a corporation or partnership for a construction service, construction occupation or occupation class automatically stops being a nominee for the construction service, construction occupation or occupation class if the nominee stops being eligible to be appointed as a nominee for the construction service, construction occupation or occupation class.

Example

Satnam is a class A builder and is the appointed nominee for a corporation that provides construction services. The registrar applies to the ACAT for an occupational discipline order and the ACAT orders the cancellation of Satnam's class A builders licence. The cancellation of the licence means that Satnam is not eligible to be a nominee and his appointment as a nominee automatically ends. There is no need for Satnam to resign as nominee or for the corporation to revoke his appointment.

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

29 Resignation of nominee

- (1) A nominee of a corporation or partnership may resign the nominee's appointment only with the registrar's approval.
- (2) The registrar may approve the resignation of the nominee only if satisfied that—
- (a) the corporation or partnership has refused to comply with a mandatory requirement of the nominee; or
 - (b) the nominee cannot exercise the nominee's functions because of mental or physical incapacity; or
 - (c) the nominee, or entity that appointed the nominee, has arranged for another nominee to take over the nominee's functions; or
 - (d) it is otherwise appropriate to approve the resignation.

30 Revocation of nominee's appointment

- (1) A corporation or partnership may revoke a nominee's appointment only with the registrar's approval.
- (2) The registrar may approve the revocation of the nominee's appointment only if satisfied that—
 - (a) the nominee cannot exercise the nominee's functions because of mental or physical incapacity; or
 - (b) the nominee, or entity that appointed the nominee, has arranged for another nominee to take over the nominee's functions; or
 - (c) it is otherwise appropriate to approve the resignation.

31 Role of nominees

- (1) A nominee of a licensed corporation or partnership has the following functions:
 - (a) to supervise the construction services of the corporation or partnership for which the nominee is responsible (the *relevant construction service*);
 - (b) to ensure that the relevant construction services comply with this Act and the operational Acts.
- (2) The nominee commits an offence if the nominee fails to—
 - (a) adequately supervise the relevant construction services; or
 - (b) ensure that the relevant construction services comply with this Act and the operational Acts.

Maximum penalty: 50 penalty units.

- (3) Subsection (2) does not apply to a failure of a nominee of a corporation or partnership (the *nominee's firm*) if—
- (a) the nominee had given the nominee's firm a mandatory requirement in relation to the matter that made up the failure; and
 - (b) the nominee had given the registrar a copy of the mandatory requirement; and
 - (c) the failure would not have happened if the mandatory requirement had been complied with.
- (4) The licensed corporation or partnership commits an offence if the nominee fails to—
- (a) adequately supervise the relevant construction services; or
 - (b) ensure that the relevant construction services comply with this Act and the operational Acts.
- Maximum penalty: 50 penalty units.
- (5) An offence against this section is a strict liability offence.

32 Legislation Act and nominee appointments

The [Legislation Act](#), part 19.3 (Appointments) does not apply to the appointment of a nominee of a corporation or partnership.

Part 4 Rectification orders and other obligations on licensees

33 **Meaning of *authorised action* and *authorised licensee* in pt 4**

In this part:

authorised action, for an authorised licensee, means what the licensee is authorised to do under section 41 (Failure to comply with order) or section 42 (Action on emergency rectification order).

authorised licensee means a licensee authorised under section 41 or section 42.

33A **Rectification orders—exercise of registrar’s powers**

To remove any doubt, the registrar is not prevented from having a belief on reasonable grounds, or being satisfied, about a matter mentioned in this part in relation to a construction service only because the registrar, the planning and land authority, a certifier or another entity has—

- (a) given a certificate, or approval under—
 - (i) this Act or an operational Act in relation to the construction service; or
 - (ii) the *Planning and Development Act 2007* in relation to the place where, or the territory lease under which, the construction service was provided; or
- (b) otherwise endorsed the construction service under this Act or an operational Act.

34 Intention to make rectification order

- (1) This section applies if the registrar believes on reasonable grounds that—
- (a) a licensee or former licensee (the *entity*) has provided a construction service otherwise than in accordance with this Act or an operational Act; and
 - (b) it may be appropriate to make a rectification order.

Examples of licensee or former licensee

- 1 a licensed builder does building work
- 2 a drainer who was licensed, does sanitary drainage work while unlicensed
- 3 a licensed gasfitter does gasfitting work and then becomes unlicensed

Note 1 If deciding under this section whether it may be appropriate to make a rectification order, the registrar must consider the considerations mentioned in s 36.

