

Electricity Feed-in (Renewable Energy Premium) Reporting Determination 2015 (No 1)

Disallowable instrument DI2015–263

made under the

Electricity Feed-in (Renewable Energy Premium) Act 2008, s11B (Electricity distributors to give information to Minister)

1 Name of instrument

This instrument is the *Electricity Feed-in (Renewable Energy Premium) Reporting Determination 2015 (No 1)*.

2 Commencement

This instrument commences on the day after it is notified.

3 Timing of reporting requirement

I determine as follows. The information required in this instrument must be provided by the relevant entity by 30 September every year in relation to the completed financial year immediately preceding the 30 September date (financial year).

4 NERL Retailers reporting requirement

I determine as follows. The information requirements in this section apply to each and every compliant renewable energy generator (generator) with which a NERL Retailer was associated for all or part of the financial year.

- (a) A NERL Retailer must provide the Minister with the information identifying the following for each and every relevant generator:
 - i. payments made during each quarter of the financial year for the total electricity generated
 - ii. applicable premium rate
 - iii. suburb in which the relevant generator is located
 - iv. whether the NERL Retailer was still associated with the relevant generator at the end of the financial year

- (b) A NERL Retailer must provide information to the Minister identifying the amount reimbursed by the electricity distributor to the NERL retailer for payments the NERL Retailer has made to compliant renewable energy generators for electricity generated.

5 Electricity Distributor reporting requirement

I determine as follows. The information requirements in this section apply to each and every compliant renewable energy generator (generator) connected to the electricity distributor's (distributor) network for all or part of the financial year.

- (a) An electricity distributor must provide the Minister with information identifying the following for each and every relevant generator:
 - i. electricity output during each quarter of the financial year
 - ii. applicable premium rate
 - iii. installed capacity at the date of connection
 - iv. suburb in which the relevant generator is located
 - v. whether the relevant generator was still connected to the electricity distributor's network at the end of the previous financial year

- (b) An electricity distributor must provide the Minister with information identifying the total amount it has reimbursed to each NERL retailer during the financial year for the payments made by the NERL retailer to compliant renewable energy generators for electricity generated.

Simon Corbell
Minister for the Environment
