About this republication

The republished law

This is a republication of the *Road Transport (Safety and Traffic Management) Regulation 2000*, made under the *Road Transport (Safety and Traffic Management) Act 1999* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 9 December 2015. It also includes any commencement, amendment, repeal or expiry affecting this republished law to 9 December 2015.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication does not include amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced, the symbol **U** appears immediately before the provision heading. Any uncommenced amendments that affect this republished law are accessible on the ACT legislation register (www.legislation.act.gov.au). For more information, see the home page for this law on the register.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see the *Legislation Act 2001*, section 95.

Penalties

At the republication date, the value of a penalty unit for an offence against this law is \$150 for an individual and \$750 for a corporation (see *Legislation Act 2001*, s 133).

page 1

Effective: 09/12/15-17/03/16

Chapter 1 Preliminary

1 Name of regulation

This regulation is the *Road Transport (Safety and Traffic Management) Regulation 2000*.

2 Dictionary

The dictionary at the end of this regulation is part of the regulation.

Note 1 The dictionary at the end of this regulation defines certain terms used in this regulation, and includes references (*signpost definitions*) to other terms defined elsewhere.

For example, the signpost definition '*semitrailer*—see the *Road Transport (Vehicle Registration) Regulation 2000*, dictionary.' means that the term '*semitrailer*' is defined in that dictionary and the definition applies to this regulation.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire regulation unless the definition, or another provision of the regulation, provides otherwise or the contrary intention otherwise appears (see [Legislation Act](#), s 155 and s 156 (1)).

3 Dictionary—application to Australian Road Rules

The definitions in the dictionary do not apply to the [Australian Road Rules](#) unless this regulation provides otherwise.

Note See div 2.2.1, note 2 for the relevant provisions of this regulation.

3A Road includes road related area

In this regulation:

road includes a road related area.

3B Meaning of *park* and *stop*

In this regulation:

park, in relation to a driver, includes stop and allow the driver's vehicle to stay (whether or not the driver leaves the vehicle).

stop, for a driver, includes park, but does not include stop to reverse the driver's vehicle into a parking bay or other parking space.

4 Notes

A note in this regulation is explanatory and is not part of this regulation.

Note See the [Legislation Act](#), s 127 (1), (4) and (5) for the legal status of notes.

4A Offences against regulation—application of Criminal Code etc

Other legislation applies in relation to offences against this regulation (including the [Australian Road Rules](#)).

Note 1 *Criminal Code*

The [Criminal Code](#), ch 2 applies to an offence against this regulation (see Code, pt 2.1).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

Note 2 *Penalty units*

The [Legislation Act](#), s 133 deals with the meaning of offence penalties that are expressed in penalty units.

Note 3 The [Australian Road Rules](#) are to be read with, and as if they formed part of, this regulation (see s 6).

4B Offences against regulation are strict liability offences

An offence against this regulation (including the [Australian Road Rules](#)) is a strict liability offence.

4C General defence of accident or reasonable effort

Without limiting any other defence, it is a defence to an offence against this regulation (including the [Australian Road Rules](#)) if the defendant proves that the offence—

- (a) was the result of an accident; or
- (b) could not have been avoided by any reasonable efforts by the defendant.

Chapter 2 Australian Road Rules

Part 2.1 Incorporation into ACT law

5 Meaning of *Australian Road Rules*

In this regulation:

Australian Road Rules means that part of the publication known as the [Australian Road Rules](#), ISBN 0 7240 8874 1 published by the National Transport Commission in February 2012 that consists of the rules approved by the Australian Transport Council under the [National Transport Commission Act 2003](#) (Cwlth).

Part 2.2 How the Australian Road Rules are incorporated

Division 2.2.1 General

Note 1 The [Australian Road Rules](#) are not completely self-contained and need to be read with associated laws of each jurisdiction. Many of the rules provide for ‘another law of this jurisdiction’ to define terms used in the [Australian Road Rules](#) for application of the [Australian Road Rules](#) in the ACT, to permit things to be done in the ACT otherwise prohibited by the [Australian Road Rules](#) or to exempt persons in the ACT from complying with the [Australian Road Rules](#).

(2) The recording medium for a camera detection device may be—
(a) attached directly to, or located with, the device; or

- (b) at a place other than the place where the device is located.

Example—par (b)

If a motor vehicle goes through a red traffic light and an image of the vehicle is taken by a fixed camera detection device, the electronic file created by the device in relation to the offence is sent along a wire or optical fibre, or across a wireless network, to a recording device in a building in another suburb and is stored at that building on a recording medium.

Note An example is part of the regulation, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).

- (3) If the recording medium for a camera detection device is at a place other than the place where the device is located—
- (a) the device must produce a security checksum for each electronic file created by the device; and
 - (b) the device must encrypt the security checksum and the file; and
 - (c) the security checksum and the encrypted file must be recorded as soon as practicable on a recording medium.
- (4) However, subsection (3) does not prevent other security measures being taken in relation to a security checksum or an electronic file before it is recorded on the recording medium.

107B Verification of camera detection device image files—Act, s 23 (2) (c) (iii)

- (1) This section applies if an electronic file that contains an image of a vehicle taken by a camera detection device is recorded on a recording medium that is at a place other than the place where the device is located.
- (2) Before the image of the vehicle is produced from the file, the accuracy of the file must be verified by using a computer to—
- (a) recalculate the security checksum for the file; and

- (b) confirm that the security checksum produced by the recalculation is identical to the checksum produced by the device for the file.

108 Meaning of codes etc on image taken by approved camera detection device or approved average speed detection system—Act, s 24 (2) (a)

- (1) This section defines the meaning of codes and other information indicated on an image of a vehicle taken by an approved camera detection device or approved average speed detection system.

Note Information etc that is indicated on an image includes information etc accompanying or reasonably associated with the image (see [Act](#), dict, def of *indicated on*).

- (2) It is not necessary that all the codes and other information mentioned in this section be indicated on an image but if they do appear they have the meaning given in this section.
- (3) The characters (whether numbers, letters or both) in the field immediately after ‘Device’ is the code for—
- (a) the laser speed measuring device component of the digital camera detection device that took the image; or

- (9) The number in the field immediately after 'Speed li', which may be described as 'Speed limit', is the speed limit applying to the driver of the vehicle for the length of road where the driver was driving when the image was taken.

Example

'Speed li: 60' or 'Speed limit 60' indicates that the speed limit applying to the driver of the vehicle for the length of road where the driver was driving when the image was taken is 60 km/h.

- (10) The number in the field immediately after ‘Speed’ is the speed in kilometres per hour at which the driver of the vehicle was driving when the image was taken.

Example

‘Speed: 82’ indicates that the driver of the vehicle was driving at 82 km/h when the image was taken.

- (11) The characters (whether numbers, letters or both) in the field immediately after ‘Operator’ is the code for the person responsible for the use of the device when the image was taken.

Example

‘Operator: op002’ indicates that the code for the person responsible for the device when the image was taken is operator 002.

- (12) The characters (whether numbers, letters or both) in the field immediately after ‘Disk’ is the code for the recording medium used to record the image of the vehicle.

Example

‘Disk: WD0022’ indicates that the code for the device used to record the image was WD0022.

Note An example is part of the regulation, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see [Legislation Act](#), s 126 and s 132).
