

# Construction Occupations (Licensing) (Qualifications) Declaration 2024 (No 3)

## Disallowable instrument DI2024-276

made under the

**Construction Occupations (Licensing) Regulation 2004, s 13 (Eligibility for licence—suitability and financial requirements—Act, s 18 and s 24A)**

---

### 1 Name of instrument

This instrument is the *Construction Occupations (Licensing) (Qualifications) Declaration 2024 (No 3)*.

### 2 Commencement

(1) This instrument (other than the provisions mentioned in subsection (2)) commences on the day after its notification day.

*Note* The naming and commencement provisions automatically commence on the notification day (see Legislation Act, s 75 (1)).

(2) The following provisions commence on the commencement of the *Construction Occupations (Licensing) Amendment Regulation 2024 (No 1)*, section 4:

- a. Schedule 1, dictionary, definitions of *competent person (medical gasfitter or medical gas technician)*, *letter of need (medical gas permit)* and *medical gas permit*
- b. Schedule 1, part 4, items dealing with the medical gasfitter; medical gasfitter permit, medical gas technician and medical gas technician permit classes of the construction occupation of gasfitter.

### 3 Declaration

I declare that for an individual to be eligible for a licence or endorsement specified in schedule 1, it is necessary that the individual meets the qualification requirements in column 3 of the relevant part of schedule 1 for the construction occupation or construction occupation class or endorsement.

### 4 Eligibility where more than one method is prescribed

Where more than one method is prescribed for a particular occupation class or endorsement, an applicant need only demonstrate eligibility in accordance with one of the methods.

## **5 Disapplication of Legislation Act**

The *Legislation Act 2001*, section 47 (5) does not apply to AS2896:2021 as in force on the day this instrument commences and applied by this instrument.

*Note* The documents applied by this instrument do not need to be notified under the Legislation Act because s 47 (5) does not apply (see Legislation Act, s 47 (7)).

Australia Standards are available for purchase at [www.standards.org.au](http://www.standards.org.au).

## **6 Revocation**

This instrument revokes the *Construction Occupations (Licensing) (Qualifications) Declaration 2024 (No 2)* (DI2024-41).

Rebecca Vassarotti MLA  
Minister for Sustainable Building and Construction  
2 September 2024

Schedule 1  
(See section 3)

**Construction Occupations (Licensing)  
Regulation 2004  
Qualifications  
Schedule**

## Contents

Notes .....	4
Dictionary .....	4
Part 1 – Building Assessor .....	7
Part 2 – Drainer .....	10
Part 3 – Electrician .....	12
Part 4 – Gasfitter and Gas Appliance Worker .....	28
Part 5 – Plumber and Plumbing Plan Certifier .....	43
Part 6 – Works Assessor .....	49
Part 7 – Builder.....	51
Section 1 – Qualification requirements.....	51
Section 2 – Mandatory building work experience requirements .....	70
Section 3 – Building technology .....	72
Part 8 –Building Surveyor.....	74

## Notes

1. An applicant is only required to meet one of the methods listed for a particular occupation class.
2. Terms in italics, for example *registered training organisation*, are defined in the dictionary at the beginning of this schedule.
3. A qualification is not limited to a formal academic qualification and may include a stated period or type of experience, a method of qualifying, or that the applicant has not been refused a licence under the Act within a stated period. An applicant must meet all qualification requirements in a method.

## Dictionary

TERM	MEANING
<b><i>1 year full time</i></b>	means 1,825 hours undertaken over a period of not less than one year.
<b><i>2 years full time</i></b>	means 3,650 hours undertaken over a period of not less than two years.
<b><i>3 years full time</i></b>	means 5,472 hours undertaken over a period of not less than three years.
<b><i>Assessment</i></b>	means an assessment of obligations, practices, capabilities and knowledge relevant to the occupation and class of licence being applied for and may include an examination which may have practical, written and oral aspects or the undertaking of a test, or series of tests approved by the construction occupations registrar
<b><i>Basic building work</i></b>	as defined under section 10 of the <i>Building Act 2004</i> .
<b><i>Building technology</i></b>	means undertaking or supervising manual building work of the type identified in Part 7, section 3 of this Schedule

