## 1. INTRODUCTION

### 1.1 Industry codes

The Electricity Feed-in Code is an industry code under Part 4 of the *Utilities Act 2000* (the **Utilities Act**) that has been determined by the Independent Competition and Regulatory Commission (the **Commission**).

Section 55(1) of the **Utilities Act** provides that ‘an industry code may set out practices, standards and other matters about the provision of a utility service’.

Section 56(1) of the **Utilities Act** states that ‘for this Act, an industry code applies to a utility if it applies to the provision of utility services of a kind that the utility is licensed to provide.’

The circumstances under which the Commission may determine an industry code and the processes to be followed are detailed in sections 59 and 60 of the **Utilities Act**.

### 1.2 Utility / NERL retailers to comply with industry codes

The **Utilities Act** provides, in section 25(2)(iii) that a utility licence is subject to the condition that the utility comply with each industry code that applies to the utility.

Section 56A of the **Utilities Act** allows the **Commission** to determine that an industry code applies to a **NERL retailer** if the **Commission** is satisfied on reasonable grounds that it is appropriate for the code to apply to the retailer.

The **Commission** has determined that the Electricity Feed-in Code applies to **NERL retailers** authorised to supply electricity.

The **Utilities Act** provides, in section 75H(1)(a) that a **NERL retailer** commits an offence if the retailer contravenes an industry code that applies to the retailer.

### 1.3 Effect of inconsistency of industry codes

Under section 56(3) of the **Utilities Act**, ‘an industry code has no effect to the extent of any inconsistency with this Act, a related law or a technical code’.

### 1.4 Electricity Feed-in Scheme

A scheme (the **Electricity Feed-in Scheme**) for feed-in from renewable energy generators to the electricity network is established under the *Electricity Feed-in (Renewable Energy Premium) Act 2008* (the **Electricity Feed-in Act**).

The **Electricity Feed-in Act** provides in section 6(2) for a range of actions required of **Electricity distributors**, including connecting a renewable generator to the distributor’s network (the **distributor actions**) and in section 6(3) for actions required of a **NERL retailer** (the **supplier actions**). Section 7 of the **Electricity Feed-in Act** provides that the **distributor actions** are a utility service.

## 2. PURPOSE AND APPLICATION OF THIS CODE

### 2.1 Purpose

The purpose of this Code is to set out practices and standards for the operation of the scheme for feed-in from renewable energy generators to the electricity network established under the **Electricity Feed-in Act**.

### 2.2 Application

This Code applies to:

- (a) **Electricity distributors**
- (b) **NERL retailers.**

### 2.3 Other applicable laws

This Code is in addition to, and does not limit, the rights and obligations of **Electricity distributors** and **NERL retailers** under the **Utilities Act**, the **Electricity Feed-in Act** and any other applicable law.

## 3. DICTIONARY

### 3.1 Dictionary attached

The Dictionary at the end of the Electricity Feed-in Code is part of this Code.

## 4. DISTRIBUTOR OBLIGATIONS

### 4.2 Distributor to alert NERL retailer and Occupier of start dates

The **Electricity distributor** must, as part of its response to an application for **distributor actions**, inform the **NERL retailer** and the **NERL retailer** must inform the **Occupier** of the date from which the 20-year period for the payment of a premium rate as provided for in section 11 of the **Electricity Feed-in Act** commenced.

### 4.3 Dispute resolution—NERL retailer disputes

Disputes between **Electricity distributors** and **NERL retailers** in relation to the **Electricity Feed-in Scheme** will be resolved in accordance with the arrangements set out in the **Network Use of System Agreement** in place between the parties, if any.

If no **Network Use of System Agreement** exists and either party gives the other a notice of dispute under this agreement, the following procedure will apply:

- (a) if the dispute comes within clause 8.2 of the *National Electricity Rules* - the dispute resolution procedure in those rules will apply; or
- (b) if the dispute is over a technical matter or in relation to a matter dealt with under clause 8.11 of the *National Electricity Rules* - the procedure in Schedule 1 (Expert Resolution) of this Code will apply; or
- (c) otherwise - the procedure in Schedule 2 (Mediation) of this Code will apply.

If there is a dispute over whether a matter is a technical matter or not, then the matter will be referred in accordance with the procedure in Schedule 1 for the relevant independent expert to determine whether the matter should be determined in accordance with Schedule 1 (Independent Expert) or Schedule 2 (Mediation).

No party may have recourse to litigation without first having complied with this clause 4.3.

- (f) in the case of email, when the email is capable of being retrieved by the recipient at the address notified by the recipient to the sender

An **Electricity distributor** or **NERL retailer** must comply with Service Standard 2 of the Minimum Service Standards set out in Schedule 1 of the Consumer Protection Code, except to the extent that:

- (1) alternative arrangements or standards have been agreed between the **Electricity distributor** or **NERL retailer** and an **Occupier**; or
- (2) events or conditions outside the control of the **Electricity distributor** or **NERL retailer**, including emergencies declared under the *Emergency Act 2004* (ACT) or any other **Law**, prevent the **Electricity distributor** or **NERL retailer** from complying with the Minimum Service Standards in Schedule 1 of the Consumer Protection Code.

### 11.2 Obligation to pay rebate for non-compliance

- (1) If:
  - (a) an **Electricity distributor** or **NERL retailer** does not comply with its obligations under clause 11.1; and
  - (b) there is a resultant liability to pay a rebate prescribed in Schedule 1 of the Consumer Protection Code to an affected **Occupier**; and
  - (c) the affected **Occupier** has, within three months of the incident of non-compliance by the **Electricity distributor** or **NERL retailer**, applied to the **Electricity distributor** or **NERL retailer** for the rebate,

the **Electricity distributor** or **NERL retailer** must pay the rebate.

- (2) An **Electricity distributor** or **NERL retailer** is not required by clause 11.2(1) to pay more than one rebate to each affected **Premises** per event of non-compliance with the performance standards.

#### Payment of rebates to Customers

- (c) if the **Electricity distributor** or **NERL retailer** is an **Electricity Distributor**, the rebate may be paid by the **Utility** to **Customer's Electricity Supplier**, to be deducted from the amount payable by the **Occupier** under the next **Customer Account** which is due after the rebate becomes payable; or
- (d) if the **Occupier** has discontinued the **Utility Service**, the rebate may be paid directly to the **Occupier** or as otherwise agreed by the **Occupier**.

#### 11.4 Rebates to be paid in addition to damages

If an **Electricity distributor** or **NERL retailer** becomes liable under this Code to pay a rebate to an **Occupier**, that liability is in addition to, and not in substitution for, any claim for damages that the **Occupier** may have against the **Electricity distributor** or **NERL retailer** for breach of the **Customer Contract**, or any right to compensation or damages an **Occupier** may have under **Law**.

#### 11.5 Information to be provided to Occupier

- (1) An **Electricity distributor** or **NERL retailer** must inform an **Occupier** of:
  - (a) the Minimum Service Standards in Schedule 1 of the Consumer Protection Code; and
  - (b) the **Occupier's** entitlement to apply for a rebate if those standards are not met; and
  - (c) the process to be followed by an **Occupier** applying for a rebate.
- (2) An **Electricity distributor** or **NERL retailer** is not required to inform an **Occupier** of the matters in clause 11.5(1) if alternative arrangements or standards have been agreed between the **Electricity distributor** or **NERL retailer** and the **Occupier**.

### 22.2 Provisions to be contained in the negotiated customer contract

A **Negotiated Customer Contract** with a **Small Non-Franchise Customer** must give effect to this Part of the Code.
