

Australian Capital Territory

Electricity Safety Regulations 1971 No 10

made under the

Electricity Safety Act 1971

Republication No 3

Effective: 28 September 2002

Republication date: 28 September 2002

Last amendment made by SL2002-26

Authorised by the ACT Parliamentary Counsel

About this republication

The republished law

This is a republication of the *Electricity Safety Regulations 1971*, made under the *Electricity Safety Act 1971* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 28 September 2002. It also includes any amendment, repeal or expiry affecting the republished law to 28 September 2002.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced or is affected by an uncommenced amendment, the symbol **U** appears immediately before the provision heading. The text of the uncommenced provision or amendment appears only in the last endnote.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see *Legislation Act 2001*, section 95.

Penalties

The value of a penalty unit for an offence against this republished law at the republication date is—

- (a) if the person charged is an individual—\$100; or
- (b) if the person charged is a corporation—\$500.

Australian Capital Territory

Electricity Safety Regulations 1971

made under the

Electricity Safety Act 1971

1 Name of regulations

These regulations are the *Electricity Safety Regulations 1971*.

2 Definitions for regulations

In these regulations:

consumer's overhead line means a line that—

- (a) is installed by an electricity distributor; and
- (b) is owned by a person other than an electricity distributor; and
- (c) is over land owned by that person.

lineworker means a person who supervises or performs—

- (a) work involved in—
 - (i) the erection or maintenance of overhead electric lines; or
 - (ii) the maintenance of street lighting that is connected to overhead or underground electric lines; or
- (b) tests to ensure that overhead electric lines are correctly fitted.

service equipment means—

- (a) a service line; or
- (b) a service cable; or
- (c) a point of attachment of a service line or service cable; or
- (d) a point of entry of a service line or service cable.

3 Exemption from inspection etc under the Act, s 33

- (1) Subject to this regulation, the circumstances prescribed for the purposes of section 32 of the Act are where the electrical wiring work—
- (a) has been carried out by an electricity distributor and consists of—
 - (i) the installation of a consumer's overhead line or of an underground service cable, being a line or cable by which electricity is transmitted; or
 - (ii) the connection or reconnection to, or disconnection from, a main or other plant of the distributor, of a main owned by a person other than the distributor; or
 - (d) consists of the installing of the wiring or a component of an electrical installation for a lift or escalator on the load side of a circuit breaker in the motor room for the lift or escalator; or
 - (f) is carried out by an electricity distributor on electrical service equipment that is owned or operated by the distributor; or
 - (g) is carried out by an electricity distributor on—
 - (i) electrical generating equipment, an electrical transformer, wire, cable or meter or electrical metering equipment; or
 - (ii) a fitting or support structure related to any equipment or item referred to in subparagraph (i);that is owned or operated by the distributor.
- (3) Subsection (1) (a), (f) and (g) do not apply in relation to electrical wiring work unless—
- (a) the work has, in the opinion of the chief executive, been completed in accordance with design and construction standards that have been lodged by an electricity distributor

with the chief executive, being standards relating to the avoidance of injury to persons or damage to property; or

- (b) where the work or any part of it has been carried out by a lineworker, the lineworker—
 - (i) has satisfactorily completed a training course leading to the qualification of accredited lineworker, being a course that—
 - (A) is an accredited course within the meaning of the *Vocational Education and Training Act 1995*; or
 - (B) was completed before the commencement of this regulation and is, in the view of the relevant electricity distributor, substantially equivalent to a course referred to in sub-subparagraph (A); or
 - (ii) is the holder of a licence under the law of a State or another Territory entitling him or her to work as a lineworker.

4 Exemption from Australian Standard 3000

For the purposes of section 33 (2) (b) of the Act, section 32 (1) (a) of the Act does not apply where the chief executive is satisfied that—

- (a) the electrical wiring work—
 - (i) is commenced before the day on which a revised edition of Australian Standard 3000 is published and is completed after that day; or
 - (ii) is completed before the expiry of the period of 6 months commencing on the day on which a revised edition of Australian Standard 3000 is published; and
- (b) the electrical wiring work complies with Australian Standard 3000 as in effect before the publication of the revised edition.

5 Exemption from the Act, s 33 and s 34

- (1) For the purposes of section 35 (a) of the Act, prescribed electrical wiring work is electrical wiring work consisting of the installing of the wiring or a component of an electrical installation for a lift or escalator on the load side of a circuit breaker in the motor room for the lift or escalator.
- (2) For the purposes of section 35 (b) of the Act, prescribed circumstances are—
 - (a) where electrical wiring work has been carried out by an electricity distributor and consists of—
 - (i) the installation of a consumer's overhead line or an underground service cable, being a line or cable by which electricity is transmitted; or
 - (ii) the connection or reconnection to, or disconnection from, a main or other plant of the distributor, of a main owned by a person other than the distributor; or
 - (b) where electrical wiring work is carried out by an electricity distributor on electrical service equipment that is owned or operated by the distributor; or
 - (c) where electrical wiring work is carried out by an electricity distributor on—
 - (i) electrical generating equipment, an electrical transformer, a wire, cable or meter or electrical metering equipment; or
 - (ii) a fitting or support structure related to any equipment or item referred to in subparagraph (i);that is owned or operated by the distributor.