TERM	MEANING
<b>Building work experience</b>	<p>means:</p> <ul style="list-style-type: none"> <li>i. the mandatory building work experience requirements identified in schedule 2 for the relevant class of licence applied for; and</li> <li>ii. <b>Building technology</b> that equates to not less than 1,825 hours of the <b>2 years full time</b> or 2,736 hours of the <b>3 years full time</b> and that is in relation to building projects that are relevant to the class of licence applied for as identified in column 1 of section 2 of Part 7 of this Schedule.</li> </ul> <p>It does not include:</p> <ul style="list-style-type: none"> <li>i. Experience obtained while performing unlawful work, including, but not limited to, work without a building approval, when a building approval is required;</li> <li>ii. Experience that has not been <b>independently verified</b>.</li> <li>iii. Quantity surveying, designing, drafting or off-site fabrication.</li> <li>iv. Experience obtained more than five years previous to the date of licence application</li> </ul>
<b>COLR</b>	<i>Construction Occupations (Licensing) Regulation 2004</i>
<b>Commencement notice</b>	as described under section 37 of the <i>Building Act 2004</i> or the interstate equivalent.
<b>Competent person (builder licence)</b>	means the licensed builder that was appointed as the builder and nominee on the <b>commencement notice</b> and was responsible for supervising the building work relevant to the applicant's experience. A <b>competent person</b> does not include the building surveyor, architect, or engineer for the project where the building work has been undertaken.
<b>Competent person (medical gasfitter or medical gas technician)</b>	means an individual licensed in the ACT or interstate in the scope of work being verified; or the medical gas supplier/installer or responsible party for the medical gas system referred to in the referee statement form and/or experience statement.
<b>Course</b>	includes a certificate, diploma, unit of competency and training course.
<b>Course code</b>	means the code specified in the schedule for a specific certificate, diploma, unit of competency or training course and includes course codes not specified but that are applied to versions that have different course codes but are identical in content or an equivalent competency. Where the schedule requires the course to have been completed no longer than five years prior to the date of application this definition does not provide for recognition of course codes that apply to those courses.
<b>Endorsed Software</b>	means software endorsed under section 31A of the <i>Construction Occupations (Licensing) Regulation 2004</i> for the purposes of providing builder assessor services.
<b>Independently verified</b>	means verification by a <b>competent person</b> who was responsible for the supervision of the <b>building work experience</b> being undertaken by the applicant. The verification must attest to the extent, quality, relevance and recency of the building work undertaken. The verification must detail the experience including confirming the number of hours and the <b>building work experience</b> undertaken by the applicant.
<b>Letter of need (electrical permit)</b>	means a statement from the applicant's employer, or from the applicant if self-employed, stating the principal trade to which the incidental electrical work the applicant wishes to be licensed to undertake, the need for the restricted electrical permit or licence in that trade,

TERM	MEANING
	and, for permits, include the name and licence number of the person who will be supervising their work.
<b>Letter of need (medical gas permit)</b>	means a statement from the applicant's employer stating the need for the permit, including the name and licence number of the person who will be supervising their work who is a licensed gasfitter in the occupation class of medical gasfitter or medical gas technician.
<b>Medical Gas Permit</b>	means the category of permit used for individuals to undertake supervised work and/or training at a registered training organisation (RTO) to gain the qualifications required for a medical gasfitter or medical gas technician licence.
<b>Registered training organisation</b>	means a training provider registered by ASQA or a state regulator, to deliver vocational education and training services within the scope of registration required for the relevant competency, course or qualification.
<b>Relevant practical drainage experience</b>	means drainage work, as defined under the <i>Water and Sewerage Act 2000</i> , in the scope of work relevant to the class of licence being applied for.
<b>Relevant practical gasfitting experience</b>	means gasfitting work, as defined under the <i>Gas Safety Act 2000</i> , in the scope of work relevant to the class of licence being applied for.
<b>Relevant practical plumbing work experience</b>	means plumbing work, as defined under the <i>Water and Sewerage Act 2000</i> , in the scope of work relevant to the class of licence being applied for.
<b>Sanitary plumbing work</b>	as defined under the <i>Water and Sewerage Act 2000</i> .
<b>Specialist building work</b>	as defined under section 9 of the <i>Building Act 2004</i> .
<b>Tertiary qualification in building</b>	is a qualification primarily related to the undertaking, management and supervision of building work of the type regulated under the ACT <i>Building Act 2004</i> , and does not include qualifications primarily related to other building industry matters such as planning and development, economics, industrial relations, construction law, regulatory theory and the like.
<b>Unconditional</b>	means not subject to a condition specific to the licensee and imposed by the construction occupations registrar or a relevant tribunal or court of competent jurisdiction.
<b>Water supply plumbing work</b>	as defined under the <i>Water and Sewerage Act 2000</i> .

