Explanatory Note

The ICRC is required to have regard to the extent of the costs set out in Table 1 when determining annual licence fees, and to the relative scope and nature of the utility services provided by a utility set out in Table 2. Table 1 sets out the expected costs in relation to the licensee of the performance of functions under the Act and regulations of the ICRC, of the ESCC and of DUS's costs of technical regulation under Part 5 of the Act on behalf of the Territory. The Annual Licence Fee determined is the sum of 100% of these expected costs relating to the licensee in respect of the utility services as set out in Table 1. The ICRC's functions under the Act in respect of utilities are funded solely from annual licence fees. There is no budget allocation to the Department for its responsibilities in respect of technical regulation or for the ESCC. The ICRC has therefore determined that the ESCC's and Territory's costs (through DUS) also be recovered through licence fees.