Note 2 An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

- (2) The registrar may give the entity, and the land owner in relation to whose land the construction service was provided, a written notice that—
- (a) gives details of the rectification order that may be made; and
 - (b) explains why the registrar intends to make the order; and
 - (c) invites submissions about the making of the order within the time stated in the notice that is not less than 5 working days after the day the entity or land owner receives the notice; and
 - (d) states that—
 - (i) the registrar will not make a rectification order if the registrar is not satisfied that it is appropriate to make a rectification order in relation to the entity; and

- (ii) if the registrar does not make a rectification order the Territory may authorise someone else to do the things stated in this notice, and the entity will have to pay for the things to be done.

35 When rectification order may be made

- (1) This section applies if—
 - (a) the registrar has given an entity notice under section 34; and
 - (b) the entity provided the construction service, or part of the construction service, to which the notice relates; and
 - (c) after considering any submissions made within the time mentioned in the notice, the registrar is satisfied—
 - (i) the entity is contravening, or has contravened, this Act or an operational Act; and
 - (ii) it is appropriate to make a rectification order in relation to the entity.

Note 1 If deciding under this section whether it is appropriate to make a rectification order, the registrar must consider the considerations mentioned in s 36.

Note 2 A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see [Legislation Act](#), s 104).

- (2) The registrar may make an order under section 38 (Rectification orders) in relation to the entity.

- (3) However, the registrar may not make an order under section 38 in relation to the entity if a submission is made that satisfies the registrar that the act that caused the contravention happened, or ended, more than 10 years before the day the registrar proposes to make the order.

Examples

- 1 The registrar issues a notice of intention to issue a rectification order to a licensee for completed work. The submission from the licensee claims that the work was completed 11 years ago but does not provide any evidence to satisfy the registrar that the act that caused the contravention to happen ended 11 years ago. The registrar may issue the rectification order to the licensee.
- 2 A licensee undertook work that did not comply with the required technical standards 13 years previously without obtaining or providing a required certification. The licensee did not bring the work into compliance with the relevant certification until 4 years after the work was complete. The registrar is not satisfied that the act that caused the contravention ended over 10 years ago and may issue the rectification order to the licensee.
- 3 The registrar receives a submission from a licensee who was issued with a notice of intention to issue a rectification order. The submission includes verifiable information that demonstrates the relevant work was completed 10 years and 2 months prior to the date the registrar intends to issue the rectification order. The registrar may not make the order.

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

36 Considerations for deciding under s 34 and s 35

- (1) In deciding whether it is, or may be, appropriate to make a rectification order in relation to an entity that is contravening, or has or may have contravened, this Act, the registrar must consider the following:
- (a) any injury, loss or damage caused, or that could have been caused, by the contravention;

- (b) if a rectification order is proposed—how the proposed order may affect people affected by the contravention.

Examples of effect of contravention, including injury, loss and damage

- 1 reduction in safety, reliability, durability, soundness, functionality, accessibility, serviceability, service life, usability, usefulness, amenity, aesthetic quality, value or efficiency of thing affected by contravention
- 2 adverse affect on health of user of thing affected by contravention

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

- (2) The registrar may consider anything else that is relevant.
- (3) However, the registrar need not consider whether the registrar, planning and land authority, a certifier or other entity has—
 - (a) given a certificate, or approval under—
 - (i) this Act or an operational Act in relation to the construction service; or
 - (ii) the *Planning and Development Act 2007* in relation to the place where, or the territory lease under which, the construction service was provided; or
 - (b) otherwise endorsed the construction service under this Act or an operational Act.

37 Rectification order inappropriate

- (1) This section applies if the registrar—
 - (a) has given an entity (other than the land owner) notice under section 34 (Intention to make rectification order); and
 - (b) after considering any submissions made within the time mentioned in the notice, is satisfied that the entity is contravening or has contravened this Act or an operational Act; and

- (c) is not satisfied that it is appropriate to make a rectification order in relation to the entity, because—
 - (i) the registrar is satisfied on reasonable grounds that the entity is not able to do a thing in the way that would be required by the order; or
 - (ii) of the relationship between the entity and the land owner; and
 - (d) is satisfied that the act that caused the contravention happened, or ended, less than 10 years before the day the Territory proposes to authorise someone under this section.
- (2) The Territory may, in writing, authorise a licensee to enter the land where the work to which the notice under section 34 related was to be done and—
- (a) take the action stated in the notice; or
 - (b) start or finish the work stated in the notice.
- (3) The authorised licensee must—
- (a) give the owner of the land written notice that the licensee intends to enter the land at least 24 hours before the licensee enters the land; and
 - (b) give a copy of the notice to the entity before entering the land.
- (4) However, the Territory must not authorise someone until—
- (a) if the entity applied for review of the decision to authorise a licensee under this section within the period for review (the ***review period***) of the decision allowed under the *ACT Civil and Administrative Tribunal Act 2008*—the review is finally disposed of; or
 - (b) the review period has ended.

