# Crace Precinct Code Index Map

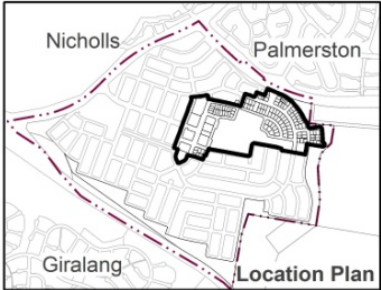

## Legend

- Map 1** Areas with ongoing provisions
- Map 2**
- Map 3**

**RCn** Additional rules and criteria apply see below

# Crace Precinct Code Map 1

The following provisions relate to rules and criteria in the Single Dwelling Housing Development Code

- 
Block Boundary Side setback-boundary2
- 
Bushfire Attack Level (BAL)-12.5 kilowatts/m<sup>2</sup>  
Australian Standard AS3959. Construction of buildings in bushfire prone areas.

Note: Also refer to Crace concept plan (Precinct Code)

# Crace Precinct Code Map 2

The following provisions relate to rules and criteria in the Single Dwelling Housing Development Code

-  **Side setback-boundary2**
  -  **Bushfire Attack Level (BAL)-12.5 kilowatts/m<sup>2</sup>**  
Australian Standard AS3959. Construction of buildings in bushfire prone areas.
  -  **Blocks >500sqm <550sqm - subject to mid size block provisions**
  -  **Blocks potentially affected by noise from external sources**
- Note: Also refer to Crace concept plan (Precinct Code)
- 
  

# Crace Precinct Code Map 3

The following provisions relate to rules and criteria in the Single Dwelling Housing Development Code

-  Bushfire Attack Level (BAL)-12.5 kilowatts/m<sup>2</sup> Australian Standard AS3959. Construction of buildings in bushfire prone areas.
-  Blocks potentially affected by noise from external sources

Note: Also refer to Crace concept plan (Precinct Code)

## Additional rules and criteria

The following rules and criteria apply to the areas identified in the Crace Precinct Code Index Map.

Rules	Criteria
<b>1.1 Interface</b>	
<p><b>R1</b></p> <p>This rule applies to all boundary fencing corner blocks identified on the Crace ongoing block specific provisions map.</p> <p>For a minimum of 9m from the corner of the primary and secondary frontages, any fencing forward of the building must comply with all of the following:</p> <ul style="list-style-type: none"> <li>a) is between 600mm and 900mm high</li> <li>b) is located on the boundary.</li> </ul> <p>Beyond 9m of the corner of the primary and secondary frontages, any fencing forward of the building line must comply with all of the following:</p> <ul style="list-style-type: none"> <li>c) is located on or adjacent to the block's secondary frontage (except for north fronting blocks)</li> <li>d) not less than 50% of the fencing is setback at least 600mm from the front boundary</li> <li>e) is not more than 1.5m high.</li> </ul> <p>Note. Figure 1 refers</p>	<p>This is a mandatory requirement. There is no applicable criterion.</p>
<p><b>R2</b></p> <p>This rule applies to all boundary fencing blocks adjacent to open space identified on the Crace ongoing block specific provisions map.</p> <p>For a minimum of 9m from the corner of the primary and secondary frontages, any fencing forward of the building must comply with all of the following:</p> <ul style="list-style-type: none"> <li>a) is a maximum of 1m high</li> <li>b) is located on the boundary.</li> </ul> <p>Beyond 9m of the corner of the primary and secondary frontages, any fencing forward of the building line must comply with all of the following:</p> <ul style="list-style-type: none"> <li>c) is located on or adjacent to the block's secondary frontage</li> <li>d) not less than 50% of the fencing is set back at least 600mm from the front boundary</li> </ul>	<p>This is a mandatory requirement. There is no applicable criterion.</p>

Rules	Criteria
<p>e) is not more than 1.5m high. Note: Figure 1 refers.</p>	
<p>R3 This rule applies to all boundary fencing north facing blocks identified on the Crace ongoing block specific provisions map. Any fencing forward of the building line must comply with all of the following:</p> <ul style="list-style-type: none"> <li>a) not less than 50% of the fencing is set back at least 600mm from the front boundary</li> <li>b) is adjacent to the block's <i>principal private open space</i></li> <li>c) is not more than 1.5m high.</li> </ul> <p>Note: Figure 2 refers.</p>	<p>This is a mandatory requirement. There is no applicable criterion.</p>
<p>R4 This rule applies to all boundary fencing blocks shown as shaded blocks identified on the Crace ongoing block specific provisions map. Any fencing forward of the building line complies with all of the following:</p> <ul style="list-style-type: none"> <li>a) is constructed of masonry or stone work and includes infill panels of timber slats (excluding raw treated pine or palings) or metal slats (excluding metal cladding or swimming pool fencing) and contains planting to minimum 50% of the solid masonry walls.</li> </ul>	<p>C4 Boundary fencing forward of the building line is partially transparent and is constructed of quality materials that complement those used in the dwelling</p>