## Part 1 – Building Assessor

Column 1 - Occupation	Column 2 - Class or Endorsement	Column 3 - Qualification Requirements
<b>Building Assessor</b>	Class A – Energy Efficiency	<p><b>Method 1 - Educational qualification</b></p> <p>The applicant has completed:</p> <p style="margin-left: 40px;">a) a Certificate IV in <i>Home Energy Efficiency and Sustainability (Home Sustainability Assessment and Thermal Performance Assessment) (CPP41119)</i> as assessed by a registered training organisation;</p> <p style="margin-left: 40px;">Or</p> <p style="margin-left: 40px;">b) at least the following units of competency from the Certificate IV in NatHERS Assessment (CPP41212) as assessed by a registered training organisation:</p> <ul style="list-style-type: none"> <li>i. BSBRSK401A Identify risk and apply risk management processes</li> <li>ii. CPPACC4015A Follow site occupational health and safety requirements</li> <li>iii. CPPCMN4008A Read and extract information from plans, drawings and specifications for residential buildings</li> <li>iv. CPPHSA4012A Conduct NatHERS assessment of planned residential buildings</li> <li>v. CPPHSA4015A Assess impact of building elements on thermal performance of residential buildings</li> <li>vi. CPPHSA4018A Manage own work, professional development and ethical behaviour</li> <li>vii. CCCCBC4014A Prepare simple building sketches and drawings</li> <li>viii. CPPHSA4020A Operate computer systems to support NatHERS assessment</li> <li>ix. CPPCMN3004 Respond to enquiries and complaints</li> <li>x. CPPHSA5001A Assess thermal performance of complex residential buildings (or an equivalent unit that supersedes this unit).</li> </ul> <p><b>Method 2 - Formerly held licence</b></p> <p>The applicant held a Building Assessor Class A – energy efficiency licence in the ACT within one (1) year from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>
	Class A –Software Endorsement under section 31A of the COLR	The applicant satisfies the construction occupations registrar that the applicant has the relevant training and competency to operate the endorsed software for the purposes of providing a building assessment service

	<p>Class B – energy efficiency</p>	<p><b>Method 1 -Educational Qualification</b></p> <p>The applicant has completed:</p> <ul style="list-style-type: none"> <li>a) a Certificate IV in <i>Home Energy Efficiency and Sustainability (Home Sustainability Assessment and Thermal Performance Assessment) (CPP41119)</i> as assessed by a registered training organisation;</li> </ul> <p>Or</p> <ul style="list-style-type: none"> <li>b) a Certificate IV in <i>Home Energy Efficiency and Sustainability (Thermal Performance Assessment) (CPP41119)</i> as assessed by a registered training organisation;</li> </ul> <p>Or</p> <ul style="list-style-type: none"> <li>c) the following units of competency from Certificate IV in NatHERS Assessment (CPP41212) as assessed by a registered training organisation: <ul style="list-style-type: none"> <li>i. BSBRK401 Identify risk and apply risk management processes</li> <li>ii. CPPACC4015A Follow site occupational health and safety requirements</li> <li>iii. CPPCMN4008A Read and extract information from plans, drawings and specifications for residential buildings</li> <li>iv. CPPHSA4012A Conduct NatHERS assessment of planned residential buildings</li> <li>v. CPPHSA4015A Assess impact of building elements on thermal performance of residential buildings</li> <li>vi. CPPHSA4018A Manage own work, professional development and ethical behaviour</li> <li>vii. CPPHSA4020A Operate computer systems to support NatHERS assessment</li> <li>viii. CPPCMN3004 Respond to enquiries and complaints</li> <li>ix. CPPHSA5001A Assess thermal performance of complex residential buildings (or an equivalent unit that supersedes this unit).</li> </ul> </li> </ul> <p><b>Method 2 - Formerly held licence</b></p> <p>The applicant held a Building Assessor Class B or Class A – energy efficiency in the ACT within one (1) year from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>
--	------------------------------------	---

<b>Column 1 - Occupation</b>	<b>Column 2 - Class or Endorsement</b>	<b>Column 3 - Qualification Requirements</b>
	Class B –Software Endorsement under section 31A of the COLR	The applicant satisfies the construction occupations registrar that the applicant has the relevant training and competency to operate the endorsed software for the purposes of providing a building assessment service

## Part 2 – Drainer

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
Drainer	Advanced Sanitary Drainer	<p><b>Method 1 - Existing licence, educational qualification and drainage work experience</b></p> <p>The applicant—</p> <p>a) holds, or has previously held within 12 months prior to application, a Journeyperson Drainer licence, or an interstate equivalent if that licence was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described); and</p> <p>b) obtained the following Certificate IV level competencies no greater than five years prior to making the application—</p> <ul style="list-style-type: none"> <li>i. BSBESB402 Establish legal and risk management requirements of new business ventures.</li> <li>ii. CPCBC4012B, CPCCB4012 Read and interpret plans and specifications.</li> <li>iii. CPCPCM4011 Carry out work-based risk control processes.</li> <li>iv. CPCPCM4012A, CPCPCM4012 Estimate and cost work.</li> <li>v. CPCPDR4011B, CPCPDR4011 Design and size sanitary drainage systems.</li> <li>vi. CPCPDR4012B, CPCPDR4012 Design and size stormwater drainage systems.</li> <li>vii. CPCPDR4013B, CPCPDR4013 Design and size domestic treatment plant disposal systems; and</li> </ul> <p>c) has undertaken and documented not less than <i>1 year full time relevant practical drainage work experience</i> carried out by the applicant while licensed as a journeyperson drainer under the direct supervision of a licensed Advanced Sanitary Drainer or interstate equivalent.</p> <p><b>Method 2 - Formerly held licence</b></p> <p>The applicant held an Advanced Sanitary Drainer Licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
	Journeyman Drainer	<p><b>Method 1 - Educational Qualification</b></p> <p>a) The applicant obtained a Certificate III in Plumbing (CPC32413) and the certificate was obtained:</p> <ul style="list-style-type: none"> <li>i. no greater than five (5) years prior to making the application; and</li> <li>ii. through a nationally recognised contract of training as a plumbing apprentice; and</li> <li>iii. through completion of the Drainage stream to attain the certificate.</li> </ul> <p>Or</p> <p>b) The applicant obtained a Certificate III in Plumbing (CPC32420) and the certificate was obtained:</p> <ul style="list-style-type: none"> <li>i. no greater than five (5) years prior to making the application; and</li> <li>ii. through a nationally recognised contract of training as a plumbing apprentice.</li> </ul> <p><b>Method 2 - Formerly held licence</b></p> <p>The applicant held a Journeyman Drainer Licence or Advanced Sanitary Drainer within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>
	Operative Drainer	<p><b>Method 1 - Educational Qualification</b></p> <p>The applicant obtained a Certificate II in Draining with one of the following course numbers issued within five years prior to making the application:</p> <ul style="list-style-type: none"> <li>i. CPC20712</li> <li>ii. CPC20720</li> </ul> <p><b>Method 2 - Formerly held licence</b></p> <p>The applicant held an Operative Drainer Licence or an Advanced Sanitary Drainer licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>

