1. District Map

This policy applies to land within the area identified as Woden District in the map below.

Maps detailing specific assessment outcomes and requirements are included at the end of this policy.

2. Land Use Table

The following table specifies additional types of development and land uses that are assessable in this district. These are additional to the development types and land uses specified as assessable within the applicable zone policy.

The uses listed require development approval unless they meet the 'exempt development' definition of the *Planning Act 2023*. Development and land use types listed are defined in the Territory Plan Dictionary.

The table also specifies additional types of development and land uses that are prohibited in this district. These are prohibited, notwithstanding whether they are listed as assessable under the applicable land use policy. Development of prohibited uses may be considered under certain limited circumstances as outlined under Part 7.3 of the *Planning Act 2023*.

Locality	Zone	Additional assessable development	Additional prohibited development	Relevant parcel or Figure

3. Policy Outcomes

Development proposals in the Woden District will be assessed having regard to the key characteristics of the district and the policy outcomes to be achieved for the district. The policy outcomes to be achieved for the Woden District are derived from the Woden District Strategy, that sets the vision and directions for the district.

The desired policy outcomes to be achieved for Woden District include:

1. Protect and enhance heritage places and habitat for threatened species and their connectivity with green corridors and nature reserves including Mount Mugga, Oakey Hill, Red Hill, Mount Taylor and Farrer Ridge.
 2. Explore opportunities to integrate Yarralumla Creek into the blue-green network including potential for wetlands and incorporate water sensitive urban design.
 3. Develop Woden town centre as an educational and commercial hub, building on the Canberra Institute of Technology and the transformational potential of the future light rail connectivity and new residences.
 4. Develop the economic and employment roles of Curtin and Mawson group centres based on their improved connectivity to the future light rail corridor.
 5. Plan for and deliver light rail from the City Centre to Woden, as the central spine of the public transport network in south Canberra.
 6. Consider the role and function of existing group and local centres which may include Curtin, Lyons and Mawson. Depending on the results of this consideration and whether further action is required, investigate planning and non-planning initiatives to support centre viability and role as a meeting place.
 7. Deliver new community facilities aligned with urban improvement to address existing gaps in provision and support future residential growth.
 8. Deliver urban transformation and support new sustainable communities linked to the future light rail corridor between Curtin and Mawson.
-

4. Assessment Outcomes

Consistent with the district policy outcomes, development proposals in the Woden District must demonstrate that they are consistent with any area specific assessment outcomes that may apply, as well as the relevant zone assessment outcomes.

In demonstrating compliance with the assessment outcomes, consideration is to be given to the relevant design guides and may be given to planning technical specifications which may serve as a benchmark. While all assessment outcomes are to be met, not all outcomes are covered by design guidance and/or planning technical specifications.

Where a proposed development complies with relevant provisions in the design guide and/or planning technical specification and the development comprehensively addresses the assessment outcome, further assessment regarding that assessment outcome will not be required.

Where a design guide applies to a development, the proposal must demonstrate that it is consistent with the relevant guidance. More information is available in the design guide. Given the nature of the design guides, different design responses are possible to meet the same assessment outcomes.

The Territory Planning Authority may consider advice or written support from a referral entity to demonstrate compliance with a relevant assessment outcome. Where endorsement from an entity is noted as a planning technical specification, entity referral will be required.

Specific assessment outcomes

The assessment outcomes for proposed development in specific locations are listed below. Localities that are not listed do not have any area specific assessment outcomes to consider.

Locality	Assessment outcome	Reference
Curtin	<u>Group Centre</u>	
	1. The existing public space character is retained and improved, particularly in the central courtyard.	
	2. A mix of uses are provided that encourage people to live, work and spend time in the group centre.	
	<u>Residential area</u>	
	3. The existing 'Radburn' housing pattern is maintained and improved.	
Lyons	4. Encourage development at Lyons local centre that provide for a variety of uses to ensure the centre remains a viable and active focal point for the Lyons community.	

