INTERIM HERITAGE OBJECTS REGISTER

NOTICE

Pursuant to Section 12 of the *Heritage Objects Act 1991*, notice is given that the following objects have been entered in the interim Heritage Objects Register:

- . **Bamberg Theodolite**
- . **1949 AEC Regal Mark III Omnibus**
- . **Armorial Bearings of the City of Canberra**

Copies of the unrestricted portions of the interim Heritage Objects Register are available by contacting the Registrations Officer on 2072616.

Effect of inclusion in the interim Heritage Objects Register

Pursuant to section 8 of the *Heritage Objects Act 1991*, the interim Heritage Objects Register has effect as if it were the Heritage Objects Register.

The provision for an object of heritage significance in the interim Heritage Objects Register requires that during the defined period the Territory, the Executive, or a Minister shall not do any act, or approve the doing of any act, that would be inconsistent with the interim Heritage Objects Register as if it were the Heritage Objects Register.

Under section 8 (3) the above does not apply in relation to the doing of any act, or the approval of the doing of any act, by the Territory, the Executive or a Minister where there is no prudent and feasible alternative and all prudent and feasible measures to comply with any requirement specified in the interim or Heritage Objects Register for the conservation of the heritage significance of the object are taken or to be taken in doing that act.

The "defined period" referred to above (being a period not exceeding one year) means the period that commences on the day of the publication of this notice and which terminates at the expiration of:

- the day before the date the object is entered in the Heritage Objects Register; or
- the day before the date the object is refused entry in the Heritage Objects Register.

Signed, on behalf of the Heritage Council of the ACT.

These employees maintain some 380 buses, and are located in 4 workshop locations. They encompass a range of trade skills including heavy vehicle mechanics, panel beating, autoelectrical and spray painting, among others.

Integral to the success of the EBA are the following activities:

- assessment of the total work requirements by trade type;
- assessment of numbers of employees required by trade type;
- development of a skill/competency profile by trade type;
- development of a competency assessment process for salary advancement.

Submissions are sought from firms or individuals with expertise in these areas. In particular, prior experience with the APS General Service Officer structure in a workshop environment or similar will be highly regarded. **Submissions should be forwarded to Mr Ian Pye, Manager ACTION Engineering, PO Box 3037, Belconnen ACT 2617 by no later than Friday 28 July 1995.**