- (5) The entity is liable for the reasonable cost incurred in doing anything under subsection (2) and the cost is taken to be a debt owing to the Territory.

38 Rectification orders

- (1) The registrar may make an order (a *rectification order*) in relation to an entity requiring the entity—
- (a) to take stated action to rectify work done as part of a construction service; or
 - (b) to demolish a building or part of a building where a construction service has been provided and provide the construction service under this Act or an operational Act; or
 - (c) to start or finish stated work in relation to which a construction service has been, is being or was proposed to be provided.

Example—stated action

rectified work must comply with a stated performance requirement of the Building Code of Australia

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (2) The rectification order may also require the entity to give the registrar written information about a thing required to be done under the order.

Examples

- 1 a structural engineer's report about whether rectified work complies with relevant structural standards
- 2 certification from a building certifier that finished work complies with this Act

- (3) Subsection (4) applies if—
- (a) the order requires the entity to do a thing; and

- (b) the entity—
 - (i) is not licensed, authorised or qualified to do the thing; or
 - (ii) if a licence, authorisation or qualification is not required to do the thing—does not have appropriate experience and skill to do the thing.
- (4) The entity must arrange, and pay for, the thing to be done by someone who—
 - (a) is licensed, authorised or qualified to do the thing; or
 - (b) if a licence, authorisation or qualification is not required to do the thing—has appropriate experience and skill to do the thing.

Examples

- 1 A rectification order requires Freddie to take stated action to rectify work he has done. The action includes having to provide written information about whether the rectified work complies with relevant structural standards. Freddie is not a structural engineer so he must arrange, and pay for, a structural engineer to prepare a report about the rectified work.
 - 2 A rectification order requires Jo to finish building a dwelling. Jo is no longer a licensed builder, and she is not able to get a new licence. Jo must arrange, and pay for, a licensed builder to finish building the dwelling.
 - 3 Alex is a licensed plumber who did non-compliant work on a building that caused extensive water leakage. A rectification order requires him to fix the damage caused by the leakage, including replacing render on the building's exterior, replacing wall linings and insulation in the wall cavity, and repainting walls and replacing carpet in the interior. None of this work requires a licence or other authorisation under ACT law. Alex is able to paint the interior walls to an acceptable standard, but he has never done any of the other kind of work. He must arrange, and pay for, people with appropriate experience and skill to do the rest of the work.
- (5) The rectification order must state a period within which what is required to be done must be done.

- (6) The stated period for a rectification order other than an emergency rectification order must not be less than 1 month after the day the rectification order is given to the entity.

Note Details of the rectification order must be included in the register (see s 108).

- (7) A copy of the rectification order must be given to the land owner.

39 Emergency rectification order

- (1) The registrar may make a rectification order (an *emergency rectification order*) under section 38 in relation to a licensee or former licensee (the *entity*), without giving the entity notice under section 34, if the registrar is satisfied that—
- (a) the entity has provided a construction service other than in accordance with this Act or an operational Act; and
 - (b) it is appropriate to make a rectification order; and
 - (c) it is not appropriate to give notice under section 34 of the registrar's intention to make a rectification order because the need to act promptly to protect the health or safety of people, public or private property or the environment, outweighs the importance of giving the notice before making an order.
- (2) A rectification order that is an emergency rectification order must also include the following:
- (a) a statement explaining that the order is an emergency rectification order;
 - (b) a statement explaining that, if the thing ordered to be done is not done within the period (the *completion period*) stated in the order—
 - (i) the Territory may authorise a licensee to enter the land where the thing is to be done to do the thing ordered; and

- (ii) neither the Territory nor the authorised licensee need give the land owner or entity against whom the order is made further notice of the authorised licensee doing the thing on the land; and
 - (iii) the entity against which the order has been made will be liable for the reasonable cost incurred in doing the thing ordered.
- (3) The completion period must not be less than 24 hours.

40 Rectification order offence

- (1) A person commits an offence if the person intentionally fails to comply with a rectification order given to the person.

Maximum penalty: 2000 penalty units.

- (2) Each partner commits an offence if—
 - (a) the partnership is given a rectification order; and
 - (b) the partners, or some of them, intentionally fail to comply with the rectification order.

Maximum penalty: 2000 penalty units.

- (3) It is a defence to a prosecution for an offence against subsection (2) if the partner proves—
 - (a) that—
 - (i) the partner did not know about the failure to comply; and
 - (ii) reasonable precautions were taken and appropriate diligence was exercised to avoid the contravention; or
 - (b) that the partner was not in a position to influence the other partners in relation to the failure to comply.