5. Assessment Requirements

Assessment requirements set the mandatory development controls for specific areas, and sites within Woden District. These provisions are in addition to and, where inconsistencies occur, prevail over any assessment requirements that are provided in the relevant zones policy.

Development proposals in Woden District will be assessed against the assessment requirements in the following table. Localities that are not listed do not have assessment requirements.

Locality	Assessment requirement	Reference
Curtin	1. Dwellings are permitted at ground floor in area 'A' shown in figure 3, only if adaptable.	Figure 3
	2. Existing car parking shown in Figure 3 is retained or improved with no other development permitted.	
	3. Development in Area B in Figure 3 complies with an environmental site assessment report and a noise assessment report endorsed by the EPA.	Figure 4
	4. Maximum height of buildings is:	
	a) CZ1 - 10m	Figure 5
	b) Area 'a' Figure 4 – 6m	
	c) Area 'c' Figure 5 – indicated on Figure 5	Figure 7
	d) Figure 7 –	
	i) Area 'a' – 12m	
	ii) Area 'b' – 15m	
	iii) Area 'c' – 21m.	
	5. Development up to 19m in Area 'b' on Figure 4 must contribute to character, public space spaces and retain reasonable solar access.	
	6. Building setbacks are as indicated on Figures 4, 5 and 7.	

Locality	Assessment requirement	Reference
	<ul style="list-style-type: none"> 7. Ground floor residential in Area 'c', Figure 5 provide privacy through raised courtyards, planting, and fencing. 8. New road to be provided as indicated on Figure 5. 9. Provide active frontage as indicated on Figure 6. Pedestrian routes remain unenclosed and publicly accessible. 	
Lyons	<ul style="list-style-type: none"> 10. Maximum height of buildings indicated in Figure 8: <ul style="list-style-type: none"> a) Area 'a' and 'b' – 33m b) Area 'c' and 'd' – 27m c) Area 'e' – 14m. 11. The maximum building frontage lengths are as indicated on Figure 8, but roof top plant that are screened and set back are not included in the height limit. 12. Area C on Figure 8 to contain a minimum of two buildings. 13. Encourage development at Lyons local centre that provide for a variety of uses to ensure the centre remains a viable and active focal point for the Lyons community. 14. Development on Block 9 Section 53 Lyons presents as distinct buildings separated by large areas of landscaped open space, with minimum 6m setback from Melrose and Hindmarsh Drive boundary. 	Figure 8
Garran – Kitchener Street access	<ul style="list-style-type: none"> 15. Development of a road intended to provide access to a retirement village complies with all of the following: <ul style="list-style-type: none"> a) a public road is constructed to provide access to the retirement village at the Federal Golf Course b) the road utilises the existing access to Garran section 10 block 75 of Kitchener Street, having regard to intersection safety and design considerations c) the road is setback a minimum 50 metres from residential blocks d) development of the road does not diminish or inhibit recreational opportunities and maintenance of ecological values on the balance of the site. 16. The following is endorsed by TCCS: <ul style="list-style-type: none"> a) a traffic and parking feasibility study is prepared for all development at Red Hill section 56 part of block 1 that intends to gain access via Kitchener Street b) the design and construction of the public road c) the design and construction of the upgrade to intersection of the road with Kitchener Street is consistent with TCCS standards and requirements d) any necessary upgrades to Kitchener Street to accommodate the traffic generated by the retirement village e) stormwater management plan in relation to the road and any associated stormwater runoff expected from development at Red Hill section 56 part of block 1 f) restoration of and provision for recreational opportunities on the balance of the block as impacted by the road g) restoration of and provision for landscaping associated with ecological values links and corridors on the site as impacted by the road h) Any necessary upgrades to infrastructure to manage stormwater runoff from the road and development at Red Hill section 56 part of block 1. 	<p>Block 75 Section 10 Garran</p> <p>Part Block 1 Section 56 Red Hill</p>
Mawson	<ul style="list-style-type: none"> 17. Maximum height of buildings is: <ul style="list-style-type: none"> a) Figure 9 – 	Figure 9

