

Road Transport (General) Pay Parking Area Fees Determination 2025 (No 3)

Disallowable instrument DI2025-263

made under the

Road Transport (General) Act 1999, s 96 (Determination of fees, charges and other amounts)

EXPLANATORY STATEMENT

Section 96 of the *Road Transport (General) Act 1999* allows the Minister to determine fees, charges and other amounts payable under the ACT road transport legislation.

This determination sets the relevant parking fees for Territory-operated pay parking areas. Under the *Road Transport (Safety and Traffic Management) Regulation 2017* (the Regulation), pay parking areas are implemented through ticket parking schemes, which are established by the Road Transport Authority under section 35(1) of the Regulation.

Schedule 1 of the instrument lists pay parking areas, parking fee categories and the fees that apply to each area. The instrument adds one pay parking area to schedule 1 as the area has become a government managed pay parking area.

Area added to Schedule 1, Item 3:

Area	Block	Section	Division
Part of the off-street parking north of Constitution Avenue	12	33	Reid

The number of fee categories has been maintained at 10, which includes four multi-stay (or all-day) categories, five short-stay categories and one additional rate after standard hours rates category.

The fees for pre-paid weekly and monthly multi-day parking tickets that are usable in multi-stay ticket parking areas are set out in Schedule 2. These tickets continue to represent savings of approximately 5% and 6% respectively on the daily purchase price of tickets within their fee category, rounded to the nearest whole dollar.

The fee for CIT student pre-paid all-day parking tickets is in Schedule 3. CIT student pre-paid tickets are available to eligible CIT students. The ticket is usable in specific multi-stay ticket parking areas only as identified in Schedule 3.

The preference of the Standing Committee on Justice and Community Safety (Legislative Scrutiny Role) that Instruments or Explanatory Statements identify the amount of the old and new fee, any percentage increase and also the reason for any increase in the Instrument or the Explanatory Statement has been taken into account in the preparation of the Instrument and the Explanatory Statement.

A Regulation Impact Statement (RIS) is not required for this fee determination due to section 36(1)(k) of the Legislation Act, which states that a RIS need not be prepared for an amendment of a fee consistent with announced government policy. Parking fees made by this instrument are consistent with the Government's policies.

There are no human rights implications arising from this instrument. Increases to parking fees may encourage alternative forms of transport, which may have a positive impact on climate change, but is not feasible to measure the impact.

This determination is a disallowable instrument and must be presented to the Legislative Assembly within 6 sitting days after its notification pursuant to section 64 of the *Legislation Act 2001*.