41 Failure to comply with order

- (1) This section applies if an entity (the *ordered entity*) in relation to whom a rectification order is made contravenes the rectification order.
- (2) The Territory may, in writing, authorise a licensee to enter the land where the work to which the rectification order relates is to be done and—
 - (a) take the action stated in the rectification order; or
 - (b) start or finish the work stated in the rectification order.
- (3) The authorised licensee must—
 - (a) give the owner of the land written notice that the licensee intends to enter the land at least 24 hours before the licensee enters the land; and
 - (b) give a copy of the notice to the ordered entity before entering the land.
- (4) However, the Territory must not authorise someone until—
 - (a) if the ordered entity applied for review of the decision within the period for review (the *review period*) of the decision to make the rectification order allowed under the *ACT Civil and Administrative Tribunal Act 2008*—the review is finally disposed of; or
 - (b) the review period has ended.
- (5) The ordered entity is liable for the reasonable cost incurred in doing anything under subsection (2) and the cost is taken to be a debt owing to the Territory.

42 Action on emergency rectification order

- (1) This section applies if—
 - (a) the registrar has made an emergency rectification order; and
 - (b) the emergency rectification order includes the information mentioned in section 39 (2); and
 - (c) the ordered entity has contravened the order.
- (2) The Territory may, in writing, authorise a licensee to enter the land where the work to which the rectification order is to be done and—
 - (a) take the action stated in the rectification order; or
 - (b) start or finish the work stated in the rectification order.
- (3) The ordered entity is liable for the reasonable cost incurred in doing anything under subsection (2) and the cost is taken to be a debt owing to the Territory.

43 Hindering or obstructing authorised licensee

- (1) An entity commits an offence if—
 - (a) the entity knows someone is an authorised licensee; and
 - (b) the entity hinders or obstructs the authorised licensee in the exercise of an authorised action.

Maximum penalty: 50 penalty units.

- (2) Strict liability applies to subsection (1) (b).

44 Damage etc by authorised licensee to be minimised

- (1) In the exercise of an authorised action, an authorised licensee must take reasonable steps to ensure that the licensee, and anyone helping the licensee, causes as little inconvenience, detriment and damage as is practicable.
- (2) If an authorised licensee, or a person assisting an authorised licensee, damages anything in the exercise or purported exercise of a function under this part, the authorised licensee must give written notice of the particulars of the damage to the person the authorised licensee believes on reasonable grounds is the owner of the thing.
- (3) If the damage occurs on premises entered under this part in the absence of the occupier, the notice may be given by securing it in a conspicuous place on the premises.

45 Compensation

- (1) A person may claim reasonable compensation from the Territory if the person suffers loss or expense because of the exercise, or purported exercise, of a function under this part by an authorised licensee or person assisting an authorised licensee.
- (2) Compensation may be claimed and ordered in a proceeding for—
 - (a) compensation brought in a court of competent jurisdiction; or
 - (b) an offence against this Act brought against the person making the claim for compensation.
- (3) A court may order the payment of reasonable compensation for the loss or expense only if it is satisfied it is just to make the order in the circumstances of the particular case.
- (4) The regulations may prescribe matters that may, must or must not be taken into account by the court in considering whether it is just to make the order.

46 Protection of authorised licensees from liability

- (1) An authorised licensee does not incur civil liability for an authorised action done honestly for this Act.
- (2) A civil liability that would, apart from this section, attach to the authorised licensee attaches instead to the Territory.
- (3) This section does not prevent an application for occupational discipline being made in relation to an authorised licensee in relation to an authorised action done by the licensee.

47 Licensee to give evidence of insurance

- (1) Before providing a construction service to a person (the *client*), a licensee must give the client evidence of what insurance the licensee holds in relation to the service the licensee is to provide.
- (2) The licensee may ask the client to sign an acknowledgment that the client has been told about the licensee's insurance.
- (3) The acknowledgment must state the time and date it was given.

Note If a form is approved under s 128 for an acknowledgment, the form must be used.

- (4) If the client signs the acknowledgment, the licensee must immediately give the client a copy of it.
- (5) The registrar may assume that the client was not told about the insurance the licensee holds if—
 - (a) a question arises whether the client was told about the licensee's insurance; and
 - (b) an acknowledgment under this section is not produced; and
 - (c) it is not proved that the licensee told the client about the insurance.

- (6) The licensee is taken to have given evidence of what insurance the licensee holds before providing a construction service to a person if the licensee advertised the insurance held at the time of providing the services in a way likely to come to the attention of the client.

Example of advertising insurance held

- 1 Including details of insurance in the telephone directory, if the details are correct at the time the service is provided.
- 2 Having details of insurance on the vehicle used to provide the service or transport to the location to provide the service, if the details are correct at the time the service is provided.

