### MOTOR VEHICLES.

*Conditions to be complied with before a Motor Vehicle is registered.*

1. Particulars on application form shall be filled in by applicant.
  2. The motor vehicle shall be produced at any time and place appointed by the Registrar.
  3. The motor vehicle shall be capable of being so worked that it may travel either backwards or forwards and be capable of being readily steered.
  4. The steering arms and connexions shall be of sufficient length and as far as possible protected from damage by collision.
  5. All brake and steering connexions shall be secured with bolts, the bolts shall be fitted with nuts, and the nuts shall be locked or pinned.
  6. The motor vehicle shall have two independent brakes in good working order of sufficient strength so that either of them shall be capable of stopping and holding the vehicle under all conditions, and of such efficiency that the application of either shall cause two wheels upon the same axle to be effectually prevented from revolving, or shall have the same effect in stopping the vehicle as if those wheels were so held. Each brake shall be as far as possible so affixed as to be capable of easy adjustment and at least one must be made so as to be applied by the foot of the driver.
  - No two brakes which operate upon the same part will be considered as independent, and at least one should act upon the road wheels without any connexion with the propelling gears.
  7. Clauses 3 to 6 (both inclusive) of this Schedule shall not apply to motor cycles. In the case of a motor-cycle one effective brake capable of stopping and holding the cycle shall be deemed sufficient.
  8. All fittings shall be in such condition as not to be likely to cause annoyance, by bad smell or otherwise, or danger to any person upon the motor vehicle or upon a public street.
  9. The lubrication of the engine and the carburation of the working mixture shall be so controlled that smoke is not projected with the exhaust, or from any other part.
  10. Two lamps of approximately equal candle power shall be fixed not higher than four feet six inches from the ground on the front of the motor vehicle, other than a motor cycle, and the lamps be so made and carried as to show a bright light in front of the vehicle. A lamp shall be fixed upon the front of a motor cycle and the lamp be so made and carried as to show a bright white light in front of the cycle and to illuminate the number plate. One other lamp shall be fixed upon the off side of the rear of the motor vehicle and the lamp be so made and carried as to show a bright red light to persons approaching from the rear of the vehicle and to illuminate with a white light and to render easily distinguishable at a distance of fifteen yards each figure on the number-plate affixed to the rear of the vehicle.
  11. A suitable attachment shall be securely fastened in an approved position at the front and also at the rear of the motor vehicle, of a size satisfactory to the Registrar, for the purpose of affixing the number plates, and a lamp bracket shall be affixed at the rear of the motor vehicle to hold the rear lamp in such a position as to reflect upon the rear number plate.
- The lamp bracket shall be so affixed as not to obscure any portion of the rear number-plate.

12. An approved bell or alarm, or other means of giving due warning of the approach of the motor vehicle, shall be attached to the motor vehicle in a convenient position.

13. The motor vehicle shall not exceed 8 feet in width, measured between its extreme projecting points.

14. The motor vehicle shall have an efficient silencer so made and affixed that the exhaust shall be projected through the silencer.

15. A side-car shall not be affixed upon the right-hand side of any motor cycle.

16. (a) In each application for registration of a motor vehicle the weight unladen, and the width and material of the tyres, when other than rubber tyres, shall be stated.

(b) If required, the vehicle shall be weighed in the presence of an officer of the Civic Administrator thereto authorized by the Civic Administrator.

17. On all motor lorries and motor omnibuses and on such other motor vehicles as the Civic Administrator thinks fit, the name and address of the owner and the weight of the vehicle shall be painted in plain block letters, at least one inch in height, on the off-side of the vehicle and of any trailer.

18. The motor vehicle (not being a motor cycle) shall be equipped with a reflector or periscope so arranged as to enable the driver to be aware, without turning his head, of the existence or approach of any other vehicle on the right-hand side behind the driver.
