About this republication

The republished law

This is a republication of the *Workers Compensation Regulation 2002*, made under the *Workers Compensation Act 1951* (including any amendment made under the *Legislation Act 2001*, part 11.3 (Editorial changes)) as in force on 4 November 2004. It also includes any amendment, repeal or expiry affecting the republished law to 4 November 2004.

The legislation history and amendment history of the republished law are set out in endnotes 3 and 4.

Kinds of republications

The Parliamentary Counsel's Office prepares 2 kinds of republications of ACT laws (see the ACT legislation register at www.legislation.act.gov.au):

- authorised republications to which the *Legislation Act 2001* applies
- unauthorised republications.

The status of this republication appears on the bottom of each page.

Editorial changes

The *Legislation Act 2001*, part 11.3 authorises the Parliamentary Counsel to make editorial amendments and other changes of a formal nature when preparing a law for republication. Editorial changes do not change the effect of the law, but have effect as if they had been made by an Act commencing on the republication date (see *Legislation Act 2001*, s 115 and s 117). The changes are made if the Parliamentary Counsel considers they are desirable to bring the law into line, or more closely into line, with current legislative drafting practice.

This republication includes amendments made under part 11.3 (see endnote 1).

Uncommenced provisions and amendments

If a provision of the republished law has not commenced or is affected by an uncommenced amendment, the symbol **U** appears immediately before the provision heading. The text of the uncommenced provision or amendment appears only in the last endnote.

Modifications

If a provision of the republished law is affected by a current modification, the symbol **M** appears immediately before the provision heading. The text of the modifying provision appears in the endnotes. For the legal status of modifications, see *Legislation Act 2001*, section 95.

- (a) if the person charged is an individual—\$100; or
- (b) if the person charged is a corporation—\$500.

Workers Compensation Regulation 2002

made under the

Workers Compensation Act 1951

Part 1 Preliminary

1 Name of regulation

This regulation is the *Workers Compensation Regulation 2002*.

2 Offences against regulation—application of Criminal Code etc

Other legislation applies in relation to offences against this regulation.

Note 1 Criminal Code

The Criminal Code, ch 2 applies to offences against this regulation (see Code, pt 2.1).

The chapter sets out the general principles of criminal responsibility (including burdens of proof and general defences), and defines terms used for offences to which the Code applies (eg *conduct*, *intention*, *recklessness* and *strict liability*).

Note 2 Penalty units

The Legislation Act, s 133 deals with the meaning of offence penalties that are expressed in penalty units.

Part 2 Interpretation generally

3 Dictionary

The dictionary at the end of this regulation is part of this regulation.

Note 1 The dictionary at the end of this regulation defines certain terms used in this regulation, and includes references (*signpost definitions*) to other terms defined elsewhere in this regulation.

For example, the signpost definition '*injury management*—see the Act, section 86.' means that the term 'injury management' is defined in the Act, section 86.

Note 2 A definition in the dictionary (including a signpost definition) applies to the entire regulation unless the definition, or another provision of the regulation, provides otherwise or the contrary intention otherwise appears (see Legislation Act, s 155 and s 156 (1)).

4 Notes

A note included in this regulation is explanatory and is not part of this regulation.

Note See the Legislation Act, section 127 (1), (4) and (5) for the legal status of notes.

5 Approval of medical guidelines

- (1) The Minister may, in writing, approve medical guidelines about—
 - (a) the diagnosis of, or prognosis or treatment for, injuries; or
 - (b) how to assess the extent of an injury for the Act, part 4.4 (Compensation for permanent injuries).

Note Power given under a regulation to make a statutory instrument (including medical guidelines) includes power to amend or repeal the instrument (see Legislation Act, s 46 (1)).

- (2) If the OH&S Council sets up an advisory committee mentioned in the Act, section 216 (Minister must take advice), the Minister must

consider any recommendation made by the committee about proposed medical guidelines.

- (3) An approved medical guideline is a notifiable instrument.

Note A notifiable instrument must be notified under the Legislation Act.

