

# Public Place Names (Macnamara) Determination 2023 (No 3)

Disallowable instrument DI2023-314

made under the

***Public Place Names Act 1989, s 3 (Minister to determine names)***

## EXPLANATORY STATEMENT

---

This explanatory statement relates to the *Public Place Names (Macnamara) Determination 2023 (No 3)* as presented to the ACT Legislative Assembly (the *Assembly*). It has been prepared to assist the reader of the instrument. It does not form part of the instrument and has not been endorsed by the Assembly. This statement must be read in conjunction with the instrument. It is not, and is not meant to be, a comprehensive description of the instrument. What is said about a provision is not to be taken as an authoritative guide to the meaning of a provision, this being a task for the courts.

### Overview

#### ***Background***

The *Public Place Names Act 1989* (the *Act*) sets out the process and criteria for the naming of divisions and public places. Section 2 of the Act defines a “public place” as including “an avenue, road, street, geographical feature or place that the public is entitled to use, and any unleased land”.

Section 3 of the Act gives the Minister the power to determine the name of a division or public place. The determination of the Minister is a disallowable instrument and as such must be notified in the ACT Legislation Register.

The factors that the Minister must have regard to in determining a name are set out in sections 2, 3 and 4 of the Act. Section 3 (3) (a) of the Act requires the Minister to consider the *Public Place Names (Naming of public places) Guidelines 2021* (the *guidelines*) when naming a public place. The guidelines are made under section 4A of the Act and are notified at [www.legislation.act.gov.au/ni/2021-72/](http://www.legislation.act.gov.au/ni/2021-72/).

#### ***The Determination***

The *Public Place Names (Macnamara) Determination 2023 (No 3)* (the *determination*) determines the names of two roads for the public places indicated in the diagram in the schedule to the determination.

The names are consistent with the theme for Macnamara which is ‘science and technology’. The purpose of this determination is to commemorate the names of two people for their important contribution to Australia as a nation through their work in science and/or technology.

This determination is consistent with the provisions of section 4 (2) (a) ‘the names of persons famous in Australian exploration, navigation, pioneering, reconciliation, administration, politics, education, science or letters’ and 4 (2) (b), ‘the names of persons who have made notable contributions to the existence of Australia as a nation’. This determination is also consistent with the guidelines.

#### Consultation

If a public place is proposed to be named after a particular person, reasonable steps should be taken to obtain prior permission from the person’s relatives, associates, an appropriate cultural group, or a relevant professional organisation, under clause 8 of the guidelines. Consultation was undertaken in this instance in accordance with the guidelines.

#### Gender representation

Section 3 (2) (b) of the Act requires that the Minister (or delegate) consider whether the names of women are well-represented when making a determination about the naming of a public place. This instrument commemorates the contribution of one woman and one man.

#### Regulatory Impact Statement (RIS)

The *Legislation Act 2001 (Legislation Act)* requires a RIS for regulations and disallowable instruments subject to specified exceptions. In this case, a RIS is not required because the determination does not impose any appreciable costs on the community or part of the community (section 34 (1) of the Legislation Act). Further, a RIS is also not required because, while the determination of place names is culturally and socially significant, it does not adversely affect rights or impose liabilities on a person (section 36 (1) (b) of the Legislation Act).

#### Human Rights

Section 12 of the *Human Rights Act 2004* creates a right to privacy and reputation. Conceivably, the naming of a place has the potential to infringe the right to privacy and reputation of a person after whom a place is named. In this case the process through which places are named ensures that this right is not infringed and that only appropriate information is included in a determination. This process includes the consultation described above. Additionally, in relation to places named after people, only the names of deceased persons are determined.

#### Delegation

This determination is made by a delegate of the Minister. The Minister has delegated the power under section 3 of the Act to name a division or public place to the people occupying the positions of Director-General and Deputy Director-General of the Environment, Planning and Sustainable Development Directorate, refer to the *Legislation (Environment, Planning and Sustainable Development Directorate) Delegation 2023 (No 1)*, NI2023-720.

## **Clause Notes**

### ***Clause 1 – Name of instrument***

This clause names the instrument.

### ***Clause 2 – Commencement***

This clause provides for the commencement of the instrument.

### ***Clause 3 – Determination of Place Names***

This clause determines the names of public places as specified in the schedule.