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

- (7) In this section:

evidence of insurance includes a fidelity certificate.

fidelity certificate—see the [Building Act 2004](#), section 84.

47A Licensee must comply with determinations about training

- (1) This section applies if the registrar makes a determination under section 104B (Determinations about training) that applies to a licensee.
- (2) The licensee must comply with the determination.

Note Failure to comply with a determination is a ground for occupational discipline (see s 55 (1) (a)) and may result in a refusal to renew a licence (see s 25 (3)).

Part 5 Automatic licence suspension and occupational discipline

Division 5.1 Automatic licence suspension

48 Automatic suspension of individual licence

- (1) This section applies to an individual who is licensed.
- (2) The individual's licence is automatically suspended if the individual—
 - (a) provides, or proposes to provide, a construction service for a fee; and
 - (b) becomes bankrupt or personally insolvent.
- (3) However, if the individual is a nominee or employee of a licensed entity the licence is not suspended.

Note The regulations impose a condition on the individual's licence.

49 Automatic suspension of corporate licence

- (1) This section applies to a corporation that is licensed.
- (2) The corporation's licence is automatically suspended if the corporation—
 - (a) becomes the subject of a winding-up order; or
 - (b) has a controller or administrator appointed for the corporation; or
 - (c) is found guilty, whether in the ACT or anywhere else, of an offence that—
 - (i) involves fraud, dishonesty or violence; and
 - (ii) is punishable by imprisonment for at least 1 year.

50 Automatic suspension of partnership licence

- (1) This section applies to a partnership that is licensed in a construction occupation or occupation class.
- (2) The partnership's licence in the construction occupation or occupation class is automatically suspended if—
 - (a) a partner's licence in the same occupation or class is suspended or cancelled; or
 - (b) a partner who is not a licensee is found guilty, whether in the ACT or anywhere else, of an offence that—
 - (i) involves fraud, dishonesty or violence; and
 - (ii) is punishable by imprisonment for at least 1 year.

50A Automatic suspension of licence—no nominee

- (1) This section applies to a corporation or partnership that is licensed in a construction occupation or occupation class.
- (2) The corporation's or partnership's licence in the construction occupation or occupation class is automatically suspended if—
 - (a) a nominee is not appointed for the construction occupation or occupation class; or
 - (b) if there is only 1 nominee for the construction occupation or occupation class—the nominee stops being the nominee for the construction occupation or occupation class.

Note A nominee may stop being a nominee automatically (see s 28), on resignation with the registrar's approval (see s 29) or on revocation with the registrar's approval (see s 30).

51 Automatic suspension of licence—construction occupations

- (1) This section applies if—
- (a) an entity that is licensed in a construction occupation stops being eligible to provide a construction service for the construction occupation because the entity is not insured in accordance with the regulation; and
 - (b) the construction occupation is not divided into classes.

Note A regulation may divide a construction occupation into classes (see s 15).

- (2) The entity's licence is automatically suspended when the insurance cover stops.

52 Automatic suspension of licence—occupation classes

- (1) This section applies if an entity that is licensed in an occupation class stops being eligible to provide a construction service for the occupation class because the entity is not insured in accordance with the regulation.

Note A regulation may divide a construction occupation into classes (see s 15).

- (2) The entity's licence is automatically suspended in relation to the class when the insurance cover stops.

52A Suspension of licence—public safety

- (1) This section applies if a licensed construction practitioner engages in conduct that the registrar decides, on reasonable grounds, presents or is likely to present a risk of death or injury to a person, significant harm to the environment or significant damage to property.

Example

A licensed builder has built 7 of 11 proposed dual-occupancy residences. An inspection of 1 of the residences reveals that no fire wall has been built between the 2 occupancies, inconsistent with the building approval. The registrar decides to suspend the builder's licence to inspect the other built residences and prevent other residences being built without a fire wall.

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

- (2) The licensed construction practitioner's licence is suspended when the registrar gives the practitioner notice—
- (a) of the nature of the conduct; and
 - (b) of the nature of the risk; and
 - (c) that the practitioner may apply in writing to the registrar to revoke the suspension.
- (3) However, during the suspension the registrar may allow the licensed construction practitioner to undertake construction work, within the scope of the licensee's licence, necessary to comply with a rectification order.
- (4) The registrar may give the notice orally, in writing or in electronic form.
- (5) However, if the registrar gives the notice orally, the registrar must give the notice in writing or in electronic form within 2 days after giving the notice orally.

