A2015-38

Republication No 19

Effective: 27 March 2024 – 16 November 2025

Republication date: 27 March 2024

Last amendment made by [A2023-45](#)

About this republication

The republished law

This is a republication of the *Mental Health Act 2015* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 27 March 2024. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 27 March 2024.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication includes amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the *Legislation Act 2001*, section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$160 for an individual and \$810 for a corporation (see *Legislation Act 2001*, s 133).

Mental Health Act 2015

An Act to provide for the treatment, care or support, rehabilitation and protection of people with a mental disorder or mental illness and the promotion of mental health and wellbeing, and for other purposes

Chapter 1 Preliminary

1 Name of Act

This Act is the *Mental Health Act 2015*.

2 Dictionary

The dictionary at the end of this Act is part of this Act.

Note 1 The dictionary at the end of this Act defines certain terms used in this Act, and includes references (*signpost definitions*) to other terms defined elsewhere.

For example, the signpost definition ‘*care and protection order*—see the [Children and Young People Act 2008](#), section 422.’ means that the term ‘care and protection order’ is defined in that section and the definition applies to this Act.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire Act unless the definition, or another provision of the Act, provides otherwise or the contrary intention otherwise appears (see [Legislation Act](#), s 155 and s 156 (1)).

3 Notes

A note included in this Act is explanatory and is not part of this Act.

Note See the [Legislation Act](#), s 127 (1), (4) and (5) for the legal status of notes.

4 Offences against Act—application of Criminal Code etc

Other legislation applies in relation to offences against this Act.

Note 1 Criminal Code

The [Criminal Code](#), ch 2 applies to all offences against this Act (see Code, pt 2.1).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

Note 2 Penalty units

The [Legislation Act](#), s 133 deals with the meaning of offence penalties that are expressed in penalty units.

Chapter 2 Objects and important concepts

5 Objects of Act

The objects of this Act are to—

- (a) promote the recovery of people with a mental disorder or mental illness; and
- (b) promote the capacity of people with a mental disorder or mental illness to determine, and participate in, their assessment and treatment, care or support, taking into account their rights in relation to mental health under territory law; and
- (c) ensure that people with a mental disorder or mental illness receive assessment and treatment, care or support in a way that is least restrictive or intrusive to them; and
- (d) facilitate access by people with a mental disorder or mental illness to services provided in a way that recognises and respects their rights, inherent dignity and needs; and
- (e) promote the inclusion of, and participation by, people with a mental disorder or mental illness in communities of their choice; and
- (f) facilitate access by people with a mental disorder or mental illness to assessment and treatment, care or support as far as practicable in communities of their choice; and
- (g) support improvements in mental health through mental health promotion, illness prevention and early intervention.

6 Principles applying to Act

- (a) a person with a mental disorder or mental illness has the same rights and responsibilities as other members of the community and is to be supported to exercise those rights and responsibilities without discrimination;
- (b) a person with a mental disorder or mental illness has the right to—
 - (i) consent to, refuse or stop treatment, care or support; and

- (e) a person with a mental disorder or mental illness has the right to access the best available treatment, care or support relating to the person's individual needs;
- (f) a person with a mental disorder or mental illness has the right to be able to access services that—
 - (i) are sensitive and responsive to the person's individual needs, including in relation to age, gender, culture, language, religion, sexuality, trauma and other life experiences; and
 - (ii) observe, respect and promote the person's rights, liberty, dignity, autonomy and self-respect;

- (g) a person with a mental disorder or mental illness has the right to be given timely information, in a way that the person is most likely to understand, to allow the person to make decisions or maximise the person's contribution to decision-making about the person's assessment and treatment, care or support;
- (h) a person with a mental disorder or mental illness has the right to communicate, and be supported in communicating, in a way appropriate to the person;

Examples

- 1 aided augmentative and alternative communication including teletypewriter services, communication boards and communication books
 - 2 unaided augmentative and alternative communication including sign language and facial expression

 - (i) respect the informed consent of the person to the person's assessment and treatment, care or support including consent as expressed in an advance consent direction; and
 - (ii) support and allow the person to make the person's own decisions; and
 - (iii) be provided in a way that considers and respects the preferences of the person, including those expressed in an advance agreement; and

- (iv) promote a person's capacity to determine the person's recovery from mental disorder or mental illness; and

- (2) The referring officer may apply to the ACAT for an assessment order in relation to the person.

Note After an assessment is made, the ACAT may decide to make a mental health order in relation to a person (see pt 5.2). The ACAT is not able to make a forensic mental health order for a person unless the person is otherwise a person for whom a forensic mental health order can be made (see ch 7).

- (3) A referring officer who applies under subsection (2) and believes on reasonable grounds that there is a risk of serious danger to public safety from the person, must tell the ACAT, in writing, about the risk and the basis for the belief about the risk.