Locality	Assessment requirement	Reference
	<ul style="list-style-type: none"> i) Area 'a' – 16m ii) Area 'b' – 22m iii) Area 'c' – 28m iv) Area 'd' – 16m. 	Figure 11
	<ul style="list-style-type: none"> b) Figure 11 – <ul style="list-style-type: none"> i) Area 'a' – 11m, except within 25m of Athlon Drive boundary where it is 21m ii) Area 'b' – 22m, except within 35m of Athlon Drive boundary where it is 21m iii) Area 'c' – 28m iv) Area 'd' – 16m. 	
	18. Development of public carparking areas indicated on Figure 9 retains the existing number of public car spaces in addition to providing parking generated by the development.	Figure 10
	19. In accordance with Figure 10 <ul style="list-style-type: none"> a) Ground floor dwellings are not permitted to areas with primary active frontage b) Development, including Blocks 3 & 8, Section 47, provides minimum 6m wide public pedestrian links accessible at all times c) Buildings are generally at 0m front setback up to 3 storeys with a 3m setback to storeys above. Setbacks provide a human scale streetscape, reduce building bulk and provide for features such as entries and outdoor dining d) Provide active frontages which incorporate clear glazing and uses that generate activity. Active frontages provide pedestrian protection through awnings or colonnades e) Ground floor dwellings are commercially adaptable and have individual access f) Development maximises the potential of a future light rail stop. 	Figure 11
	20. In Area 'b' on Figure 11 the minimum front setback to Athllon Drive is 10m.	
O'Malley	21. Development of a chancellery or diplomatic residence, complies with provisions of the Residential Zones Policy.	
Phillip – Woden Town Centre	22. Development is consistent with the following, where relevant: <ul style="list-style-type: none"> a) Improve the provision of recreation, sport, and cultural facilities in the centre. b) Provide clear and safe pedestrian connections between residential developments fronting Melrose Drive and Eddison Park. c) Provide a safe and vibrant night-time economy. d) Promote social inclusion through providing accessible commercial and community facilities. e) Provide a street network designed for low vehicle speeds and easy pedestrian access. f) Provide for a range of employment within the town centre. 	
	23. Ground level dwellings are not permitted in areas 'a', 'b' & 'e' of Figure 13.	
	24. Maximum height of buildings indicated in Figure 13: <ul style="list-style-type: none"> a) Area 'a' – 78m (approx. 24 storeys) b) Area 'b' – 53m (approx. 16 storeys) c) Area 'c' – 41m (approx. 12 storeys) – see also part Block 4 Section 79 Phillip provisions. d) Area 'd' – 22m (approx. 6 storeys). e) Area 'e' and 'f' – 16m (approx. 4 storeys). 	

