Australian Capital Territory

Water Resources Act 2007

A2007-19

An Act to provide for sustainable management of the water resources of the Territory, and for other purposes

The Legislative Assembly for the Australian Capital Territory enacts as follows:

J2006-218

Authorised by the ACT Parliamentary Counsel—also accessible at www.legislation.act.gov.au

Part 1 Preliminary

1 Name of Act

This Act is the *Water Resources Act 2007*.

2 Commencement

This Act commences on a day fixed by the Minister by written notice.

Note 1 The naming and commencement provisions automatically commence on the notification day (see Legislation Act, s 75 (1)).

Note 2 A single day or time may be fixed, or different days or times may be fixed, for the commencement of different provisions (see Legislation Act, s 77 (1)).

Note 3 If a provision has not commenced within 6 months beginning on the notification day, it automatically commences on the first day after that period (see Legislation Act, s 79).

3 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary at the end of this Act defines certain terms used in this Act, and includes references (*signpost definitions*) to other terms defined elsewhere in this Act.

For example, the signpost definition ‘*offence*, for part 10 (Enforcement)—see section 78.’ means that the term ‘offence’ is defined in that section for part 10.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see Legislation Act, s 155 and s 156 (1)).

4 Notes

A note included in this Act is explanatory and is not part of this Act.

Note See the Legislation Act, s 127 (1), (4) and (5) for the legal status of notes.

5 Offences against Act—application of Criminal Code etc

Other legislation applies in relation to offences against this Act.

Note 1 *Criminal Code*

The Criminal Code, ch 2 applies to all offences against this Act (see Code, pt 2.1).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

Note 2 *Penalty units*

The Legislation Act, s 133 deals with the meaning of offence penalties that are expressed in penalty units.

Part 2 Main principles and concepts

6 Objects of Act

The objects of this Act are—

- (a) to ensure that management and use of the water resources of the Territory sustain the physical, economic and social wellbeing of the people of the ACT while protecting the ecosystems that depend on those resources; and
- (b) to protect aquatic ecosystems and aquifers from damage and, where practicable, to reverse damage that has already happened; and
- (c) to ensure that the water resources are able to meet the reasonably foreseeable needs of future generations.

7 Territory rights to water

Subject to this Act, the right to the use, flow and control of all water of the Territory is vested in the Territory and is exercisable by the Minister on behalf of the Territory.

8 Surface water

For this Act, *surface water* means—

- (a) water on or flowing over land (including in a waterway) after having—
 - (i) fallen as rain or hail or precipitated in any other way; or
 - (ii) risen to the surface naturally from underground; or

- (iii) been returned to the environment following treatment or use; and
- (b) water mentioned in paragraph (a) that has been collected in a dam, reservoir or rainwater tank.

9 Ground water

- (1) For this Act, *ground water* means water occurring or obtained from below the surface of the ground or beneath a waterway.
- (2) *Ground water* includes water occurring in or obtained or flowing from a bore.
- (3) However, *ground water* does not include water occurring in or obtained or flowing from any other system for the distribution, reticulation, transportation, storage or treatment of water or waste.

10 Waterway

- (1) For this Act, *waterway* means—
 - (a) a river, creek, stream or other natural channel in which water flows (whether continuously or intermittently); or
 - (b) the stormwater system or any other channel formed (whether completely or partly) by altering or relocating a waterway mentioned in paragraph (a); or
 - (c) a lake, pond, lagoon or marsh (whether formed by geomorphic processes or by works) in which water collects (whether continuously or intermittently).
- (2) *Waterway* includes—
 - (a) the bed that the water in the waterway normally flows over or is covered by; and
 - (b) the banks that the water in the waterway normally flows between or is contained by.

(3) However, *waterway* does not include land normally not part of the waterway that may be covered from time to time by floodwaters from the waterway.

(4) In this section:

stormwater means water run-off that is normally collected by a stormwater system.

stormwater system means a system of pipes, gutters, drains and channels that are public works constructed to collect or transport stormwater in or through an urban area.

11 Taking water

(1) For this Act, *take* water includes—

(a) in relation to surface water—

- (i) withdraw, pump, extract or use surface water; and
- (ii) divert surface water for the purpose of using it; and
- (iii) do anything else that results in a reduction of flow of surface water in a waterway; and

(b) in relation to ground water—allow ground water to flow or be pumped from a bore.

(2) However, a person does not *take* water if the person uses water taken by someone else under a licence to take water.

Example—s (2)

using water provided by a water utility

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

Part 3 Environmental flow guidelines

12 Environmental flow guidelines

- (1) The Minister may approve guidelines (*environmental flow guidelines*) for working out the flow of water that is needed to maintain aquatic ecosystems.

