BRADDON ACT 2612

Dear Mr Purdon

OneSun Capital Solar Farm at Williamsdale – Exemption from the requirement to complete an Environmental Impact Statement

I have reviewed the information provided in your application under Section 211 of the *Planning and Development Act 2007* (the Act) for an exemption from the requirement to complete an Environmental Impact Statement for the OneSun Capital Solar Farm on blocks 1470 and 1471 Tuggeranong.

Having considered the information submitted in support of your application and the issues raised in submissions made during public consultation and the conditions outlined in the assessment report, I consider the expected environmental impact of the proposal has been sufficiently addressed.

As the Minister responsible for administering the Act, I advise that the proposed development of the OneSun Capital Solar Farm at Williamsdale will not require further environmental assessment in relation to the identified schedule 4 triggers. You are now able to lodge an impact track development application for this proposal with the planning and land authority within the Environment and Planning Directorate. Please ensure that you include a copy of this letter with your development application.

Yours sincerely

Mick Gentleman MLA