53 End of licence suspension

- (1) This section applies if the licence of a construction practitioner has been suspended under 1 or more of the following sections:
 - section 48 (Automatic suspension of individual licence);
 - section 49 (Automatic suspension of corporate licence);
 - section 50 (Automatic suspension of partnership licence);
 - section 50A (Automatic suspension of licence—no nominee);
 - section 51 (Automatic suspension licence—construction occupations);
 - section 52 (Automatic suspension of licence—occupation classes);
 - section 52A (Suspension of licence—public safety).
- (2) The registrar must revoke the suspension if satisfied that the cause of the suspension no longer exists.
- (3) The registrar may revoke the suspension if satisfied that the circumstance that caused the suspension will not put consumers of the construction practitioner's construction services at a greater risk from using the services than if the thing had not happened.
- (4) A revocation must be in writing given to the licensee.
- (5) A suspension, other than a suspension under section 52A (Suspension of licence—public safety), ends if the registrar is given notice of the suspension, on the earlier of—
 - (a) the day the suspension is revoked under this section; or
 - (b) 3 months after the day the registrar is given notice of the suspension.

- (6) If the registrar is not given notice of a suspension, other than a suspension under section 52A, the suspension continues as long as the cause of the suspension continues.

Note The suspension on a licence may be held over to a new licence if the suspended licence expires without being renewed (see s 63).

- (7) A suspension under section 52A (Suspension of licence—public safety) ends on the earlier of—
- (a) the day the suspension is revoked under this section; or
 - (b) 3 months after the day it begins.

55A Skill assessment of licensees

- (1) This section applies—
 - (a) if the registrar believes on reasonable grounds that—
 - (i) a ground for occupational discipline mentioned in section 55 (1) (a) exists in relation to a licensee; and
 - (ii) requiring the licensee to be assessed as mentioned in subsection (2) would assist the registrar to exercise the registrar's functions under section 56 (Application to ACAT for occupational discipline); or
 - (b) if—
 - (i) a licensee's licence is suspended under section 52A (Suspension of licence—public safety); and
 - (ii) the registrar believes on reasonable grounds that requiring the licensee to be assessed as mentioned in subsection (2) would assist the registrar to exercise the registrar's functions under section 52A (3) or section 53 (End of licence suspension).

- (2) The registrar may, by written notice, require the licensee to be assessed to find out whether the licensee has a skill that is reasonably necessary to satisfactorily exercise the functions of a construction occupation or class of construction occupation under the licensee's licence.

 - (c) anything else in relation to a notice.

Note The registrar may withdraw a notice given to a licensee (see [Legislation Act](#), s 180). The withdrawal does not affect the registrar's belief about whether a ground for occupational discipline under s 55 (1) (a) exists in relation to the licensee.

- (6) In this section:

registered training organisation—see the [National Vocational Education and Training Regulator Act 2011](#) (Cwlth), section 3.

56 Occupational discipline

- (1) If the registrar believes on reasonable grounds that a ground for occupational discipline exists in relation to a licensee, the registrar may take 1 or more of the following actions—
 - (a) apply to the ACAT for an occupational discipline order in relation to the licensee;
 - (b) reprimand the licensee;
 - (c) require the licensee, or, if the licensee is a corporation or partnership, a nominee of the licensee, to complete a stated course of training to the satisfaction of the registrar or another stated person;
 - (d) impose a condition on the licence, or amend an existing condition.
- (2) If a regulation prescribes a short description of a ground for occupational discipline under section 55 (1) (a), the registrar may use the short description in the application.

57 Considerations before making occupational discipline orders

- (1) This section applies if the ACAT is considering an application for an occupational discipline order in relation to a licensee.
- (2) Without limiting the matters the ACAT must consider in relation to a licensee, the ACAT must consider the following:
 - (a) the degree of responsibility of the licensee for the act or omission that made up the ground for occupational discipline;
 - (b) the number of people detrimentally affected by the doing of something, or not doing something, that made up the ground for occupational discipline;

- (c) the extent to which it is necessary to discourage the licensee and others from doing something, or not doing something, that made up the ground for occupational discipline;
- (d) whether, and the extent to which, it is necessary to protect the public from the licensee;
- (e) the desirability of making the licensee responsible for the consequences of the licensee's acts or omissions;
- (f) the desirability of maintaining public confidence in the regulatory system set up by this Act;
- (g) the licensee's regard, or disregard, for public safety and protection of the environment when doing something, or not doing something, that made up the ground for occupational discipline;
- (h) if the licensee has completed an assessment mentioned in section 55A (Skill assessment of licensees)—the results of the assessment;
- (i) any action taken by the registrar under section 56.

Note The *ACT Civil and Administrative Tribunal Act 2008*, s 65 (3) sets out other considerations that must be taken into account by the ACAT.

58 Occupational discipline orders—licensees

- (1) This section applies if the ACAT may make an occupational discipline order in relation to a licensee.