- (3) Subregulation (2) does not apply in relation to electrical wiring work unless—
- (a) the work has, in the opinion of the chief executive, been completed in accordance with design and construction standards that have been lodged by an electricity distributor with the chief executive, being standards relating to the avoidance of injury to persons or damage to property; or
 - (b) where the work or any part of it has been carried out by a lineworker, the lineworker—
 - (i) has satisfactorily completed a training course leading to the qualification of accredited lineworker, being a course that—
 - (A) is an accredited course within the meaning of the *Vocational Education and Training Act 1995*; or
 - (B) was completed before the commencement of this regulation and is, in the view of the relevant electricity distributor, substantially equivalent to a course referred to in sub-subparagraph (A); or
 - (ii) is the holder of a licence under the law of a State or another Territory entitling him or her to work as a lineworker.

6 Articles of electrical equipment to bear registration number

For the purposes of 73 of the Act, each article of electrical equipment to which a registered declaration of compliance relates shall be marked, stamped or labelled by affixing the registration number of the declaration to, or writing that number indelibly on, the article.

7 Energy efficiency standards—Act, s 81 (5) (a) and (7)

The *Electricity Safety Act 1998* (Vic) is a corresponding law.

Note 1 At the commencement of this regulation, energy efficiency standards are prescribed under the *Electricity Safety Act 1998* (Vic) (see the *Electricity Safety (Equipment Efficiency) Regulations 1999* (Vic)) for the following articles of electrical equipment:

- clothes washing machines
- dishwashers
- refrigerating appliances
- single-phase refrigerative airconditioners and heat pumps
- rotary clothes dryers
- storage water heaters
- three-phase cage induction motors
- three-phase airconditioners and heat pumps.

Note 2 The text of Victorian Acts and regulations is available at www.dms.dpc.vic.gov.au

8 Articles of electrical equipment—labelling

- (1) Articles of electrical equipment mentioned in the *Electricity Safety (Equipment Efficiency) Regulations 1999* (Vic), regulation 16 (Electrical equipment labels) or schedule 3 (Standards for electrical equipment that requires registration and labelling), as in force from time to time, must be labelled as required under those provisions.

Note 1 At the commencement of this regulation, the articles of electrical equipment mentioned in the *Electricity Safety (Equipment Efficiency) Regulations 1999* (Vic), reg 16 and sch 3 are the following:

- clothes washing machines
- dishwashers
- refrigerating appliances
- single-phase refrigerative airconditioners and heat pumps
- rotary clothes dryers
- three-phase cage induction motors

Regulation 8

- three-phase airconditioners and heat pumps.

Note 2 The text of Victorian Acts and regulations is available at www.dms.dpc.vic.gov.au

- (2) The *Legislation Act 2001*, section 47 (6) does not apply to this regulation.

Endnotes

1 About the endnotes

Amending and modifying laws are annotated in the legislation history and the amendment history. Current modifications are not included in the republished law but are set out in the endnotes.

Not all editorial amendments made under the *Legislation Act 2001*, part 11.3 are annotated in the amendment history. Full details of any amendments can be obtained from the Parliamentary Counsel's Office.

Uncommenced amending laws and expiries are listed in the legislation history and the amendment history. These details are underlined. Uncommenced provisions and amendments are not included in the republished law but are set out in the last endnote.

If all the provisions of the law have been renumbered, a table of renumbered provisions gives details of previous and current numbering.

The endnotes also include a table of earlier republications.

If the republished law includes penalties, current information about penalty unit values appears on the republication inside front cover.

3 Legislation history

3 Legislation history

These regulations were originally called the *Electricity Regulations* and were originally made under a Commonwealth ordinance—the *Electricity Ordinance 1971* No 30 (Cwlth).

The *Australian Capital Territory (Self-Government) Act 1988* (Cwlth), s 34 (4) converted most former Commonwealth ordinances in force in the ACT, and the regulations made under them, into ACT enactments. This allowed the ACT Legislative Assembly to amend and repeal the laws. The *Electricity Ordinance 1971* and the *Electricity Regulations 1971* were converted into ACT enactments on 11 May 1989 (self-government day).

As with most ordinances in force in the ACT, the name of the ordinance was changed from *Ordinance* to *Act* by the *Self-Government (Citation of Laws) Act 1989* No 21, s 5 on 11 May 1989 (self-government day).

These regulations were renamed as the *Electricity Safety Regulations 1971* by the *Utilities (Consequential Provisions) Act 2000*, sch 2 pt 4.

Before 12 September 2001, regulations commenced on their notification day unless otherwise stated (see *Interpretation Act 1967* s 50, *Subordinate Laws Act 1989* s 6).

5 Earlier republications

5 Earlier republications

Some earlier republications were not numbered. The number in column 1 refers to the publication order.

Since 12 September 2001 every authorised republication has been published in electronic pdf format on the ACT legislation register. A selection of authorised republications have also been published in printed format. These republications are marked with an asterisk (*) in column 1. Except for the footer, electronic and printed versions of an authorised republication are identical.