## Part 3 – Electrician

### NOTES

<p><b>Restricted Permit</b></p>	<p>The category Restricted Permit Electrotechnology Systems may be used for individuals to undertake supervised work and training at a registered training organisation (RTO) to gain the qualifications required for a Restricted Licence in the class of licence relevant to their trade background. Not all trades qualify for a Restricted Permit Electrotechnology Systems or Restricted Licence Electrotechnology System.</p>
<p><b>Gap Training &amp; Unrestricted Permit Electrotechnology Systems Permit</b></p>	<ul style="list-style-type: none"> <li>• The Unrestricted Permit Electrotechnology Systems Permit may be used for individuals to undertake supervised work and training at a registered training organisation (RTO) to gain the qualification acceptable for obtaining an Unrestricted Licence. This training fills the gap between their initial qualification and the current Certificate III in Electrotechnology Electrician and is referred to as '<b>gap training</b>'.</li> <li>• The gap training may take the form of a training package delivered by the RTO, or individual units of competency required by the RTO, so the applicant can gain the Certificate III in <i>Electrotechnology Electrician</i>. It is expected that gap training should not exceed 18 months of part time study.</li> <li>• If an applicant requires more than 18 months part time study to gain the required qualification, the Registrar may require the applicant undertake a nationally recognised contract of training as an electrical apprentice to gain the required qualification to be licenced as an unrestricted electrician.</li> </ul>
<p><b>Letter of need (electrical permit) (NB: see dictionary)</b></p>	<p>All applicants for unrestricted permits, restricted permits, and restricted licences in the occupation of electrician must provide a statement from their employer, or from the applicant if self-employed, stating the principal trade to which the incidental electrical work applies, and the need for the restricted electrical permit or licence in that trade. For permits, the letters must include the name and licence number of the person who will be supervising their work</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
Electrician	Unrestricted Licence	<p><b>Method 1 - Educational Qualification(s)</b></p> <p>The applicant holds—</p> <ul style="list-style-type: none"> <li>a) one of the following <i>Certificate III in Electrotechnology Electrician</i> qualifications as described on the national training register, obtained through a nationally recognised contract of training as an electrical apprentice, and issued within five (5) years prior to making the application: <ul style="list-style-type: none"> <li>i. UEE30811; or</li> <li>ii. UEE30820</li> </ul> </li> </ul> <p>And</p> <ul style="list-style-type: none"> <li>b) one of the following units of competency not obtained through recognition of prior learning (RPL): <ul style="list-style-type: none"> <li>i. UEENEEG105A Verify compliance and functionality of low voltage general electrical installations.</li> <li>ii. UEEEL0039 Design, Install and Verify compliance and functionality of general electrical installations.</li> </ul> </li> </ul> <p><b>Method 2 - Formerly held licence</b></p> <p>The applicant held an Unrestricted Licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described)</p>
	<p>Section 31D, COLR – endorsement for work on distributed energy resources declared under the <i>Construction Occupations (Licensing) Energy Resource) Declaration</i> as amended from time to time.</p> <p>Scope of work</p>	<p><i>Note: only holders of an unrestricted electrician or an electrical contractor licence are eligible for an endorsement for work on distributed energy resources. Individuals can demonstrate eligibility against multiple points under Method 1.</i></p> <p><b>Method 1 - Educational qualification</b></p> <ul style="list-style-type: none"> <li>a) The applicant has completed the following units of competency, or equivalent, as described on the national training register and provided by a registered training organisation: <ul style="list-style-type: none"> <li>i. UEERE0054 Conduct site survey for grid-connected photovoltaic and battery storage systems; and</li> <li>ii. UEERE0081 Install photovoltaic systems to power conversion equipment; and</li> </ul> </li> </ul>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
	<p>The doing or supervision of work on the following distributed energy resources:</p> <ul style="list-style-type: none"> <li>• Solar photovoltaic panels which are subject to AS/NZS5033;</li> <li>• Grid-connected inverters, as part of a solar photovoltaic system, which are subject to AS/NZS4777; or</li> <li>• Grid connected battery energy storage systems which are subject to AS/NZS5139.</li> </ul>	<ul style="list-style-type: none"> <li>iii. UEERE0080 Install photovoltaic power conversion equipment to grid; and</li> <li>iv. UEERE0061 Design grid-connected photovoltaic power supply systems.</li> </ul> <p>Or</p> <ul style="list-style-type: none"> <li>b) The applicant has completed the following units of competency, or equivalent, as described on the national training register and provided by a registered training organisation within five years prior to application: <ul style="list-style-type: none"> <li>i. UEENEEK125A Solve basic problems in photovoltaic energy apparatus and systems; and</li> <li>ii. UEENEEK148A Install, configure and commission LV grid connected photovoltaic power systems; and</li> <li>iii. UEENEEK135A Design grid connected photovoltaic power supply systems.</li> </ul> </li> </ul> <p>Or</p> <ul style="list-style-type: none"> <li>c) The applicant has completed the following units of competency, or equivalent, as described on the national training register and provided by a registered training organisation within five years prior to application: <ul style="list-style-type: none"> <li>i. UEERE0022 - Solve basic problems in photovoltaic energy apparatus and systems; and</li> <li>ii. UEERE0016 - Install, configure and commission LV grid-connected photovoltaic power system; and</li> <li>iii. UEERE0011 - Design grid-connected photovoltaic power supply systems.</li> </ul> </li> </ul> <p>And/Or</p> <ul style="list-style-type: none"> <li>d) The applicant has completed the following units of competency, or equivalent, as described on the national training register and provided by a registered training organisation: <ul style="list-style-type: none"> <li>i. UEERE0054 - Conduct site survey for grid-connected photovoltaic and battery storage systems; and</li> <li>ii. UEERE0078 - Install battery storage to power conversion equipment; and</li> <li>iii. UEERE0077 - Install battery storage equipment power conversion equipment to grid; and</li> <li>iv. UEERE0060 - Design grid-connected battery storage systems.</li> </ul> </li> </ul>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