Note The *ACT Civil and Administrative Tribunal Act 2008*, s 65 sets out when the ACAT may make an order.

- (2) In addition to any other occupational discipline order the ACAT may make, the ACAT may, if the licensee is licensed in more than 1 occupation class—
- (a) cancel or suspend a single occupational class or each of the occupational classes; or

- (b) direct the registrar to place a condition on or remove or amend a condition of a single occupational class or each of the occupational classes.

Note The *ACT Civil and Administrative Tribunal Act 2008*, s 66 sets out other occupational discipline orders the ACAT may make.

- (3) In addition to any other occupational discipline order the ACAT may make, the ACAT may require the licensee to pay to the Territory a stated amount of not more than—
- (a) if the licensee is an individual—\$20 000; or
- (b) if the licensee is a corporation or a partnership—\$100 000.

Note The *ACT Civil and Administrative Tribunal Act 2008*, s 66 sets out other occupational discipline orders the ACAT may make.

- (4) If the ACAT makes an order for payment under subsection (3) in relation to an occupational discipline order against a licensee the ACAT must not make an order for payment under the *ACT Civil and Administrative Tribunal Act 2008*, section 66 (2) (h) in relation to the same occupational discipline order for the licensee.

58A Occupational discipline orders—related licence of licensee

- (1) This section applies if—
- (a) the ACAT makes an occupational discipline order in relation to a licensee; and
- (b) a related licensee has a related licence.

Note The *ACT Civil and Administrative Tribunal Act 2008*, s 65 sets out matters the ACAT must consider when the ACAT makes an order.

- (2) In addition to any other occupational discipline order the ACAT may make, the ACAT may—
- (a) cancel or suspend the related licence; or

- (b) direct the registrar to place a condition on, or remove or amend a condition on, the related licence.

Note The *ACT Civil and Administrative Tribunal Act 2008*, s 66 sets out other occupational discipline orders the ACAT may make.

- (3) The ACAT may only make an order under subsection (2) if the related licensee has been given—
 - (a) notice of the application for an occupational discipline order in relation to a licensee; and
 - (b) notice that the ACAT is considering making an order in relation to the related licensee; and
 - (c) the opportunity to make representations to the ACAT in relation to the proposed order.

- (4) In this section:

related licence means a licence under this Act that is held by a related licensee.

- (1) This section applies if the registrar has applied to the ACAT for occupational discipline in relation to a licensee.
- (2) The registrar may, by written notice given to the licensee, suspend (an *interim suspension*) a licensee's licence.

Note For how documents may be served, see the [Legislation Act](#), pt 19.5.

- (3) However, the registrar may only suspend the licence under subsection (2) if the registrar—
 - (a) has taken into account the ground for occupational discipline; and

- (b) believes on reasonable grounds that it is in the public interest to suspend the licence before the ACAT makes an occupational discipline order.
- (4) An interim suspension may be—
 - (a) for 2 weeks or less; but
 - (b) if the registrar is satisfied that it is in the public interest to extend the suspension—extended until the ACAT decides the application for occupational discipline in relation to the licence.

Note An interim suspension must be recorded on the register (see s 110).

60 Effect of interim suspension

- (1) This section applies if the registrar suspends a licence under section 59.
- (2) The licence is suspended as soon as the licensee receives the notice of suspension.
- (3) The suspension ends when the earlier of the following happens:
 - (a) the licensee receives a notice of revocation under section 61;
 - (b) the ACAT decides the application for occupational discipline in relation to the licensee.

61 Revocation of interim suspension

- (1) This section applies if the registrar suspends a licence under section 59 (Interim licence suspension).
- (2) The registrar may, at any time before the ACAT makes an occupational discipline order, revoke the suspension by written notice given to the licensee.

 - (a) section 58 (2) (a); or
 - (b) the *ACT Civil and Administrative Tribunal Act 2008*, section 66 (2) (e), (f) or (g).

63 Effect of non-renewal on suspended licence

- (1) This section applies if—
 - (a) a licence (the *original licence*) for a construction occupation or occupation class has been suspended for a period; and
 - (b) the original licence expires before the end of the suspension period without being renewed; and
 - (c) the licensee is issued with a licence (the *new licence*) in the same construction occupation or occupation class within 3 years after the day the original licence expired.
- (2) The new licence is suspended for the remainder of the suspension period.

64 Requirement to return surrendered licence

- (1) This section applies if a person surrenders the person's licence because the licence is suspended.

Note It is an offence not to surrender a licence that has been suspended or cancelled (see s 86).

- (2) The registrar must return the licence to the person not later than the last day of the suspension.
- (3) If the licence is varied during the suspension, the licence as varied must be returned.

