

Australian Capital Territory

Electricity Safety (Fees) Determination 2019

Disallowable instrument DI2019-114

made under the

Electricity Safety Act 1971, s 64 (Determination of fees)

1 Name of instrument

This instrument is the *Electricity Safety (Fees) Determination 2019*.

2 Commencement

This instrument commences on 1 July 2019.

3 Determination of fees

I determine the fee payable for a matter listed in column 2 of the schedule to be the fee listed in the corresponding entry in column 4 of the schedule.

4 Payment of fees

A fee mentioned in the schedule is payable to the Territory by the person requesting the goods or services described in the schedule.

5 Revocation

This instrument revokes the *Electricity Safety (Fees) Determination 2018* (DI2018-161).

Gordon Ramsay MLA
Minister for Building Quality Improvement
23 June 2019

Schedule

(see s 3)

Column 1	Column 2	Column 3	Column 4
Relevant Section for which a fee is payable	Description of Matter for which fee is payable	Fee Payable GST Exempt \$ 2018-19	Fee Payable GST Exempt \$ 2019-20
Section 64	Additions and alterations Only payable in instances when the Building Levy is not payable or the electrical wiring work is not carried out as part of the installation of an energy storage system for which a grant has been given under the ACT Government programme known as the Next Generation Energy Storage Grants programme, including the pilot stage of that programme	<i>28.00 per notice</i>	29.00 per notice
Section 64	Repairs	<i>Nil</i>	Nil
Section 64	Electrical wiring work for a new building or structure of class 1 and/or an associated structure of class 10a Only payable in instances when the Building Levy is not payable or the electrical wiring work is not carried out as part of the installation of an energy storage system for which a grant has been given under the ACT Government programme known as the Next Generation Energy Storage Grants programme, including the pilot stage of that programme	<i>242.00</i> <i>As described in the notes to the schedule</i>	249.00 As described in the notes to the schedule
Section 64	Electrical wiring work to replace, extend or modify the electrical installation relating to consumer mains or sub-mains in an existing building or structure of class 1 and/or an associated structure of class 10a Only payable in instances when the Building Levy is not payable or the electrical wiring work is not carried out as part of the installation of an energy storage system for which a grant has been given under the ACT Government programme known as the	<i>242.00</i> <i>As described in the notes to the schedule</i>	249.00 As described in the notes to the schedule

	Next Generation Energy Storage Grants programme, including the pilot stage of that programme		
Section 64	Electrical wiring work for a new building or structure of class 2 to 10 (where the class 10 is not associated with a building or structure of class 1) Only payable in instances when the Building Levy is not payable or the electrical wiring work is not carried out as part of the installation of an energy storage system for which a grant has been given under the ACT Government programme known as the Next Generation Energy Storage Grants programme, including the pilot stage of that programme	242.00 <i>Per switchboard, distribution board, floor level or unit as described in the notes to the schedule.</i>	249.00 Per switchboard, distribution board, floor level or unit as described in the notes to the schedule.
Section 64	Electrical wiring work to replace, extend or modify the electrical installation in an existing class 2 to 10 (where the class 10 is not associated with a building or structure of class 1) Only payable in instances when the Building Levy is not payable or the electrical wiring work is not carried out as part of the installation of an energy storage system for which a grant has been given under the ACT Government programme known as the Next Generation Energy Storage Grants programme, including the pilot stage of that programme	242.00 <i>As described in the notes to the schedule</i>	249.00 As described in the notes to the schedule
Section 64	Electrical Installation First Re-inspection	242.00	249.00
	Second Re-inspection	484.00	496.00
	Third Re-inspection	968.00	992.00
	All subsequent re-inspections	1,935.00	1,984.00

Note: The amount in column 3 is for comparison purposes only.

Notes to the schedule

For building of Class 1 and 10 when 10 is associated with class 1

Class	Item	Fee Multiplier
New Work		
Main Switch Board		
	Main Switchboard	1
	POS Incorporated in MSB	0
	POS Separate from MSB	0
	Meter Cubicle / Box	0
Distribution Boards		
	1st DB	0
	> 1 DB	0
Temporary Supply		
	At MSB	0
	Pole mount or separate from MSB	0
Co-Generation (For systems under 30KW the max fee multiplier is 1)		
	Control DB (where separate from MSB)	1
	Per Type Per Location	1
	Per Inverter > 1	1

Additions & Alterations

The Fee Multiplier as per New Work applies to work that is required to be inspected. Additions and Alterations work is on an algorithm that typically calls up 1 in 10 Certificates of Electrical Safety (CES) to be inspected, unless defect notice issued then a higher rate of inspection applies. A fee will apply for all CES forms that require an inspection.

For building of Class 2 to 10 (when 10 is not associated with class 1)

Class	Item	Fee Multiplier
New Work		
Main Switch Board		
	1st Main Switchboard	2
	> 3m: per 3 Metres	1
	> than 1 supply: per Supply	1
	With Safety Services	1
	POS Incorporated in MSB	0
	POS Separate from MSB	1
	Power Factor Correction	0
	Meter Cubicle / Box	1

Distribution Boards

1st DB	1
With Safety Services	1
Split Services: Per Service (Example: Tenant + House)	1
Rising Main T-off Box	0

Mechanical Boards

1st Mechanical Board	2
> 3m: per 3 Metres	1
With Safety Services	1
> than 1 supply: Points per Supply	1
Addition DB & Sub Boards: Per DB (Example: Hydraulic services, Control Panels)	1

Co-Generation

Control DB	1
Per Type Per Location	1
Per Inverter > 1	1

**Additions &
Alterations**

The Fee Multiplier as per New Work applies to work that is required to be inspected. Additions and Alterations work is on an algorithm that typically calls up 1 in 10 Certificates of Electrical Safety to be inspected, unless defect notice issued then a higher rate of inspection applies. A fee will apply for all CES forms that require an inspection.