- (4) An approved medical guideline may apply, adopt or incorporate an instrument, or a provision of an instrument, as in force at a particular time.

Note The text of an applied, adopted or incorporated instrument, whether applied as in force from time to time or as at a particular time, is taken to be a notifiable instrument if the operation of the Legislation Act, s 47 (5) or (6) is not disapplied (see s 47 (7)).

- (5) The Legislation Act, section 47 (5) does not apply to a medical guideline mentioned in subsection (1) (b).

6 **Meaning of *clinically relevant research***

In this regulation:

clinically relevant research means research—

- (a) recognised as clinically relevant by a specialist medical college; or
- (b) approved by the Minister under section 7.

7 **Approval of clinically relevant research**

- (1) The Minister may, in writing, approve information (including information on an internet site) as clinically relevant research.

- (2) An approval is a notifiable instrument.

Note A notifiable instrument must be notified under the Legislation Act.

- (3) An approval may apply, adopt or incorporate an instrument, or a provision of an instrument, as in force from time to time.

Note The Legislation Act, s 47 (3) provides that a statutory instrument may apply an instrument or provision of an instrument as in force only at a

particular time. Subsection (3) allows the approval to also apply, adopt or incorporate an instrument as in force from time to time.

- (4) The Legislation Act, section 47 (5) and (6) does not apply to an instrument or a provision of an instrument mentioned in subsection (3).

Note The text of an applied, adopted or incorporated instrument, whether applied as in force at a particular time or from time to time, is taken to be a notifiable instrument if the operation of the Legislation Act, s 47 (5) or (6) is not disapplied (see s 47 (7)).

8 **Meaning of *evidence-based methodology***

In this regulation:

evidence-based methodology means the application by a doctor of the doctor's clinical expertise, and any relevant approved medical guidelines or clinically relevant research, to—

- (a) identify the aetiology of an injured worker's injury; and
- (b) diagnose the injury; and
- (c) give a prognosis for the injury; and
- (d) make recommendations about medical treatment for the injury.

Part 3 Medical assessments

Division 3.1 How medical assessments must be done

9 Using evidence-based methodology

- (1) A doctor who does a medical assessment of an injured worker must do the assessment using evidence-based methodology.

Note The Act, s 118 (2) provides that a medical certificate required to accompany a claim for weekly compensation must comply with the requirements for medical assessments under the regulations.

If s 118 (2) is not complied with, for example, if a medical certificate about an injured worker is deficient because it does not refer to an approved medical guideline or clinically relevant research for that type of injury, under the Act, s 119 the insurer may tell the worker about the deficiency. The worker's claim is not considered to have been made until the deficiency is fixed.

If the insurer does not tell a worker about a deficiency, the claim is taken to comply with s 118 (2) (see the Act, s 119 (3)).

- (2) The doctor must record the results of the assessment, including the following matters:
- (a) the aetiology of the worker's injury;
 - (b) the diagnosis of the injury;
 - (c) the prognosis for the injury;
 - (d) the recommended medical treatment for the injury.
- (3) However, for a later medical assessment of an injured worker, the doctor who does the assessment need record a matter mentioned in subsection (2) only if the doctor considers that there has been a change in the matter.

(4) In this section:

initial medical assessment, of an injured worker, means the first medical assessment by the worker's doctor for a medical certificate mentioned in the Act, section 116 (2) (Making claim for compensation).

later medical assessment, of an injured worker, means a medical assessment other than—

- (a) an initial or second medical assessment of the worker; or
- (b) if the worker's nominated treating doctor is replaced by another nominated treating doctor—the first medical assessment of the worker by the new nominated treating doctor.

second medical assessment means an assessment mentioned in the Act, section 72 (Second assessments).

Division 3.2 Medical specialists

10 Assessment by medical specialist—request by other than nominated treating doctor

- (1) This section does not apply to a request by an injured worker's nominated treating doctor for a medical assessment of the worker by a medical specialist.
- (2) The following (the *requesting person*) may request a medical assessment of an injured worker by a medical specialist:
 - (a) the worker;
 - (b) the worker's lawyer;
 - (c) the worker's employer;
 - (d) the employer's insurer.

