Public Health Emergency Direction

Public Health Act 1997

*Made under the Public Health Act 1997,
section 120 (Emergency actions and directions)*

I, Dr Kerryn Coleman, Chief Health Officer, consider it necessary or desirable to alleviate the emergency declared under the *Public Health (Emergency) Declaration 2020 (No 1)* [NI2020-153] (the **declared emergency**) on 16 March 2020, to give the directions as set out below.

Grounds for directions

I consider the directions are necessary or desirable to alleviate the **COVID-19** emergency on the grounds that—

- (a) **COVID-19** poses a serious public health risk to the Australian Capital Territory community;
- (b) the Australian Capital Territory has experienced persistent community transmission since the outbreak of the Delta variant of **COVID-19**, in the Australian Capital Territory on 12 August 2021;
- (c) the Delta variant of **COVID-19** (labelled as a variant of concern) has proven challenging both nationally and internationally, demonstrating that elimination of the virus is not feasible and community transmission will continue as the Australian Capital Territory seeks to mitigate the impact of this public health risk;
- (d) it is important to limit the spread of **COVID-19** in the Australian Capital Territory community.

In making this Direction, I have had regard to relevant human rights and I am satisfied that the limitations imposed as a result of this Direction are both demonstrably justifiable in a free and democratic society.

Attachment 2 – Risk Mitigation Guidance

This Direction should be read in conjunction with the guidance material prepared by the Chief Health Officer, including the COVID Safe Event Protocol and guidance material about how to prepare a COVID-19 Safety Plan, which are available at www.covid19.act.gov.au.

It is suggested that, as far as reasonably practicable, the following risk mitigation measures be applied to gatherings of 2 people or more:

- Hand hygiene products and suitable waste receptacles should be available, to allow for frequent cleaning and waste disposal;
- Wherever possible promote physical distancing of at least 1.5 metres between groups of people not known to each other, and physical contact should be avoided wherever possible, taking reasonable steps to require this when patrons are queuing outside a venue;
- The occupancy allowance should be displayed at the entrance of each venue or space;
- The recommendations for unwell individuals to remain at home and not attend gatherings should be promoted and displayed prominently so that they can be seen and read easily by a person at or near an entrance to the indoor space;
- If businesses choose to have self-serve buffets, they must implement additional risk mitigation measures, and ensure that they are documented in the COVID-19 Safety Plan for the business. Some important considerations will include:
 - Ensure that self-serve buffets are appropriately supervised by staff, particularly during busy periods;
 - Ensure that hand sanitiser is available and used by patrons prior to using the self-serve buffet;
 - Regularly replace any shared utensils with clean ones. This could be done at least every hour and more regularly during busy periods;
- Businesses should continue to avoid offering communal snacks;
- Any communal condiments should be wiped down on a regular basis, and more so during busy periods;
- Where activities involve the use of equipment, that equipment should be regularly cleaned and, where practicable, not be shared by people other than members of the same household;
- Where required to take reasonable steps to ensure patrons record their attendance using the Check In CBR App, the following measures are taken:
 - Actively monitoring points of entry;
 - Requesting to see confirmation from a patron that they have recorded their attendance using the Check In CBR App; and
 - Clear signage or messaging to customers of the need to record their attendance using the Check In CBR App.
