

Plant Diseases (Importation Restriction Area) Declaration 2018 (No 1)

Disallowable instrument DI2018–86

made under the

Plant Diseases Act 2002, s 12 (Declaration of area subject to importation restriction)

1 Name of instrument

This instrument is the *Plant Diseases (Importation Restriction Area) Declaration 2018 (No 1)*.

2 Commencement

This instrument commences on the day after its notification day.

3 Dictionary

In this instrument:

citrus canker carrier means citrus plants (including fruit and leaves) and any of the following material that has come into contact with a citrus plant:

- (a) soil;
- (b) packaging;
- (c) equipment; and
- (d) machinery.

citrus plant means a plant of the *Citrus* species, including the following species and their hybrids:

- (a) *Citrus trifoliata* L. (syn. *Poncirus trifoliata*);
- (b) *Citrus glauca* (Lindley) Burkill (syn. *Eremocitrus glauca*); and
- (c) *Citrus australasica* F. Muell. (syn. *Microcitrus australasica*).

4 Declaration

I declare the Northern Territory to be an area subject to an importation restriction (the ***declared area***). A diagram of the declared area is shown in schedule 1.

5 Disease

This declaration relates to citrus canker caused by the bacterium *Xanthomonas citri* subsp. *citri*.

6 Importation restrictions

The restrictions in schedule 2, column 3, apply to importing into the ACT the material described in column 2 that has, at any time since 1 April 2018 been kept in or travelled through the declared area.

7 When declaration takes effect

This declaration takes effect on the commencement day of this instrument.

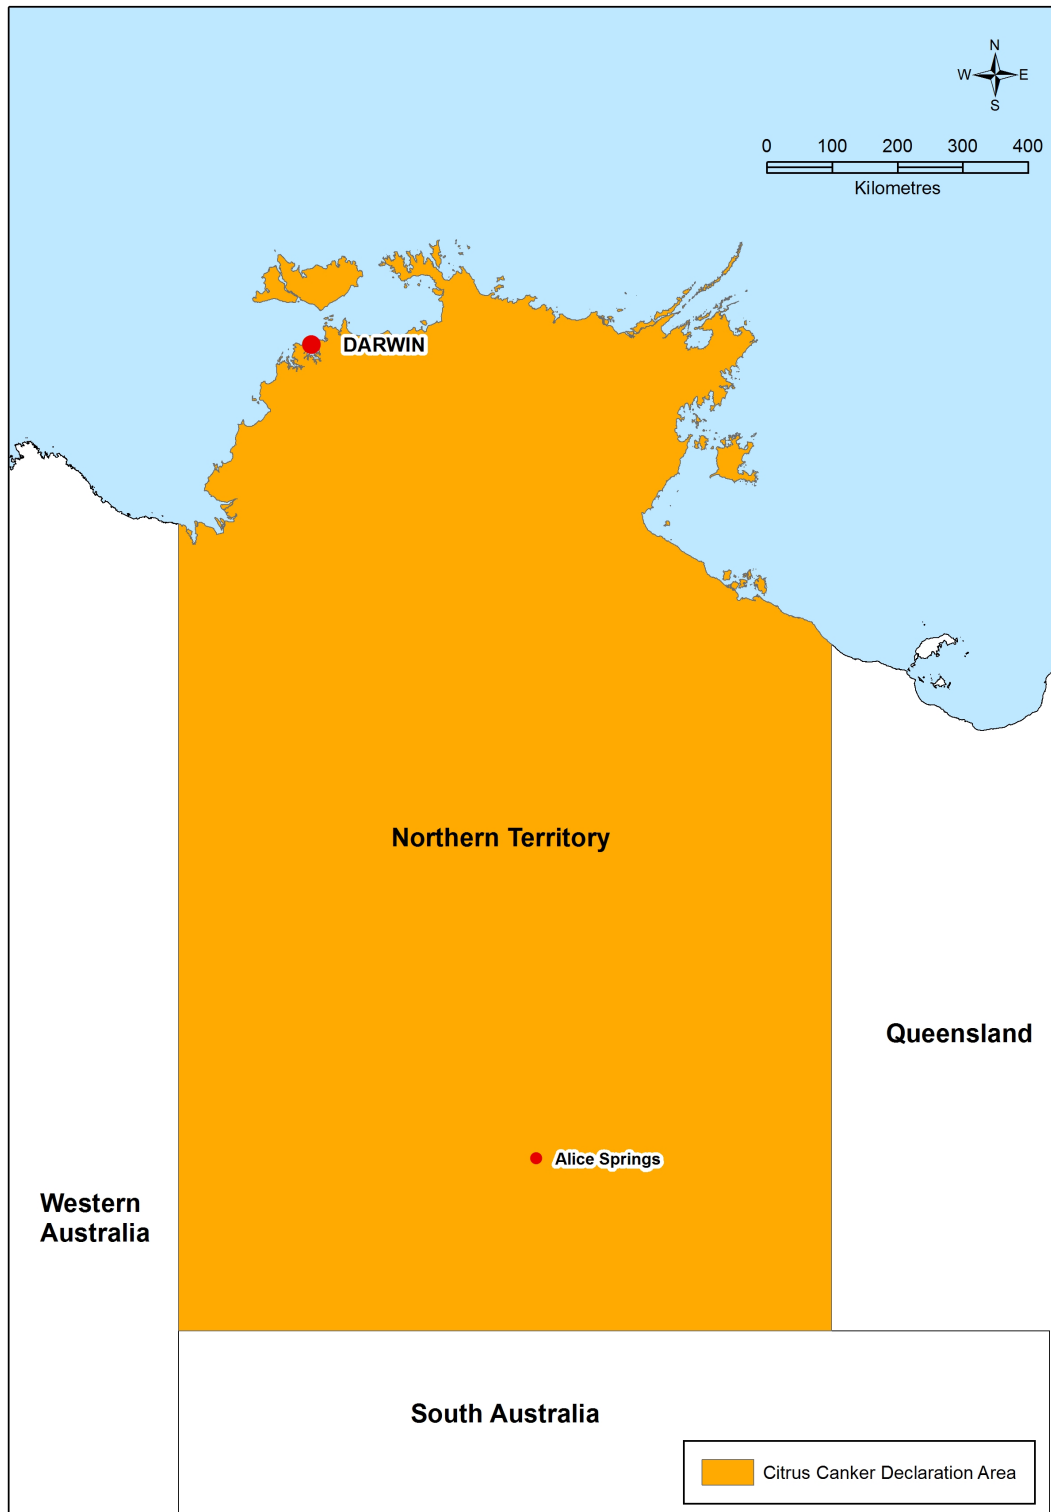

8 Expiry

This instrument expires on 1 May 2021.

Mick Gentleman MLA
Minister for the Environment and Heritage
8 May 2018