In this part:

code means the *Gas Safety (Appliance Worker Accreditation Code) Approval 2007* (repealed).

commencement day means the day the *Gas Safety Legislation Amendment Act 2014*, part 2 commences.

183 Validation of code

The code is taken to be, and always to have been, valid as if the purported subdelegation of power to approve a code in relation to the accreditation of people to do appliance work under the *Gas Safety Regulation 2001*, section 17A (1) had been a valid delegation of power under the *Gas Safety Act 2000*.

184 Accreditation under code

- (1) This section applies to a person if—
 - (a) immediately before the commencement day, the person was accredited to do appliance work under the code; and
 - (b) section 187 (Pending suspension or cancellation of accreditation) does not apply to the person.
- (2) The person is taken to be licensed as a gas appliance worker under section 19.
- (3) The registrar must—
 - (a) if the person was accredited under the code to do appliance work that is directly equivalent to an occupation class of gas appliance worker under this Act—issue a licence to the person in that occupation class; or

- (b) if the person was accredited under the code to do appliance work that is not directly equivalent to an occupation class of gas appliance worker under this Act—do one of the following:
 - (i) issue a licence in an occupation class under this Act with a condition that the person undertake stated training to become fully eligible for a licence in that occupation class;
 - (ii) issue a licence in an occupation class for which the person would be eligible under this Act.
- (4) The licence issued to the person ends when the person’s accreditation under the code would have ended.
- (5) A licence issued to the person under subsection (3) is—
 - (a) if the person’s accreditation under the code is subject to a condition—taken to have been issued under this Act subject to that condition; and
 - (b) if the person’s accreditation under the code was in suspension on the commencement day—taken to have been suspended until the time when the suspension would have ended under the code.
- (6) The registrar must enter in the register the particulars mentioned in the *Construction Occupations (Licensing) Regulation 2004*, section 9 in relation to the person.
- (7) In this section:
directly equivalent—an accreditation under the code is ***directly equivalent*** to a gas appliance worker licence if the appliance work that the person was accredited to do under the code corresponds to the gas appliance work to which the licence applies.

185 Certain information to be given to registrar

- (1) This section applies if a licensee has not given the registrar the licensee's mobile telephone number and email address (the *required information*).
- (2) The licensee must give the registrar the required information within 6 months after the day this section commences.

Note If a form is approved under s 128 for this provision, the form must be used.

- (3) If the licensee's licence is due for renewal within 6 months after the day this section commences, the licensee may include the required information in the application for renewal instead of an approved form for this provision (if any).

- (1) This section applies if, before the commencement day—
 - (a) a person applied to the chief executive for accreditation or renewal of accreditation under the code; and
 - (b) the chief executive has not decided the application.

- (1) This section applies to a person if, on the commencement day—
 - (a) the chief planning executive has taken action under the code to suspend or cancel the person's accreditation; and
 - (b) the chief planning executive has not made a final decision on the suspension or cancellation action.

- (2) The chief planning executive must proceed to make a final decision in relation to the person following the process stated in the code.
- (3) If the chief planning executive's final decision is to suspend the person's accreditation—
 - (a) the person is taken to be licensed as a gas appliance worker under section 19 (Decision on licence application); and
 - (b) the person's licence is taken to be suspended under part 8 (Demerit points system); and
 - (c) the registrar must serve a notice of licence suspension on the person in accordance with section 97 (Licence suspension).
- (4) If the chief planning executive's final decision is to cancel the person's accreditation—
 - (a) the person is taken to have been disqualified under part 8 from holding a gas appliance worker's licence; and

final decision, of the chief planning executive, means a decision made by the chief planning executive after completing the process stated in the code for suspending or cancelling an accredited appliance worker's accreditation.

 - (a) a reference to a construction occupation included a reference to gas appliance worker; and
 - (b) a reference to a licensee or former licensee included a reference to a person who was an accredited appliance worker under the code (whether or not the person is also a licensee or former licensee for this Act); and
 - (c) all other necessary changes were made; and
 - (d) any changes prescribed by regulation were made.
- (2) This section expires 10 years after the day it commences.

Note Transitional provisions are kept in the Act for a limited time. A transitional provision is repealed on its expiry but continues to have effect after its repeal (see [Legislation Act](#), s 88).

6 Expired transitional or validating provisions

This Act may be affected by transitional or validating provisions that have expired. The expiry does not affect any continuing operation of the provisions (see *Legislation Act 2001*, s 88 (1)).

Expired provisions are removed from the republished law when the expiry takes effect and are listed in the amendment history using the abbreviation ‘exp’ followed by the date of the expiry.

To find the expired provisions see the version of this Act before the expiry took effect. The ACT legislation register has point-in-time versions of this Act.
