-----	------------	---	--------	--------

**Note 1: Formula for non-standard licence term*

- (1) The fee payable for a licence issued for a period less than 7 years is the amount worked out in accordance with the following formula:

$$(F/84) \times N$$

where:

F is the 7-year licence fee; and

N is the number of months, and part months, rounded up to the nearest number of whole months for which the licence is to be issued or renewed.

Example:

Anthony's licence is issued for a period of 2 years, 3 months, and 2 weeks. For the formula **N** is 28. This is because there are 24 months in a 2-year period and the 3 months and 2 weeks is rounded up to 4 months, making a total of 28 months.

Note: An example is part of the instrument, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (2) Licence fees are rounded down to the nearest 10 cents after doing the above calculation.

***Note 2:* For the meaning of:

registered community housing provider—see the *Community Housing Providers National Law (ACT)*, section 4 (1).

Note: The *Community Housing Providers National Law (ACT) Act 2013*, s 7 applies the Community Housing Providers National Law set out in the *Community Housing Providers (Adoption of National Law) Act 2012* (NSW), appendix as if it were an ACT law called the *Community Housing Providers National Law (ACT)*.