Note Power to make a statutory instrument (including guidelines) includes power to amend or repeal the instrument (see Legislation Act, s 46 (1)).

- (2) Environmental flow guidelines approved by the Minister are a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the Legislation Act.

13 Environmental flow guidelines—preparation by authority

- (1) Before the Minister approves environmental flow guidelines, the authority must prepare draft environmental flow guidelines for the Minister's approval.
- (2) In preparing draft guidelines, the authority must consider principally the ecological needs of aquatic ecosystems but may also take into account the environmental, economic and social impact of the guidelines.

14 Environmental flow guidelines—consultation

- (1) After preparing draft guidelines under section 13, the authority must prepare a written notice (a *consultation notice*)—
 - (a) containing a brief description of the draft guidelines; and
 - (b) stating that copies of the draft guidelines are available for public inspection for a period (the *consultation period*) and at the place stated in the notice; and

- (c) inviting people to give written comments about the draft guidelines to the authority in the consultation period.
- (2) The consultation period must be at least 60 days.
- (3) The consultation notice—
 - (a) is a notifiable instrument; and
 - (b) must be published in a daily newspaper circulating generally in the ACT.

Note A notifiable instrument must be notified under the Legislation Act.

- (4) The authority must consider any written comments given to it in the consultation period and may revise the draft guidelines in accordance with the comments as it considers appropriate.
- (5) This section does not apply to a draft amendment of the environmental flow guidelines that is to make formal changes only.

15 Environmental flow guidelines—submission to Minister

- (1) The authority must submit the draft guidelines (including any revision under section 14 (4)) to the Minister for approval, together with a written report—
 - (a) about the authority’s consultation with the public and with any particular person or entity about the draft guidelines; and
 - (b) setting out the issues raised in the comments given to the authority under section 14 in the consultation period.
- (2) On receiving draft guidelines submitted for approval, the Minister may—
 - (a) approve the guidelines as submitted; or
 - (b) refer the draft back to the authority with a written direction to do 1 or more of the following:
 - (i) conduct further stated consultation;

- (ii) consider any revision suggested by the Minister;
 - (iii) revise the draft in a stated way.
- (3) If the Minister refers draft guidelines back to the authority under subsection (2) (b), the authority must—
 - (a) comply with the Minister's directions; and
 - (b) resubmit the draft guidelines (with any revisions required) to the Minister for approval together with a written report about the authority's compliance with the Minister's directions and about any revision of the draft guidelines.
- (4) Subsection (2) applies to draft guidelines resubmitted to the Minister for approval.

Part 4 Water access entitlements

16 Water management areas

- (1) The Minister must determine areas (*water management areas*) for managing the water resources of the Territory.
- (2) A determination is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the Legislation Act.

17 Amounts of water available from areas

- (1) The Minister must determine—
 - (a) the total amount of surface water that is available for taking in each water management area; and
 - (b) the total amount of ground water that is available for taking in each water management area.
- (2) The amounts must be determined taking into account—
 - (a) the environmental flow guidelines; and
 - (b) the total water resources of the Territory; and
 - (c) any investigations undertaken by the authority to establish sustainable yields for the water management area.
- (3) The Minister may also determine, for any water management area, an amount of the water determined under subsection (1) that is to be reserved for future use.
- (4) If the Minister makes a determination reducing the amount of water reserved for future use under subsection (3), the determination may state the reason for the reduction.

- (5) A determination under this section is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the Legislation Act.

18 Amounts of water reasonable for uses

- (1) The Minister may determine guidelines for working out the amounts of water that are reasonable amounts for particular uses.

Note Decisions about granting water access entitlements and issuing licences to take water require consideration of what are reasonable amounts for intended uses (see s 21 (2) (a) (ii) and s 30 (2) (c)).

- (2) A determination is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the Legislation Act.

19 Water access entitlements

- (1) A *water access entitlement* is an entitlement to the amount of surface water or ground water stated in the entitlement.

- (2) The amount must be stated as the lesser of—

- (a) a percentage of the total amount of the surface water or ground water available for taking from time to time in the water management area stated in the entitlement; and
- (b) a stated maximum volume.

Note Because a water access entitlement entitles the holder to a percentage of the water available for taking, and that amount is likely to vary from time to time, the entitlement does not guarantee that a particular volume of water, or any water, will be available under the entitlement.

20 Water access entitlement—application

- (1) A person may apply to the Minister for a water access entitlement.

Note 1 If a form is approved under s 108 for this provision, the form must be used.

Note 2 A fee may be determined under s 107 for this provision.