- (3) At least 2 weeks before the day of the medical assessment, written notice of the request must be given—
- (a) if the request is made by the worker or the worker’s lawyer—to the worker’s employer and the employer’s insurer; or
 - (b) if the request is made by the worker’s employer or the employer’s insurer—to the worker and the worker’s lawyer.
- (4) Subsection (3) does not prevent a medical assessment of the worker happening with less than the 2 weeks notice if the parties agree to the shorter notice.
- (5) The notice must state—
- (a) the reasons for the request (including a brief description of any particular thing that led to the request); and
 - (b) why the medical specialist is the appropriate specialist to do the medical assessment; and
 - (c) which of the following matters are to be assessed in relation to the injury:
 - (i) aetiology;
 - (ii) diagnosis;
 - (iii) prognosis;
 - (iv) recommended medical treatment.

Example for par (a)

An insurer disagrees with an injured worker’s nominated treating doctor’s assessment that the worker has suffered a relapse, and needs more time off work. The insurer considers that the time off does not relate to the injury.

Note An example is part of the regulation, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (6) The requesting person, and the people to whom the requesting person must give notice under subsection (3), must give all medical

evidence about the injured worker to the medical specialist at least 2 working days before the day of the medical assessment.

11 Specialist's report about assessment

- (1) A medical specialist assessing an injured worker must, when asked by someone (the *requesting person*) under section 10 (2), prepare a report about the medical assessment.
- (2) If the medical specialist's assessment differs from the medical evidence about the injured worker, the report must state—
 - (a) how the assessment differs and why; and
 - (b) why the medical specialist's assessment is preferable.
- (3) If there is no difference between the medical specialist's assessment and the medical evidence, the report must say there is no difference.
- (4) The requesting person must give a copy of the report to the people to whom the requesting person must give notice under section 10 (3) within 5 working days after the day the report is given to the requesting person.

Note An injured worker's nominated treating doctor may adopt (completely or partly) a medical specialist's assessment about treatment for the worker's treatment.

12 Medical specialist as new nominated treating doctor

- (1) This section applies if the nominated treating doctor (the *treating doctor*) for an injured worker considers it appropriate that a medical specialist becomes the nominated treating doctor for the worker, and the worker agrees.
- (2) The treating doctor may ask the medical specialist, in writing, to become the nominated treating doctor for the worker.
- (3) If the medical specialist agrees in writing, the medical specialist becomes the nominated treating doctor for the worker instead of the treating doctor.

Part 4 Medical referees

13 Consultation about appointment of medical referees

If the OH&S Council sets up an advisory committee mentioned in the Act, section 216 (Minister must take advice), the Minister may ask the committee to give advice about who should be a medical referee.

14 Medical referee to review medical evidence etc

- (1) This section applies to a medical referee for a conciliation or arbitration.
- (2) The medical referee must—
 - (a) review the medical evidence about the injured worker; and
 - (b) review any relevant approved medical guidelines or clinically relevant research about the worker's injury; and
 - (c) apply the referee's clinical expertise to the review under paragraphs (a) and (b); and
 - (d) do a medical assessment of the worker, unless the referee considers it unnecessary.

15 Medical referee's report

- (1) A medical referee's report for a conciliation or arbitration must state—
 - (a) the results of the referee's assessment of the aetiology or diagnosis of, or the prognosis or recommended medical treatment for, the worker's injury; and
 - (b) if the referee's assessment differs from the medical evidence about the worker's injury—

- (i) how the assessment differs and why; and
- (ii) why the referee's assessment is preferable; and
- (c) if the referee considered it unnecessary to assess the worker—
why the referee did not consider it necessary.

Example of why assessment may differ

The medical evidence does not take into account relevant approved medical guidelines or clinically relevant research.

Note An example is part of the regulation, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (2) If there is no difference between the medical referee's assessment and the medical evidence, the report must say there is no difference.

Part 5 Rehabilitation providers
