# **Water Resources (Water management areas) Determination 2007 (No 1)**

**Disallowable Instrument DI2007—193**

made under the

*Water Resources Act 2007*, Section 16 – Water management areas

## **EXPLANATORY STATEMENT**

---

The *Water Resources Act 2007* is an Act to provide for the management of the water resources of the Territory, and for related purposes.

Section 16 of the Act provides that the Minister must determine water management areas for managing the water resources of the Territory.

The water management areas are provided by Figure 1 and are further described by Table 1.

Areas of NSW shown in Figure 1 and Table 1 are included to assist understanding and do not imply that the ACT has any rights or responsibilities in those areas.

The determination takes effect on 1 August 2007.

The determination under section 16 of the Act is a disallowable instrument.