- (2) The application must be in writing and must state—
- (a) the applicant's name; and
 - (b) whether the applicant seeks surface water or ground water; and
 - (c) the amount of water sought; and
 - (d) the water management area to which the amount relates; and
 - (e) the intended use of the water; and
 - (f) the place where the applicant intends to access the water and the basis of the applicant's right to have access to that place.
- (3) The Minister may, by written notice given to the applicant, require the applicant to give the Minister additional information or documents the Minister reasonably needs to decide the application.
- (4) If the applicant does not comply with a requirement under subsection (3), the Minister may refuse to consider the application further.

21 Water access entitlement—decision on application

- (1) On application by a person for a water access entitlement, the Minister must—
- (a) grant the water access entitlement; or
 - (b) refuse to grant the water access entitlement.

- (2) The Minister must not grant the water access entitlement unless satisfied that—
- (a) the amount of water to which the entitlement would give access—
 - (i) is available for taking having regard to any determination in force under section 17 (Amounts of water available from areas) and any other water access entitlements and surviving allocations that exist in relation to the water management area; and
 - (ii) is not more than a reasonable amount for the intended use having regard to any determination in force under section 18 (Amounts of water reasonable for uses); and
 - (b) the water is not intended to be used on urban residential property; and
 - (c) the intended use of the water is otherwise consistent with the Territory plan; and
 - (d) the applicant does not hold a surviving allocation; and
- Note* Surviving allocations are water allocations that were granted under the repealed Act. A person holding a surviving allocation may surrender it, and be granted a water access entitlement, under this Act, pt 13 (Surviving allocations).
- (e) it is appropriate to grant the entitlement having regard to—
 - (i) the applicant's environmental record; and
 - (ii) anything else the Minister considers relevant.
- (3) Subsection (2) (b) does not apply if the applicant is a water utility.

- (4) In deciding applications, the Minister must give priority—
- (a) first, to any application for surface water by the owner or occupier of land who—
 - (i) was previously able to take water without a licence because the water was taken from a waterway on or immediately adjacent to the land; and
 - (ii) can no longer do so because a boundary change was made to the land, on the Territory's initiative, after the commencement of this Act; and
 - (iii) is seeking the water for stock or domestic use; and
 - (b) second, to any application by a person who does not have access to urban water supply and is seeking the water for stock or domestic use; and
 - (c) after that, as the Minister considers appropriate.

22 Water access entitlement—content

A water access entitlement must state—

- (a) the name of the holder of the entitlement; and
- (b) the amount of surface water or ground water that may be taken; and

Note The amount must be stated as the lesser of a percentage of the total amount of water available for taking in the water management area and a stated maximum volume (see s 19 (2)).

- (c) the water management area to which the amount relates; and
- (d) if the holder does not have access to urban water supply and the entitlement is for water for stock or domestic use—
 - (i) that the water is for stock or domestic use; and
 - (ii) the place where the water may be taken; and

- (e) anything else required under this Act to be stated in the water access entitlement.

Note A reference to an Act includes a reference to the statutory instruments made or in force under the Act, including any regulation (see Legislation Act, s 104).

23 Water access entitlement—conditions

- (1) A water access entitlement is subject to any condition—
- (a) imposed when the entitlement is granted; or
 - (b) prescribed by regulation; or
 - (c) imposed on amendment of the entitlement under section 24.

Examples of conditions to which water access entitlement may be subject

- 1 that the water may be used only for the purpose stated in the entitlement
- 2 that the water may be used only in a water management area
- 3 that the water may be taken only from the place stated in the entitlement
- 4 for an entitlement to ground water granted to enable a bore to be drilled— that the entitlement will expire at the end of 12 months after the entitlement is granted if ground water is not found in that period.

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (2) The conditions to which a water access entitlement is subject are taken to be conditions of any licence to take water that is based on the entitlement.

24 Water access entitlement—amendment

- (1) The authority may amend a water access entitlement, including by imposing a condition on, or amending an existing condition of, the entitlement.

Note A fee may be determined under s 107 for this provision.

- (2) However, the authority may amend an entitlement only if—
 - (a) the authority has given the holder of the entitlement written notice of the proposed amendment; and
 - (b) the notice states that written comments on the proposal may be made to the authority before the end of a stated period of at least 14 days after the day the notice is given to the holder; and
 - (c) the authority has considered any comments made before the end of the stated period.
- (3) Subsection (2) does not apply if the holder applied for, or agreed in writing to, the proposed amendment.
- (4) The amendment of an entitlement takes effect on—
 - (a) the date on which notice of the amendment is given to the holder; or
 - (b) if a later date is stated in the notice—that date.
- (5) A condition imposed or amended by the authority must not be inconsistent with any condition prescribed by regulation that applies to the entitlement.
- (6) This section does not apply to an amendment made under section 25.

