Australian jurisdictions are covered by the Mutual Recognition Act 1992 (Cth). New Zealand is covered by the Trans-Tasman Mutual Recognition arrangements.

Formula for non-standard registration term

- (1) The fee payable for a registration issued for a period less than 3 years is the amount worked out in accordance with the following formula:

$$(F/36) \times N$$

where

F is the 3-year registration fee; and

N is the number of months, and part months, rounded up to the nearest number of whole months for which the registration is to be issued or renewed.

Example:

Elizabeth's registration is issued for a period of 2 years, 3 months and 2 weeks. For the formula **N** is 28. This is because there are 24 months in a 2-year period and the 3 months and 2 weeks is rounded up to 4 months, making a total of 28 months.

Note: An example is part of the instrument, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (2) Registration fees are rounded down to the nearest 10 cents after doing the above calculation.