		<p>Or</p> <p>e) The applicant has completed the following units of competency, or equivalent, as described on the national training register and provided by a registered training organisation within five years prior to application:</p> <ul style="list-style-type: none"> <li>i. UEERE4001 - Install, maintain and fault find battery storage systems for grid-connected photovoltaic systems; and</li> <li>ii. UEERE5001 - Design battery storage systems for grid-connected photovoltaic systems.</li> </ul> <p><b>Method 2 – Existing accreditation</b></p> <p>The applicant holds a current accreditation with the accreditation scheme operator for the Small-scale Renewable Energy Scheme.</p> <p><b>Method 3 - Formerly held endorsement</b></p> <p>The applicant held an endorsement for work on declared distributed energy resources in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>
	Section 31C, COLR – endorsement for interval metering work	<p><i>Note: only holders of an unrestricted electrician or an electrical contractor licence are eligible for an interval metering work endorsement.</i></p> <p><b>Method 1 - Educational qualification</b></p> <p>The applicant has completed—</p> <p>a) one of the following units of competency as described on the national training register and provided by a <i>registered training organisation</i>:</p> <ul style="list-style-type: none"> <li>i. UEEL0013 Install set up and commission interval metering or UEEL0078 Install and commission whole current electricity meters (release 1)</li> <li>ii. UEENEEG171A Install, set up and commission interval metering</li> </ul> <p>Or</p> <p>b) a unit of competency that is recognised on the national training register as a unit that supersedes and is equivalent to UEEL0078 (release 1).</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
		<p><b>Method 2 - NSW Accredited Service Provider – interval metering</b></p> <p>The applicant, no more than three years prior to the date of application—</p> <ul style="list-style-type: none"> <li>a) held an accreditation as an accredited service provider under the <i>NSW Electricity Supply (Safety and Network Management) Regulation 2014</i>, where the accreditation included the provision of interval metering work (however described); or</li> <li>b) was registered under the accreditation of an accredited service provider under the <i>NSW Electricity Supply (Safety and Network Management) Regulation 2014</i>, and the registration included the provision of interval metering work (however described).</li> </ul> <p><b>Method 3 - Formerly held endorsement</b></p> <p>The applicant held an interval metering work endorsement in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described).</p>
	Unrestricted Permit Electrotechnology Systems	<p><b>Method 1 - Educational qualification, enrolment, and letter of need</b></p> <p>The applicant—</p> <ul style="list-style-type: none"> <li>a) holds a qualification in either, a Trade Certificate for Electrical Mechanic/Fitter (or equivalent), or a Certificate III in Electrotechnology Electrician, issued more than five (5) years prior to application, or</li> <li>b) holds a Certificate III in Electrotechnology Electrician issued by a trade recognition body (or RTO) that requires “gap training” by a Registered Training Organisation, or</li> <li>c) holds a qualification in an electrical or related field that does not meet the requirements to obtain an Unrestricted Electrical Licence, that requires “gap training”</li> </ul> <p>Note: The Registrar may refer the applicant for a skills assessment at an ACT RTO for evidence to meet this requirement.</p> <p>Note: An email or letter from an ACT RTO will suffice as evidence to meet the time requirement of gap training.</p> <p>And</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
		<p>d) the applicant is enrolled at a <i>registered training organisation</i> (RTO) to obtain a Certificate III in <i>Electrotechnology Electrician</i> acceptable for obtaining an Unrestricted Electrician’s Licence.</p> <p>Note: An email or letter from an ACT RTO will suffice as evidence to meet this requirement</p> <p>And</p> <p>e) has a <i>letter of need (electrical permit)</i>.</p> <p><b>Method 2 -Formerly held licence</b></p> <p>The applicant—</p> <p>a) held an Unrestricted Permit Electrotechnology Systems or an Unrestricted Electrical Licence in the ACT within five (5) years from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described);</p> <p>And</p> <p>b) has a <i>letter of need (electrical permit)</i>.</p>
	<p>Restricted Licence Electrotechnology Assembly and Servicing Electrical Fitting</p>	<p><b>Method 1 - Educational Qualification</b></p> <p>The applicant holds a Certificate III in Electrical Fitting (UEE33011 or UEE33020) issued within five years prior to the date the application is made.</p> <p><b>Method 2 - Educational Qualification</b></p> <p>The applicant—</p> <p>a) holds one of the following qualifications:</p> <ol style="list-style-type: none"> <li>i. a Certificate III in Electrical Fitting (UEE33011 or UEE33020) issued more than five (5) years prior to the date the application is made.</li> <li>ii. a Certificate III in Electrical Fitting from a superseded qualification.</li> <li>iii. an equivalent trade certificate in electrical fitting.</li> </ol> <p>And</p>