25 Water access entitlement—special provision for certain entitlements based on surviving allocations etc

- (1) This section applies to a water access entitlement granted by the authority under section 111 (Surviving allocations—surrender generally) or section 202 (Water access entitlement for certain existing licence holders) that includes a statement about where the water may be taken.

Note The statement is included on—

- water access entitlements granted under s 111 if no fee was paid under the repealed Act for the grant of the surrendered allocation; and
- all water access entitlements granted under s 202.

- (2) On application by the holder of the entitlement, the authority must amend the water access entitlement to remove the statement.

Note A fee may be determined under s 107 for this provision.

- (3) The authority must also amend the entitlement to remove the statement before—

- (a) approving a transfer of the entitlement; or
- (b) making any other amendment of the entitlement.

Example—s (3) (b)

changing the percentage of water that may be taken stated in the entitlement

Note 1 A fee may be determined under s 107 for this provision.

Note 2 An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (4) Subsection (3) does not apply in relation to—

- (a) an entitlement held by a water utility; or
- (b) an entitlement that—
 - (i) is held by a person who does not have access to urban water supply; and

- (ii) is for water for stock or domestic use; or
- (c) an amendment of an entitlement held by an individual that is to be made only because the individual has changed his or her name.

26 Water access entitlement—transfer

- (1) The holder of a water access entitlement may, with the approval of the authority, transfer the whole or part of the entitlement to someone else.

Note A fee may be determined under s 107 for this provision.

- (2) The authority must not approve the transfer of a water access entitlement unless satisfied that—
- (a) the intended use of the water and the place it is proposed to be used is consistent with—
 - (i) the conditions of the entitlement; and
 - (ii) the Territory plan; and
 - (b) it is appropriate to approve the transfer having regard to—
 - (i) the transferee's environmental record; and
 - (ii) anything else the authority considers relevant.
- (3) A transfer of a water access entitlement may be absolute or for a limited period.
- (4) A transfer of part of a water access entitlement must be for units no smaller than 0.5ML.
- (5) A water access entitlement that entitles the holder to water for stock or domestic use on particular land may be transferred to someone else only if the holder's interest in the land is also transferred to that person.

- (6) A regulation may make provision in relation to the transfer of water access entitlements.

27 Water access entitlement—effect of transfer on licence to take water

- (1) If a person transfers absolutely the whole of a water access entitlement or corresponding water access entitlement to which a licence to take water relates, the licence is taken to be cancelled.
- (2) If a person transfers, for a limited period, the whole of a water access entitlement or corresponding water access entitlement to which a licence to take water relates, the licence is taken to be suspended for the period.
- (3) If a person transfers absolutely part of a water access entitlement or corresponding water access entitlement to which a licence to take water relates, the amount of water the person is authorised to take under the licence is taken to be reduced by the amount of the transfer.
- (4) If a person transfers, for a limited period, part of a water access entitlement or corresponding water access entitlement to which a licence to take water relates, the amount of water the person is authorised to take under the licence is taken to be reduced by the amount of the transfer for the period.
- (5) In this section:

corresponding water access entitlement means a water access entitlement (however described) granted under a law of the Commonwealth, a State or another Territory that regulates the granting of entitlements to water and is prescribed by regulation for this definition.

Part 5 Licences

Division 5.1 Licences to take water

28 Licence to take water—requirement

- (1) A person commits an offence if the person—
 - (a) takes surface water or ground water from a place; and
 - (b) does not have a licence to take the water from the place.Maximum penalty: 50 penalty units, imprisonment for 6 months or both.
- (2) A person who is the owner or occupier of land commits an offence if the person—
 - (a) takes ground water from a bore on the land; and
 - (b) does not have a licence to take the ground water.Maximum penalty: 50 penalty units.
- (3) An offence against subsection (2) is a strict liability offence.

 - (a) in the conduct of a business carrying or extracting water, takes surface water from a place; and
 - (b) does not have a licence to take the surface water.Maximum penalty: 50 penalty units.
- (5) An offence against subsection (4) is a strict liability offence.
- (6) This section does not apply to—
 - (a) the taking of water from a waterway—
 - (i) for camping or similar purposes; or

(ii) for watering travelling stock; or

Examples—par (a) (i)

- 1 bushwalking
- 2 picnicking

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (b) the taking of rainwater from a rainwater tank that has been installed in accordance with the approval (if any) required under the *Planning and Development Act 2007*, chapter 7 (Development approvals); or
- (c) the owner or occupier of land on or immediately adjacent to which there is a waterway who takes water from the waterway, or surface water from the land, for stock or domestic use; or
