(*Human Rights Act 2004, s 37*)**

APPROPRIATION BILL 2022-2023

The Bill **is not** a Significant Bill. Significant Bills are bills that have been assessed as likely to have significant engagement of human rights and require more detailed reasoning in relation to compatibility with the *Human Rights Act 2004*.

OVERVIEW OF THE BILL

Under Section 58 of the *Australian Capital Territory (Self-Government) Act 1988*, public money may not be issued or spent except as authorised by law. Under Section 6 of the *Financial Management Act 1996* (FMA), no payment of public money may be made unless it is in accordance with an appropriation. Section 8 of the FMA provides for separate appropriations to be made under an Appropriation Act in respect of each territory entity. The Bill satisfies the provisions of each of these Acts.

The Bill provides for appropriations for:

- (a) net controlled recurrent payments;
- (b) capital injections; and
- (c) payments to be made on behalf of the Territory.

Money is appropriated to directorates, which have been established by the Administrative Arrangements and guidelines issued under Section 133 of the FMA. Appropriations are also made to Territory authorities and Territory-owned corporations.

The Bill includes an appropriation of \$69,016,000 for the Treasurer's Advance. This amount will enable me, as Treasurer, to authorise expenditure in excess of that appropriated, or not provided for by an appropriation if there is an urgent and unforeseen need for the expenditure (as per Section 18 of the FMA). Consistent with that Section, the amount to be appropriated in 2022-23 is 1 per cent of the total amount to be appropriated under this Appropriation Bill 2022-2023 and the Appropriation (Office of the Legislative Assembly) Bill 2022-2023.

The Bill also includes an appropriation of \$250,000,000 for the capital works reserve. This amount will enable me, as Treasurer, to authorise capital works advances to allow a territory entity to access its future capital works funding, if there is an immediate need for the capital works advance in addition to the entity's capital works budget for the financial year (as per sections 18D and 18E of the FMA).

In accordance with section 37 of the *Human Rights Act 2004* I have examined the **Appropriation Bill 2022-2023**. In my opinion, having regard to the Bill and the outline of the policy considerations and justification of any limitations on rights outlined in this explanatory statement, the Bill as presented to the Legislative Assembly is consistent with the *Human Rights Act 2004*.