Column 1 – Occupation	Column 2 – Class or Endorsement	Column 3 – Qualification Requirements
		<p>b) has completed the following units of competency or an equivalent competency within five years prior to the date the application is made:</p> <ul style="list-style-type: none"> <li>i. UEERL0004 <i>Disconnect - reconnect electrical equipment connected to low voltage (LV) installation wiring.</i></li> <li>ii. Identify and produce estimated costs for building and construction projects</li> <li>b. Produce labour and material schedules for ordering</li> <li>c. Plan building or construction work</li> <li>d. Select and manage building and construction contractors</li> <li>e. Establish, maintain and review contract administration procedures and frameworks</li> <li>f. Manage the procurement and acquisition of resources for building or construction projects</li> </ol> </li> <li>3. Structural principles</li> <li>4. <i>Building technology</i></li> <li>5. Read and interpret plans and specifications</li> <li>6. Develop, plan and implement an appropriate building or construction planning process</li> <li>7. Quality assurance processes and verification of building or construction work</li> </ol>
<p><b>Class C Builder</b></p> <p>Standards of Competency to be demonstrated in relation to building projects that are 2 storeys or lower and are class 1, 2, 10 under the Building Code of Australia.</p> <p>Excluding <b>basic building work</b>; and <b>specialist building work</b>.</p>	<ol style="list-style-type: none"> <li>1. Apply legal requirements in building laws, building codes and related standards to the construction process</li> <li>2. Construction management including: <ol style="list-style-type: none"> <li>a. Identify and produce estimated costs for building and construction projects</li> <li>b. Produce labour and material schedules for ordering</li> <li>c. Plan building or construction work</li> <li>d. Select and manage building and construction contractors</li> <li>e. Establish, maintain and review contract administration procedures and frameworks</li> <li>f. Manage the procurement and acquisition of resources for building or construction projects</li> </ol> </li> <li>3. Structural principles</li> <li>4. <i>Building technology</i></li> <li>5. Read and interpret plans and specifications</li> <li>6. Develop, plan and implement an appropriate building or construction planning process</li> <li>7. Quality assurance processes and verification of building or construction work</li> </ol>
<p><b>Class D Builder</b></p> <p>Standards of Competency to be demonstrated in relation to <b>basic building work</b>.</p> <p>Excluding <b>specialist building work</b>.</p>	<ol style="list-style-type: none"> <li>1. Apply legal requirements in building laws, building codes and related standards to the construction process</li> <li>2. Construction management including: <ol style="list-style-type: none"> <li>a. Identify and produce estimated costs for building and construction projects</li> <li>b. Produce labour and material schedules for ordering</li> </ol> </li> </ol>

Column 1 – Class of licence	Column 2 Standards of competency
	<ul style="list-style-type: none"> <li>c. Plan building or construction work</li> <li>d. Select and manage building and construction contractors</li> <li>e. Establish, maintain and review contract administration procedures and frameworks</li> <li>f. Manage the procurement and acquisition of resources for building or construction projects</li> <li>3. Structural principles</li> <li>4. <i>Building technology</i></li> <li>5. Read and interpret plans and specifications</li> <li>6. Develop, plan and implement an appropriate building or construction planning process</li> <li>7. Quality assurance processes and verification of building or construction work</li> </ul>

### Section 3 – Building technology

This list is not exhaustive and is provided in order to advise applicants of the type of **building technology** an applicant must demonstrate. For a class A, class B or class C builder licence the applicant must demonstrate experience in more than 20 of the areas listed in column 2. For a class D builder licence the applicant must demonstrate experience in more than 8 of the areas listed in column 2.