Part 5.4 Psychiatric treatment orders

58 Psychiatric treatment order

- (1) This section applies to—

- (2) The ACAT may make a psychiatric treatment order in relation to the person if—
 - (a) the person has a mental illness; and
 - (b) either—
 - (i) the person does not have decision-making capacity to consent to the treatment, care or support and refuses to receive the treatment, care or support; or
 - (ii) the person has decision-making capacity to consent to the treatment, care or support, but refuses to consent; and
 - (c) the ACAT believes on reasonable grounds that, because of the mental illness, the person—
 - (i) is doing, or is likely to do, serious harm to themselves or someone else; or
 - (ii) is suffering, or is likely to suffer, serious mental or physical deterioration; and

- (d) in relation to a person mentioned in paragraph (b) (ii)—the ACAT is satisfied that the harm or deterioration, or likely harm or deterioration, mentioned in paragraph (c) is of such a serious nature that it outweighs the person’s right to refuse to consent; and
- (e) the ACAT is satisfied that psychiatric treatment, care or support is likely to—
 - (i) reduce the harm or deterioration, or the likelihood of the harm or deterioration, mentioned in paragraph (c); or
 - (ii) result in an improvement in the person’s psychiatric condition; and
- (f) if an application has been made for a forensic mental health order—the ACAT is satisfied that a psychiatric treatment order should be made instead; and
- (g) the ACAT is satisfied that the treatment, care or support to be provided under the psychiatric treatment order cannot be adequately provided in another way that would involve less restriction of the freedom of choice and movement of the person.

59 Content of psychiatric treatment order

- (1) A psychiatric treatment order made in relation to a person may state 1 or more of the following:
 - (a) an approved mental health facility to which the person may be admitted;
 - (b) that the person must do either or both of the following:
 - (i) undergo psychiatric treatment, other than electroconvulsive therapy or psychiatric surgery;
 - (ii) undertake a counselling, training, therapeutic or rehabilitation program;

- (c) that limits may be imposed on communication between the person and other people.

 - (b) be accompanied by a statement about how the person meets the criteria under section 58 (2) (Psychiatric treatment order).
- (3) A psychiatric treatment order must not include any requirement mentioned in section 61 (1) (Content of restriction order made with psychiatric treatment order).

60 Criteria for making restriction order with psychiatric treatment order

In addition to making a psychiatric treatment order in relation to a person, the ACAT may make a restriction order in relation to the person if it believes on reasonable grounds that—

- (a) it is in the interests of the person's health or safety or the safety of someone else or the public to do so; and
- (b) the treatment, care or support to be provided under the psychiatric treatment order cannot be adequately provided in another way that would involve less restriction of the freedom of choice and movement of the person.

61 Content of restriction order made with psychiatric treatment order

- (1) A restriction order made under section 60 in relation to a person may state either or both of the following:
 - (a) that the person must—
 - (i) live (but not be detained) at a stated place; or
 - (ii) be detained at a stated place;
 - (b) that the person must not approach a stated person or stated place or undertake stated activities.
- (2) A restriction order does not prevent the chief psychiatrist from granting leave to a person detained at a stated place.

62 Role of chief psychiatrist—psychiatric treatment order

- (1) The chief psychiatrist is responsible for the treatment, care or support of a person to whom a psychiatric treatment order applies.
- (2) Within 5 working days after the day the order is made, the chief psychiatrist must determine, in writing—
 - (a) whether the person requires admission to an approved mental health facility to receive treatment, care or support under the order and, if so, whether the person can be given leave from the facility; and
 - (b) for a person living in the community—the times when and the place where the person is required to attend to receive treatment, care or support, in accordance with the order; and
 - (c) the nature of the psychiatric treatment to be given to the person.

Note The power to make an instrument includes the power to amend or repeal the instrument (see [Legislation Act](#), s 46).

- (3) If the chief psychiatrist forms a belief on reasonable grounds that a person subject to a psychiatric treatment order who is living in the community requires admission to an approved mental health facility to receive treatment, care or support under the order, the chief psychiatrist may determine, in writing—
- (a) the approved mental health facility that the person is to be admitted to; and
 - (b) the nature of the psychiatric treatment to be given to the person; and
 - (c) whether the person can be given leave from the facility.
- (4) For subsection (2) (c) or (3) (b), the chief psychiatrist must not determine treatment that has, or is likely to have, the effect of subjecting the person to whom it is given to undue stress or deprivation, having regard to the benefit likely to result from the treatment.
- (5) Before making a determination in relation to a person, the chief psychiatrist must—
- (a) take all reasonable steps to consult the following:
 - (i) the person;
 - (ii) if the person is a child—each person with parental responsibility for the child under the *Children and Young People Act 2008*, division 1.3.2 (Parental responsibility);

Other people are also entitled to appear (see s 190).

Note 3 A psychiatric treatment order or forensic psychiatric treatment order is also needed if electroconvulsive therapy is to be administered to the person and the person refuses or resists (see s 149 (3) (b) and s 151 (2) (b)).

161 What ACAT must take into account—emergency electroconvulsive therapy order

In making an emergency electroconvulsive therapy order in relation to a person, the ACAT must take into account the following:

 - (i) save the person's life; or
 - (ii) prevent the likely onset of a risk to the person's life within 3 days; and

Note The ACAT must give a copy of the order to certain people within 24 hours (see s 195).

164 Effect of later order

If an emergency electroconvulsive therapy order is in force in relation to a person and the ACAT makes an electroconvulsive therapy order in relation to the person, the emergency electroconvulsive therapy order ceases to be in force.