Locality	Assessment requirement	Reference
	<ul style="list-style-type: none"> f) One tower element per block (prior to any subdivision), in areas 'a', 'b' and 'c' (except for part Block 4 Section 79 Phillip) may be increased by 15m provided the proposal is recognised as being of high-quality architectural merit, the proposal demonstrates a positive contribution to the streetscape, the proposal does not unreasonably impact through overshadowing, and the visual bulk of the building is minimised. g) Buildings in area 'e' can be a maximum of 19m where fronting Townsend St, Colbee Court or Dundas Court and the upper level is setback 3m. Buildings facing Altree Court can be a maximum of 22m. 	
	25. Development on Block 7 Section 1 Phillip is maximum 16m high unless a demonstrated proposed height is appropriate to use and minimises impacts including overlooking and overshadowing to adjacent residential. Screening is permitted to a parking structure on this site. The minimum setback to Yamba Drive boundary is 10m unless suitable landscaping is provided.	
	26. Development at 2nd floor and above is set back 6m from the street boundary in area 'e' and 'f'. This may be reduced to 0m if no overlooking or overshadowing of adjacent dwellings is demonstrated.	
	27. Proposals above 41m provide an assessment of the visual impact of the development, how it relates to surrounding built form and uses, and how it responds to the town centre skyline and streetscape.	
	28. A public road and 20m wide public landscaped area are provided in accordance with Figure 13.	
	29. Development on section 80 is sensitive to Callum Offices in terms of height, scale, and heritage significance.	
	30. Development of carparking areas identified in Figure 14 retains or improves the existing number of publicly available car parking spaces in addition to providing on site car parking that is generated by the development.	
	31. Landscaped areas are provided to secondary frontages indicated on Figure 14 which are integrated with the verge and wholly contained on block. Minimum 3.2m high awnings or colonnades are provided to primary active frontages.	
	32. Development in Area 'c' on Figure 16 incorporates the indicative access road and shared path.	
	33. Area 'A' on Figure 14 provides all the following: <ul style="list-style-type: none"> a) an ice-skating rink suitable for national competitions, unless otherwise agreed by the ACT Government. b) a 50m public swimming pool that operates all year with reasonable opening hours, similar to other ACT public swimming pools. If the site is redeveloped, a publicly available, indoor facility is provided that includes a minimum: <ul style="list-style-type: none"> i) 25m x 20m 8-lane swimming pool – water depth of 1.35m to 2.0m ii) warm water program pool – minimum dimensions of 20m x 10m iii) w toddlers/leisure pool, learn to swim pool and/or water play splash pad – minimum size 500m² iv) a transition from within the centre to the outdoors (including to external gardens, decks and outdoor eating areas to support indoor/outdoor activities v) associated amenities to support the operation of the pool facilities. 	

Locality	Assessment requirement	Reference
	<ul style="list-style-type: none"> c) The design and inclusions for the indoor pool must be approved by the ACT Government. 34. Development of dwellings and commercial accommodation on Section 7 is only permitted within 36m of Callum Street. 35. Development proposals demonstrate no additional overshadowing to Woden Town Square between 10am and 2pm on 21 June. 	
Phillip – Athllon Drive	<ul style="list-style-type: none"> 36. The maximum height to area ‘c’ in Figure 16 is 11m except within 52m of Yarralumla Creek, where the maximum height is 21m. 37. The minimum front setback to the boundary to Athllon Drive is 4m. 38. Residential development is not permitted within the 1 in 100-year flood level of Yarralumla Creek. 39. NON RETAIL COMMERCIAL USE is only permitted in sections 23 and 104 Phillip where it is demonstrated to be compatible with the operation of a day and night sporting oval. 	Figure 16
Phillip – Part Block 4 Section 79	<ul style="list-style-type: none"> 40. Development complies with the following: <ul style="list-style-type: none"> a) Appropriately responds to Yarralumla and Long Gully Creeks in regard to: <ul style="list-style-type: none"> i) flood risk ii) role of the riparian corridor b) provide an infrastructure corridor for existing and future utility services including an existing trunk sewer and major gas main. c) demonstrated adequate space for active travel routes and open spaces for the use and enjoyment of the local community and commuters. d) improve the landscape quality and setting on Yarralumla and Long Gully Creeks. 41. Only one tower element of 16 storeys is permitted where it complies with the following: <ul style="list-style-type: none"> a) located in the northern part of the site. b) designed to minimise its visual bulk and scale as viewed when approaching the site along Yamba Drive. 42. Development achieves all of the following: <ul style="list-style-type: none"> a) provides a gradual transition in density and scale, from a lower density and building height to the south-east of the site to the tower element to the north of the site b) building heights to the south-east of the site are compatible with the adjacent health and fitness centre. 43. Shared access for pedestrians and cyclists shall be provided across Yarralumla Creek, connecting Irving Street with Section 79 and the general public footpath network to the satisfaction of TCCS. 44. A community and social needs assessment report is to be prepared to determine and prescribe the future needs within the development. Provision is required to be made within the development to accommodate the identified community uses to the satisfaction of the relevant authority. 	Part Block 4 Section 79