Column 1	Column 2
<p><b>Class A, B &amp; C Builder</b></p>	<ul style="list-style-type: none"> <li>• Measure and calculate</li> <li>• Establish and implement site set-out</li> <li>• Excavate land</li> <li>• Levelling operations</li> <li>• Concreting works</li> <li>• Place and fix reinforcement materials</li> <li>• Erect and dismantle formwork for footings and slabs</li> <li>• Erect and dismantle formwork/false work for stairs, ramps, suspended slabs, columns, beams and walls</li> <li>• Construct bulkheads</li> <li>• Install timber/concrete stumps</li> <li>• Construct sub-floor and second floor framing</li> <li>• Install timber/manufactured flooring such as tongue and groove, sheet and parquetry</li> <li>• Construct wall and ceiling frames including pre-fabricated systems</li> <li>• Construct/install pitched, flat, cathedral style timber roofs</li> <li>• Erect roof trusses and roof battens</li> <li>• Construct eaves, fascias and barges</li> <li>• Construct and install timer external and internal stairs, steps, landings, handrails and balustrades</li> <li>• Install exterior claddings such as weatherboards, manufactured boards, sheeting and eaves lining</li> </ul>

Column 1	Column 2
	<ul style="list-style-type: none"> <li>• Install interior claddings/linings such as timber, plywood, manufactured sheets</li> <li>• Assemble partitions</li> <li>• Install underlay sheeting for tiles</li> <li>• Install architraves, skirting boards, moulding, trims and the like</li> <li>• Set out and install/replace/assemble windows and doors</li> <li>• Install reflective foil to walls and roofs/vapour barriers under slab membranes</li> <li>• Install flooring systems</li> <li>• Frame and fit wet area fixtures</li> <li>• Install trench support</li> <li>• Mix, test, place, finish and cure concrete</li> <li>• Repair, rectify and resurface concrete</li> <li>• Construct tilt panels</li> <li>• Place and fix reinforcement materials and apply reinforcements schedule</li> <li>• Establish datum for levelling</li> <li>• Prepare masonry walls for damp proof course</li> <li>• Install damp proof courses</li> <li>• Lay all types of brickwork including cutting, pointing and tuck pointing</li> <li>• Carry out masonry veneer and cavity brick construction</li> <li>• Construct masonry stairs, steps and arches</li> <li>• Lay masonry walls and corners</li> <li>• Lay multi-thickness walls and piers</li> <li>• Install flashing and damp proof courses</li> <li>• Install fire-rated masonry construction</li> </ul>
Class D Builder	<ul style="list-style-type: none"> <li>• Read and interpret plans and specifications</li> <li>• Measure and calculate</li> <li>• Establish and implement site set-out</li> <li>• Excavate land</li> <li>• Levelling operations</li> <li>• Concreting works</li> <li>• Place and fix reinforcement materials</li> <li>• Install timber/concrete stumps</li> <li>• Carry out joinery works e.g. decks, pergolas and the like</li> <li>• Install exterior claddings such as weatherboards, manufactured boards, sheeting and eaves lining</li> <li>• Install interior claddings/linings such as timber, plywood, manufactured sheets</li> <li>• Assemble partitions</li> <li>• Install underlay sheeting for tiles</li> <li>• Install architraves, skirting boards, moulding, trims and the like</li> </ul>

