1. The relevant amount is referred to in this Schedule as the "Pollutant Fee".
2. The Pollutant Fee shall equal the assessable load of the pollutant multiplied by the appropriate Pollutant Fee Unit for the particular activity as shown in Table 1 below.
3. The assessable load for each pollutant shall equal the concentration of the pollutant multiplied by the discharge weight or volume as defined in the authorisation for each activity. The unit of measure for assessable load is kilogram.
4. The concentration of the pollutant is the weight in kilograms of pollutant per volume or weight of discharge from the activity. Concentration and volume or weight of discharge shall be measured as set out in the environmental authorisation granted for the activity. The concentration so measured shall apply to the discharge from the activity until another concentration for that pollutant is measured.
5. The Pollutant Fee payable per year shall be:
  - nil – if the fee shown in Schedule 2 for the activity is greater than or equal to the Pollutant Fee; or
  - the Pollutant Fee less the fee shown in Schedule 2 – if the fee shown in Schedule 2 is less than the Pollutant Fee.