## Part 8 –Building Surveyor

Column 1 - Occupation	Column 2 - Class or Endorsement	Column 3 - Eligibility Requirements
Building surveyor	Principal Building Surveyor	<p><b>Method 1 - Accreditation, online course and assessment</b></p> <p>The applicant—</p> <ul style="list-style-type: none"> <li>a) is currently accredited as a Level 1 – Building Surveyor under the Australian Institute of Building Surveyors’ National Accreditation Scheme; and</li> <li>b) has, within one year of making the application, completed the online course <i>Introduction to the ACT Building Regulatory System</i> developed by the ACT Government; and</li> <li>c) undertakes and passes an <i>assessment</i> set by the construction occupations registrar; and</li> <li>d) for applicants that have been excluded or ineligible to apply for a licence in the occupation or occupation class for a prescribed period, made the application after the period has ended; and</li> <li>e) for applicants that have been refused a licence in the principal building surveyor or principal building surveyor employee class once for failing to undertake and pass an <i>assessment</i> set by the construction occupations registrar, made the current application not less than six months from the date the registrar refused to issue the licence; or</li> <li>f) for applicants that have been refused a licence in the principal building surveyor or principal building surveyor employee class twice for failing to undertake and pass an <i>assessment</i> required for eligibility, made the current application not less than one year from the date of the registrar’s most recent refusal to issue the licence; or</li> <li>g) for applicants that have been refused a licence in the principal building surveyor or principal building surveyor employee class three or more times for failing to undertake and pass an <i>assessment</i> required for eligibility, made the current application not less than two years from the date of the registrar’s most recent refusal to issue the licence.</li> </ul> <p><b>Method 2 - Formerly held licence, online course and assessment</b></p> <p>The applicant—</p> <ul style="list-style-type: none"> <li>a) held a Principal Building Surveyor licence in the ACT within a one (1) year period from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described); and</li> </ul>

Column 1 - Occupation	Column 2 - Class or Endorsement	Column 3 - Eligibility Requirements
		<ul style="list-style-type: none"> <li>b) has, within one year of making the application, completed the online course <i>Introduction to the ACT Building Regulatory System</i> developed by the ACT Government; and</li> <li>c) undertakes and passes an <i>assessment</i> set by the construction occupations registrar; and</li> <li>d) for applicants that have been refused a licence in the principal building surveyor or principal building surveyor employee class once for failing to undertake and pass an <i>assessment</i> set by the construction occupations registrar, made the current application not less than six months from the date the registrar refused to issue the licence; or</li> <li>e) for applicants that have been refused a licence in the principal building surveyor or principal building surveyor employee class twice for failing to undertake and pass an <i>assessment</i> required for eligibility, made the current application not less than one year from the date of the registrar's most recent refusal to issue the licence; or</li> <li>f) for applicants that have been refused a licence in the principal building surveyor or principal building surveyor employee class three or more times for failing to undertake and pass an <i>assessment</i> required for eligibility, made the current application not less than two years from the date of the registrar's most recent refusal to issue the licence.</li> </ul>
	Principal Building Surveyor Employee	<p><b>Method 1 - Accreditation, online course and assessment</b></p> <p>The applicant—</p> <ul style="list-style-type: none"> <li>a) is currently accredited as a Level 1 – Building Surveyor under the Australian Institute of Building Surveyors' National Accreditation Scheme; and</li> <li>b) has, within one year of making the application, completed the online course <i>Introduction to the ACT Building Regulatory System</i> developed by the ACT Government and delivered by a course provider authorised by the ACT Government to provide the course; and</li> <li>c) undertakes and passes an <i>assessment</i> set by the construction occupations registrar; and</li> <li>d) for applicants that have been excluded or ineligible to apply for a licence in the occupation or occupation class for a prescribed period, made the application after the period has ended; and</li> </ul>

Column 1 - Occupation	Column 2 - Class or Endorsement	Column 3 - Eligibility Requirements
		<p>e) for applicants that have been refused a licence in the principal building surveyor class or principal building surveyor employee class once for failing to undertake and pass an <i>assessment</i> set by the construction occupations registrar, made the current application not less than six months from the date the registrar refused to issue the licence; or</p> <p>f) for applicants that have been refused a licence in the principal building surveyor or principal building surveyor employee class twice for failing to undertake and pass an <i>assessment</i> required for eligibility, made the current application not less than one year from the date of the registrar's most recent refusal to issue the licence; or</p> <p>g) for applicants that have been refused a licence in the principal building surveyor or principal building surveyor employee class three or more times for failing to undertake and pass an <i>assessment</i> required for eligibility, made the current application not less than two years from the date of the registrar's most recent refusal to issue the licence.</p> <p><b>Method 2 - Formerly held licence, online course and assessment</b></p> <p>The applicant—</p> <p>a) held a Principal Building Surveyor Employee licence or Principal Building Surveyor licence in the ACT within a one year period from the date of application that was not, or is not, the subject of cancellation or suspension, or surrendered to avoid occupational discipline or another regulatory action against the licensee (however described); and</p> <p>b) has, within one year of making the application, completed the online course <i>Introduction to the ACT Building Regulatory System</i> developed by the ACT Government; and</p> <p>c) undertakes and passes an <i>assessment</i> set by the construction occupations registrar; and</p> <p>d) for applicants that have been refused a licence in the principal building surveyor or principal building surveyor employee class once for failing to undertake and pass an <i>assessment</i> set by the construction occupations registrar, made the current application not less than six months from the date the registrar refused to issue the licence; or</p> <p>e) for applicants that have been refused a licence in the principal building surveyor or principal building surveyor employee class twice for failing to undertake and pass an <i>assessment</i> required for eligibility, made the current application not less than one year from the date of the registrar's most recent refusal to issue the licence; or</p>

Column 1 - Occupation	Column 2 - Class or Endorsement	Column 3 - Eligibility Requirements
